

Internet as a MODERN WAY OF COMMUNICATION

We are glad to present here our project which is called Internet is Modern Way of Communication. It is a very important problem nowadays because there are lots of people in the world and they are all different.

As our life is very fast and we have much to do every minute, the easiest way to communicate is by Internet.

The project is done by:

*Ivan Gorb,
Alina Koroleva,
Sasha Povidysh,
Sasha Sevruk .*

AIM:

to make a survey on modern ways of communication through the Internet.

Tasks:

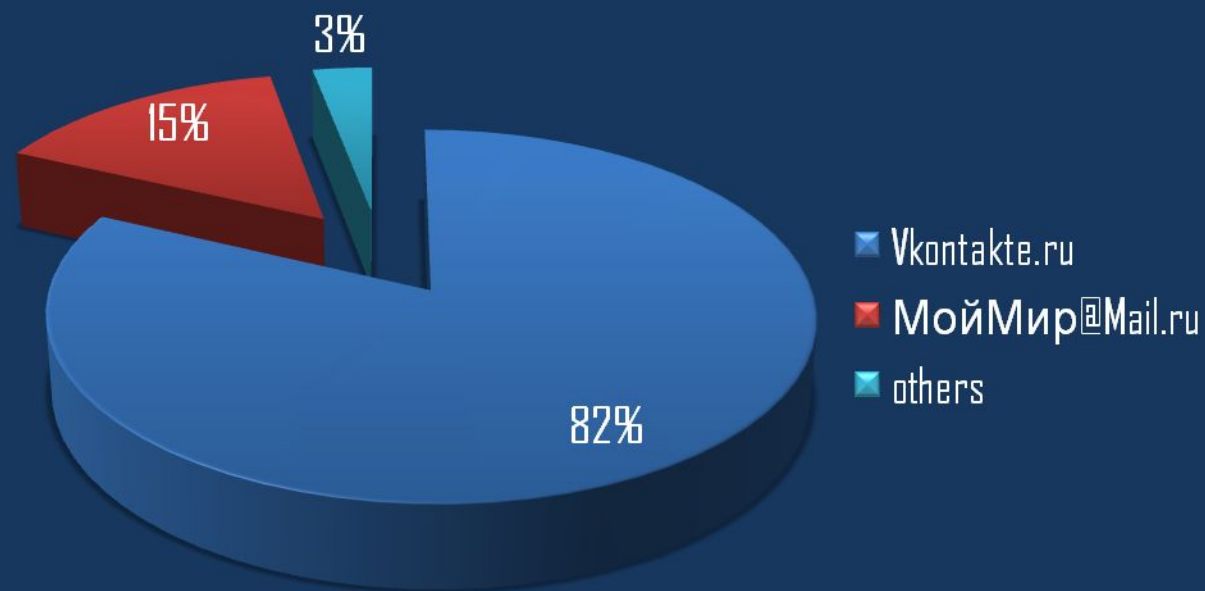

to find out if there is any danger in virtual reality (communication through the internet and on-line games).

to find out which ways of communication and interaction modern 6th formers use.

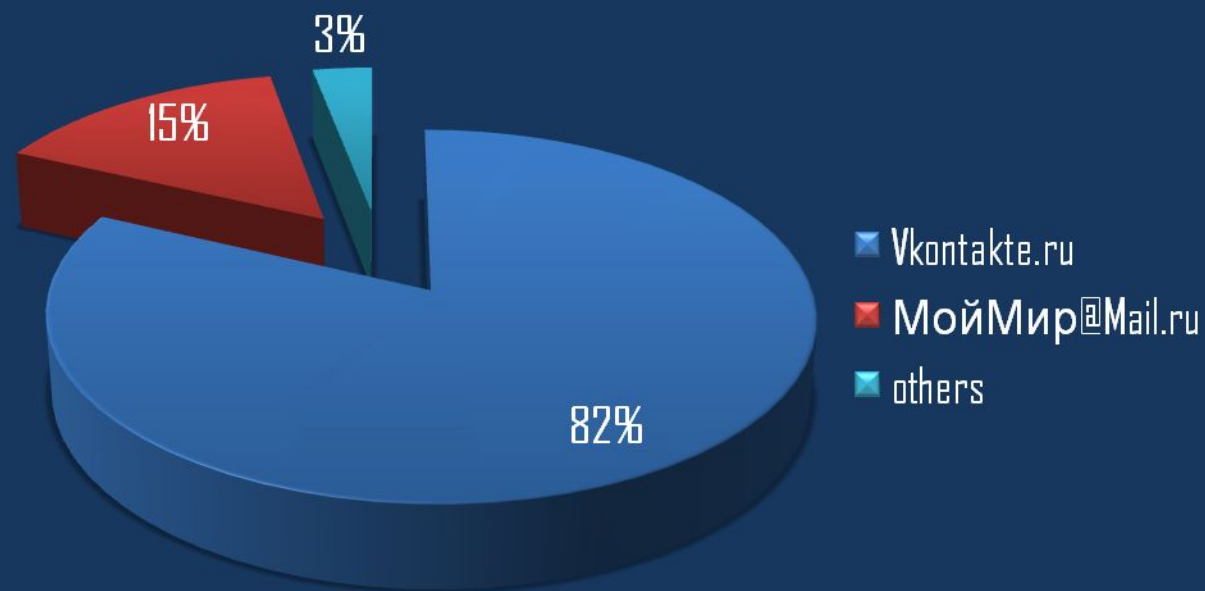

to find out some information about ways of communication through the Internet.

to find out what types of communication there are.

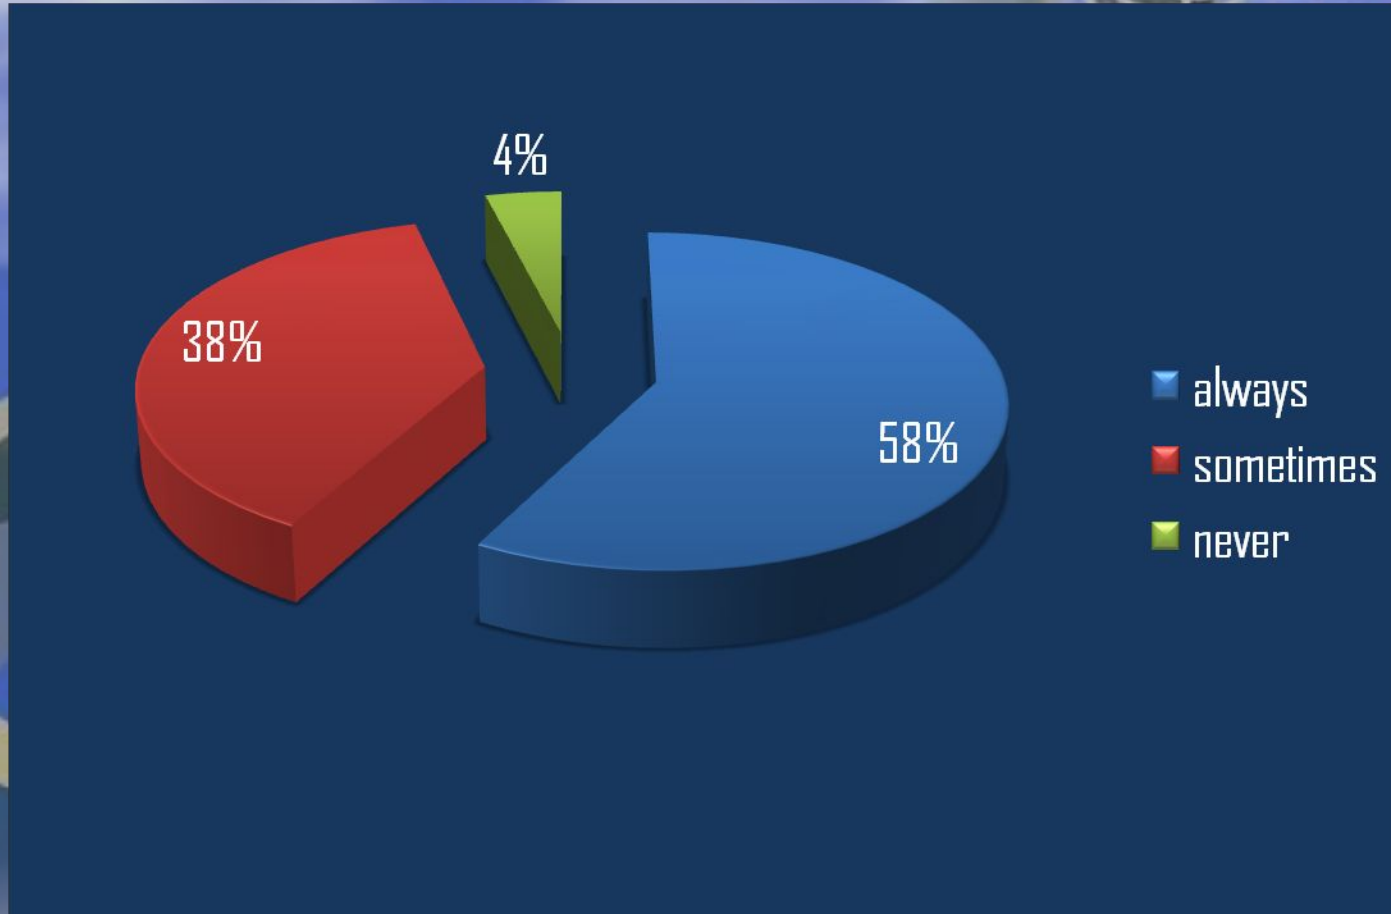

Which social networks do you use more often?

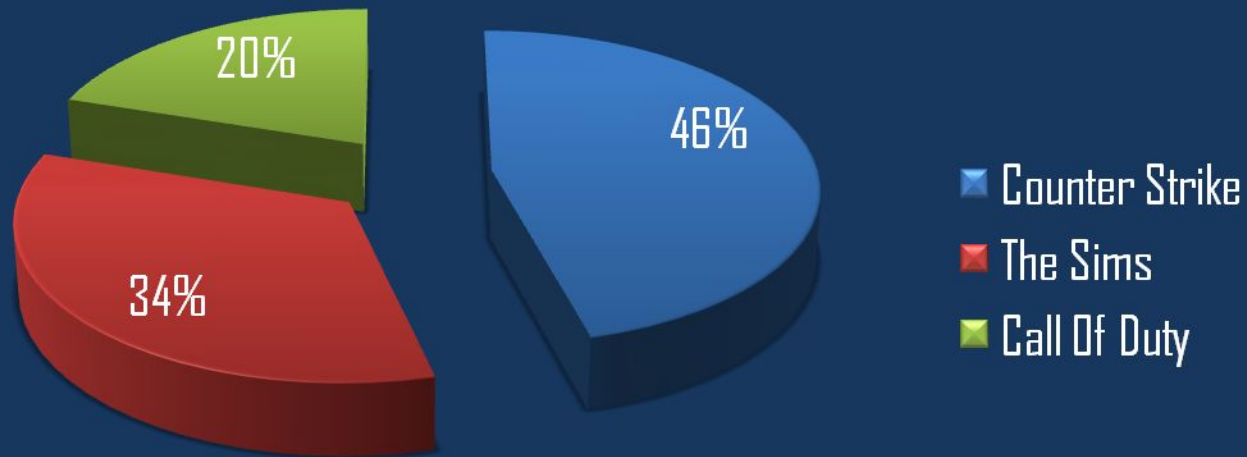

Which social networks do you use more often?

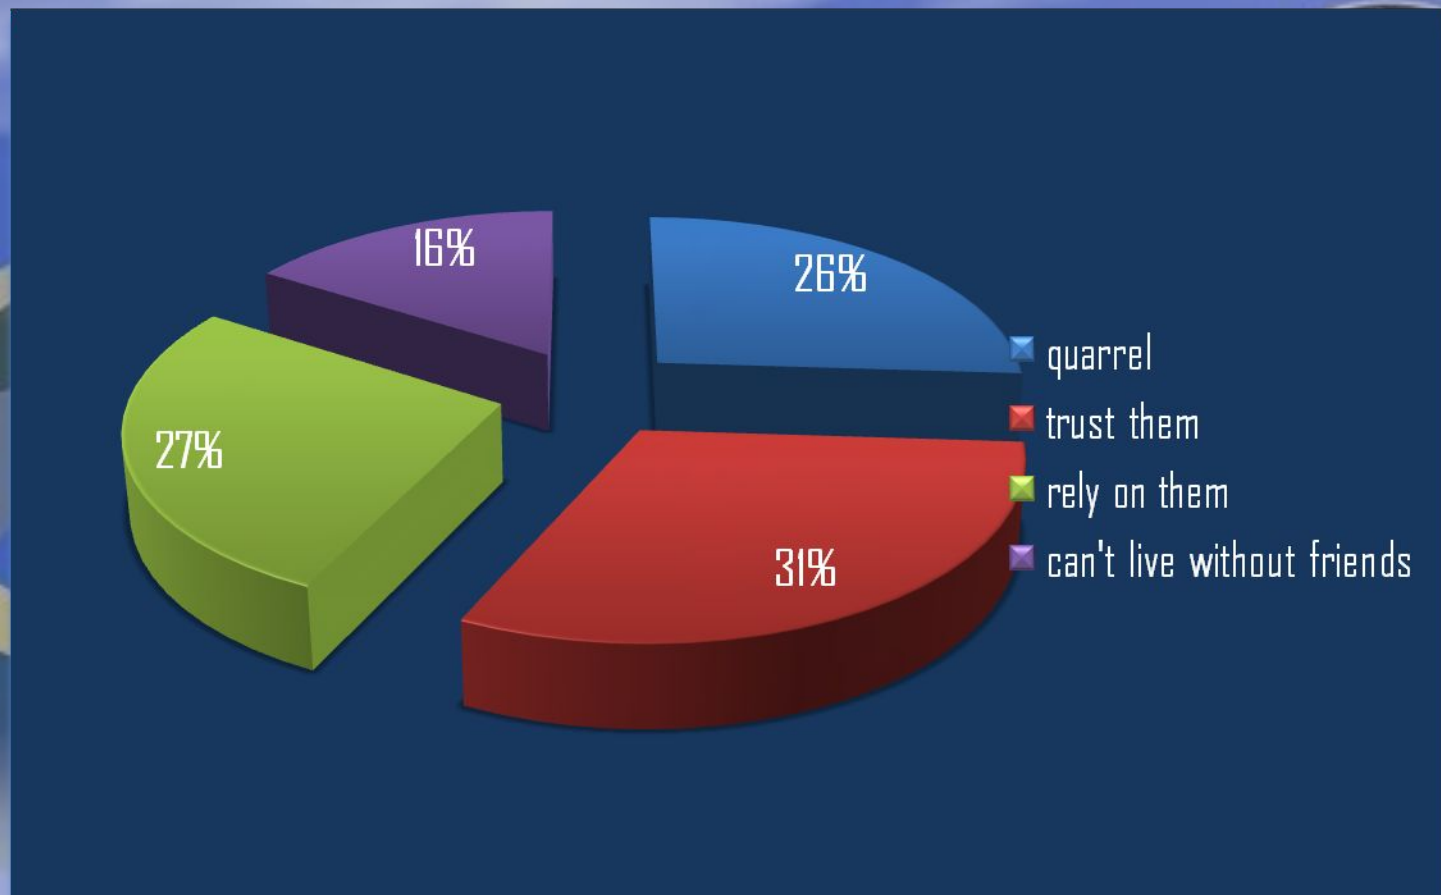

Do you play on line games?

What on-line games do your classmates play?

What real friends are and relationship between people.

The main results

And our real life is our real life. Every person takes an active part in The Internet doesn't give you a possibility to associate like when you meet each other.

There are several ways to communicate through the Internet.

The most popular between them is

But it is the best way to spend your time with friends without leaving home.

As for virtual reality, there is a real danger for people to get addicted to it

Communication through the Internet is always successful.
