# M-teaching.

Questions:

1. How do you understand letter 'm'?
2. What innovations do you want at your lessons? Are you ready to use them?
3. What gadgets can you use and would like your pupils use at your lessons and how?
4. What pros and cons of this method do you see?

# **Natalia Alexandrovna**

The teacher of chemistry

## **Natalia Alexandrovna's answers:**

1) About m-teaching:

Natalia Alexandrovna thinks that m-teaching means multi teaching. She doesn't know why, but this is her first association.

2) About gadgets:

At her lessons she uses only a computer. But she doesn't allow students to use gadgets in the classroom.

3) pros:

In her opinion, studying with gadgets is a modern form of education. With gadgets you can find a lot of useful information and it's really comfortable.

cons:

Student use the gadgets for other purposes (not for education)

For example: computer games.

# My opinion and conclusion.

I think this project is very interesting . I heard about a mobile teaching, but I had never thought about it. In my opinion, it was very interesting to know opinions of teachers and students. It is very useful information.

Of course, all students agree that it's difficult to live without gadgets.
