I have made some  
interrogation in my class.  
Most of us believe that GM is  
useless and harmful. Only one  
person thinks that it is helpful.  
And five students have no  
interest on it.

You asked: “Would you like to eat GM-tomato?”. I wouldn't. I want to live and have a good health.

Made by Alina

**In conclusion I should say: GM – foods are dangerous. If you want to be healthy and happy try to beware of them. Let's go to eat useful food.**
