# OP “Development of the Competitiveness of the Bulgarian Economy”

## Priority Axis 1: “Development of a knowledge-based economy and innovation activities”

is focused on assisting the development of R&D activities for and by enterprises, aiming at strengthening their innovation potential and establishing a suitable pro-innovative business infrastructure, which shall strengthen the science-business relationship.

## Priority Axis 2: “Increasing efficiency of enterprises and promoting a supportive business environment”

is focused on the support of micro-, small and medium-sized enterprises with a development potential, where the modernization of technologies and quality management will be assisted, as well as the improvement of the consultancy and information services offered to business, improving energy efficiency of enterprises and encouraging business co-operation and networking. A specific focus will be to promote investments in environmentally friendly, low-waste, energy saving production technologies and utilization of renewable energy sources

# OP “Development of the Competitiveness of the Bulgarian Economy”

## Priority Axis 3: “Financial Resources for Developing Enterprises”

aims at improving the access to development capital for enterprises. Its objectives are to increase investment activity and promotion of entrepreneurship through the development of special financial instruments and financial engineering for SME funding. The envisaged interventions are intended to add new opportunities for access to risk capital to SMEs in “financing niches” where traditional bank finance is currently absent or deficient. The achievement of the majority of these objectives will be sought through implementation of the joint initiative JEREMIE (*Joint European Resources for Micro to medium Enterprises*).

## Priority Axis 4: “Strengthening the international market positions of Bulgarian economy”.

The priority axis is aimed at facilitating the integration of the Bulgarian economy in the single European and world market through improving the environment for investments and export. It will support the promotion of foreign investments in Bulgaria, improve the export potential of the national economy, and provide support for the national quality infrastructure by upgrading the calibration and testing laboratories and conformity assessment bodies.

# Operational Programme “Development of the Competitiveness of the Bulgarian Economy”

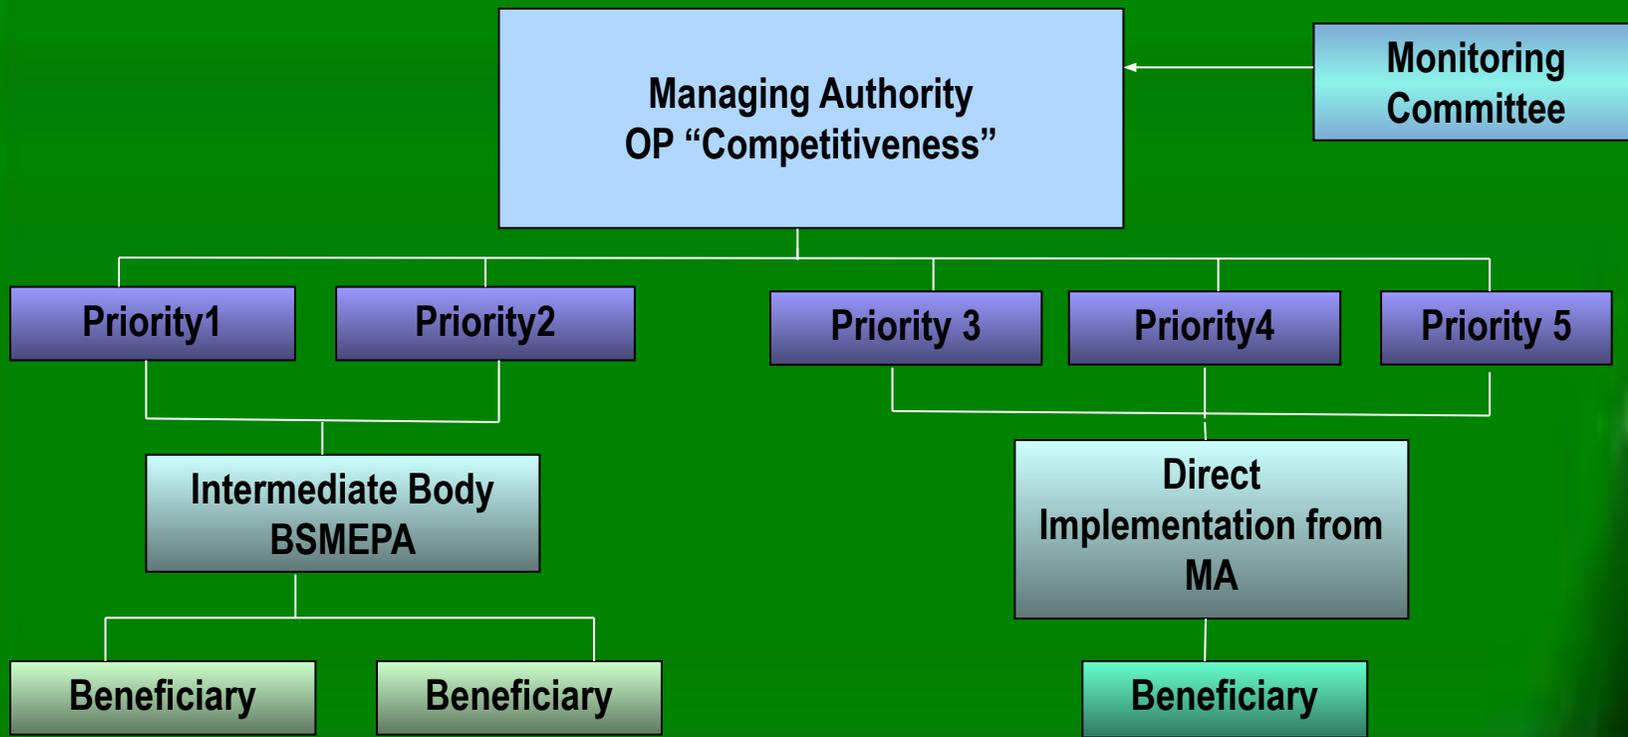

## Priority Axis 5: "Technical Assistance"

will provide support for the management, implementation, monitoring and control of OP "Competitiveness" activities as well as support for the work of the Monitoring Committee by funding researches and studies necessary for the implementation and the evaluation of the projects, information and publicity measures which are ensuring the transparency of the programme. The objective of the priority axis is to improve the quality of the interventions to be carried out and to increase the effectiveness of Structural funds absorption.

# The Impact of the Global Economic Crisis on the Corporate Sector – a Firm-Level Survey by the WB

- The drop in demand was the most relevant impact of the crisis in all countries
- The impact of the crisis was extensive, regardless of sector, firm size, or location
- Yet some enterprises have already experienced significant growth

# The Impact of the Global Economic Crisis on the Corporate Sector – a Firm-Level Survey by the WB

- The corporate sector's debt is moderate
- Firms reacted to the crisis by increasing the use of internal funds to finance working capital
- Enterprises are also delaying payments to tax authorities or suppliers

# The Impact of the Global Economic Crisis on the Corporate Sector – a Firm-Level Survey by the WB

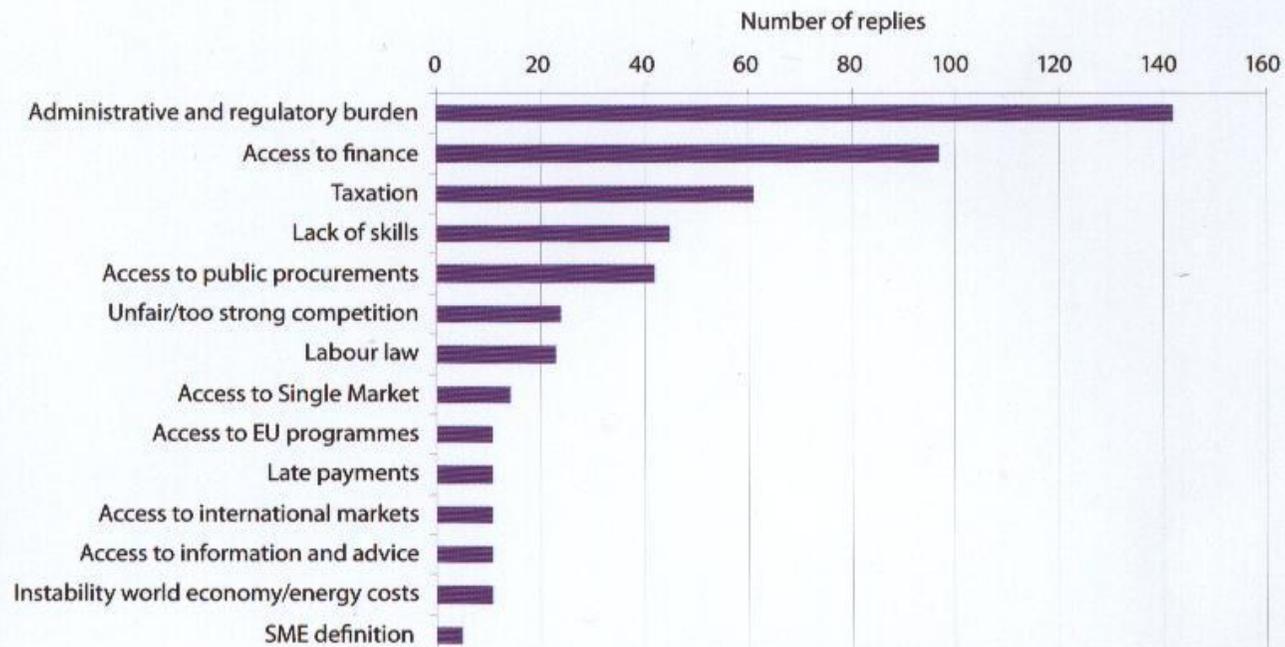

- As firms allocate more of their internal funds to finance working capital, fewer resources will be available for investments in new equipment, labor training, and R&D.
- Younger firms experienced a larger contraction in sales than older firms
- Innovative firms were more likely to report larger declines in sales

## WHAT CHALLENGES DO SMEs FACE?

### Most important problems EU SMEs are facing

N.B.: It was possible to give several replies

Source: European Commission, Report on the results of the open consultation on a Small Business Act for Europe, April 2008

A NEW STRATEGY FOR THE SINGLE MARKET  
DE MONTI'S REPORT TO THE PRESIDENT OF THE EC  
JOSÉ MANUEL BAROSSO

### Initiatives to build a stronger single market

- ensuring better functioning of the single market in the perspective of citizens, consumers and SMEs;
- creating a digital single market;
- exploiting the potential of the single market to support green growth and Europe's transition to a low-carbon, resource efficient economy;
- reaping the full benefits of the single market for goods;
- fully exploiting the potential of the single market for services;
- ensuring geographical labour mobility in the single market.
- establishing the "physical" infrastructure for the single market;
