

# Ideal student

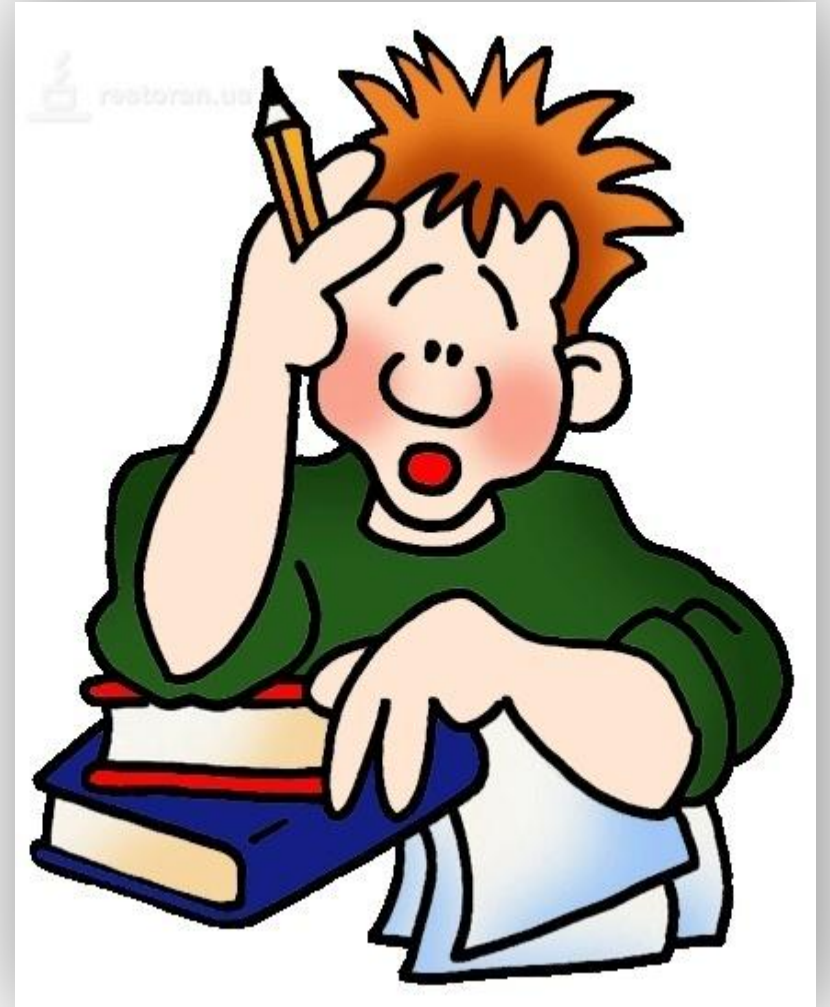

First of all student should be very clever and very active.

He should be very polite with teacher and of course respect him

Ideal student should  
do homework and  
be ready on every  
lesson

He should work hard, if he want to graduate from the university successfully.

He should visit all lessons and lectures and take active part in it.

I think student should help other students, who don't understand something.

I think that's all

Good Luck
