

The implementation of the eTA in Yemen

1. The eTA will be formally one of the mitigating measures in Yemen starting 1 July 2019
2. Successfully implemented in 23 countries
3. Allows direct notifications to all UNSMS personnel without depending on agencies' focal points.
4. UNDSS Staff + Radio Rooms at all SAs in Yemen will operate the Command Centre (CC)
5. eTA requires Wi-Fi or Mobile Data coverage (2G is enough)
6. Massive testing will start now. Encourage users !
7. Future feature with ETC, vehicle tracking from the same CC

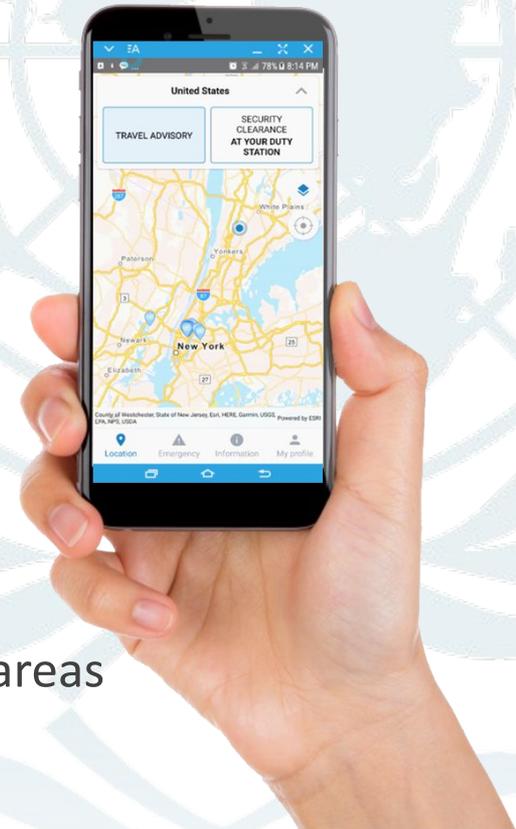

Who is the eTA for?

- **UNSMS Personnel**

- Access UNDSS information easily
- Receive security notifications, headcount request emergency chat capability

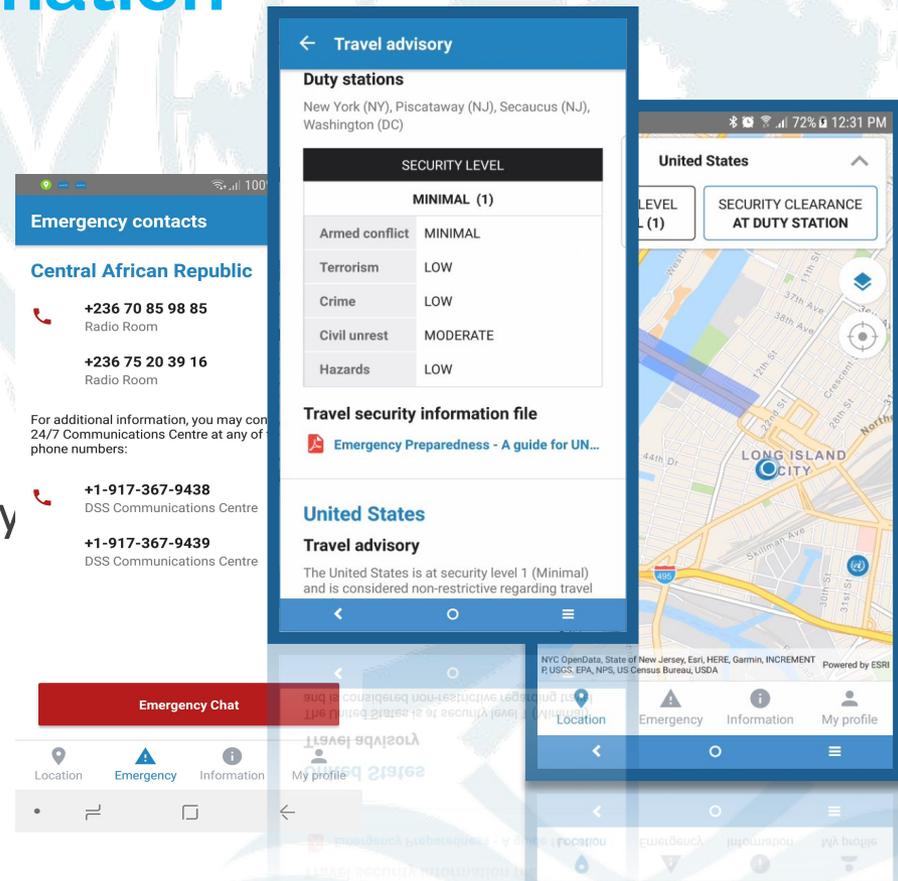

- **Security Professionals**

- Enhance security management
- Send security notifications using geo-fencing
- Allow to account for staff
- Facilitate emergency chat
- Enable/Disable personnel geo-location in high-risk areas
- Reports and statistics

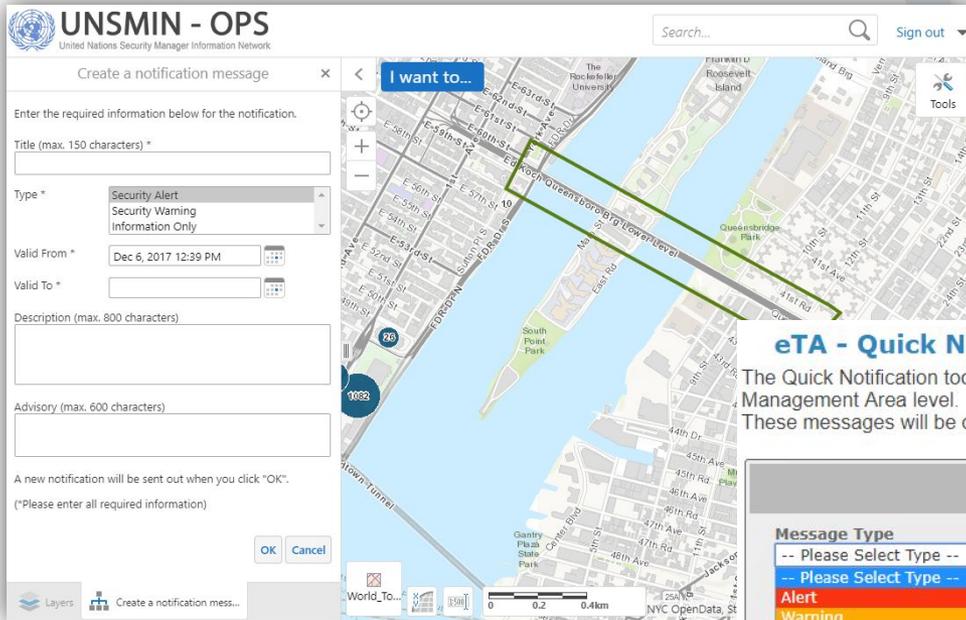

Security-Related Information

- Location-based travel advisory
- Security clearance status
- Emergency details
 - Closest DSS contact details
 - UNDSS ComsCen
 - Emergency chat with UN Security
- UN premises locations
 - Integrates with Google maps for directions

Sending Security Notifications

UNSMIN - OPS
United Nations Security Manager Information Network

Create a notification message

Enter the required information below for the notification.

Title (max. 150 characters) *

Type *
Security Alert
Security Warning
Information Only

Valid From *
Dec 6, 2017 12:39 PM

Valid To *

Description (max. 800 characters)

Advisory (max. 600 characters)

A new notification will be sent out when you click "OK".
(*Please enter all required information)

eTA - Quick Notification

The Quick Notification tool allows you to send eTA messages, within your Areas of responsibility at the Designated Area, Security Management Area level.

These messages will be displayed to UN personnel on their mobile devices through the eTA app.

Quick Notification

Message Type
-- Please Select Type --
-- Please Select Type --
Alert
Warning
Information

Security Area (SA)
Central Highlands Region

Security Risk Management Area (SRMA)
-- Please Select SRMA --

Message Title
Please Type Message Title (max 150 char.)

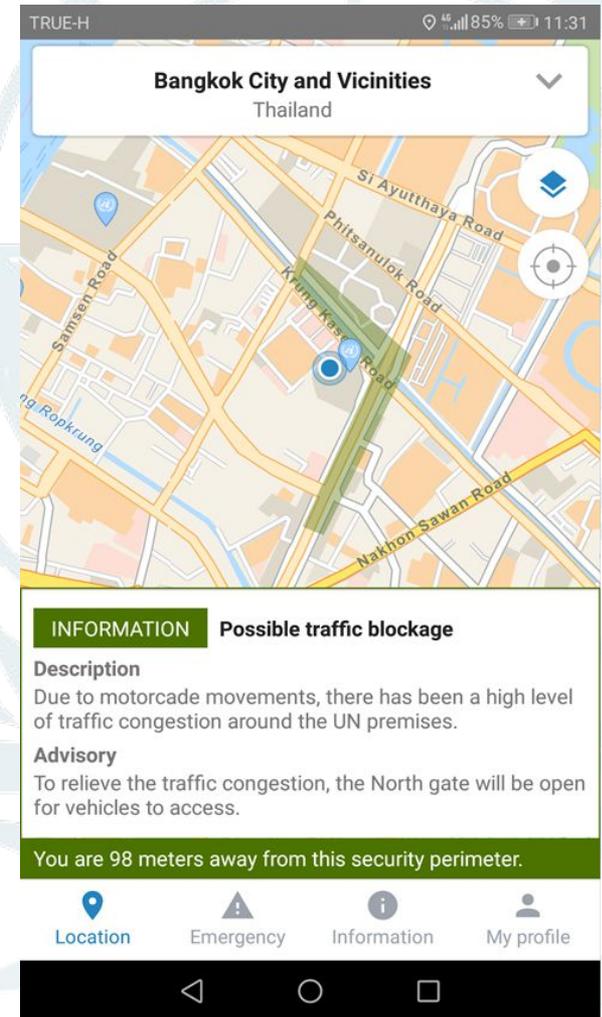

Message
Add message text here (max 1500 char.)

Publish

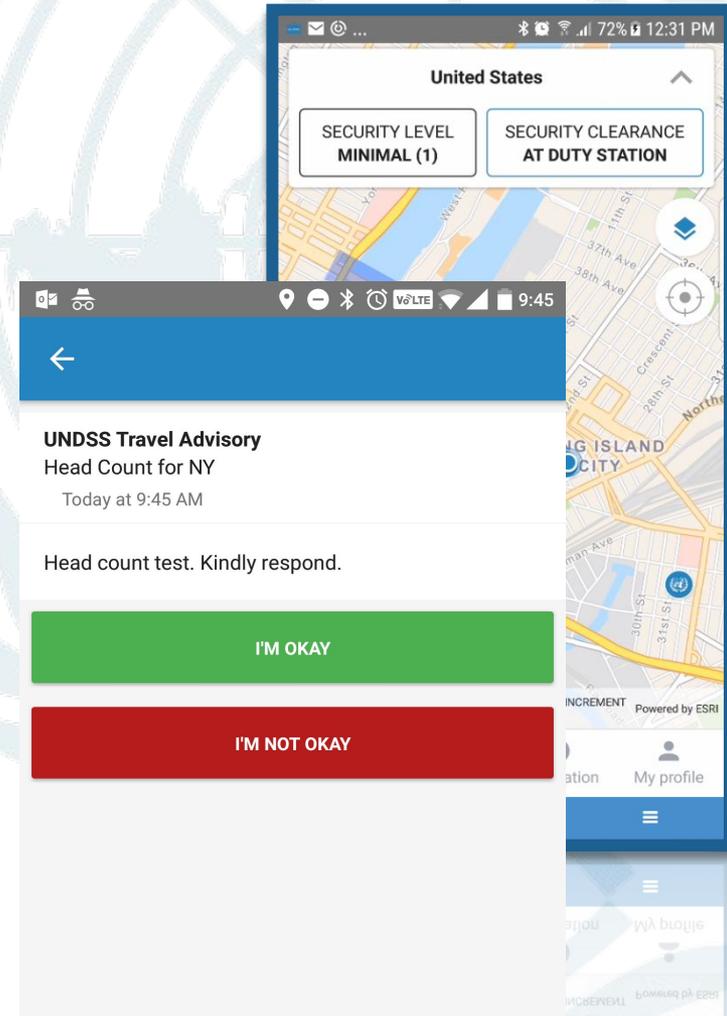

Security Notifications

- Receive location-based security notifications (Information / Warning / Alert)
 - in Designated Areas, Security Areas, Risk Management Areas
 - in or near ad-hoc security notification area (geo-fencing)
- List of past security notifications is saved on device

Request for Status

- Receive requests for status
 - I'm okay
 - I'm not okay
- in Designated Areas, Security Areas, Risk Management Areas
- in or near ad-hoc security notification areas (geo-fencing)
- **During the pilot, there will be no response from UNDSS or any other entity if a user responds "I'M NOT OKAY" to any test message sent.**

Welcome to the electronic Travel Advisory (eTA) !

Electronic Travel Advisory (eTA) is the new mobile APP that will enable all UN personnel to receive security communications and to access emergency contact information, travel advisories, security clearance status, locations and directions to UN premises and more. It is also a set of GIS and UNSMIN tools that enable UNSMS security personnel to send messages that are tailored to personnel in specific areas, and to locate personnel in cases of emergency.

eTA - SECURITY MANAGEMENT TOOLS

Requesting Headcount

The screenshot displays the eTA (e-Targeting Assistant) interface. At the top left, the UN logo and 'eTA' are visible. A search bar is located at the top right. Below the search bar, there are filter options for 'Age (years): No', 'Age (years): Yes', and 'MILITARY LAH: No response'. The main area shows a map of Bangkok with several yellow location markers. Below the map, there are navigation and zoom controls. At the bottom, two charts are displayed: a pie chart titled 'HeadCount_Response' and a bar chart titled 'Head Count by Agency'.

HeadCount_Response

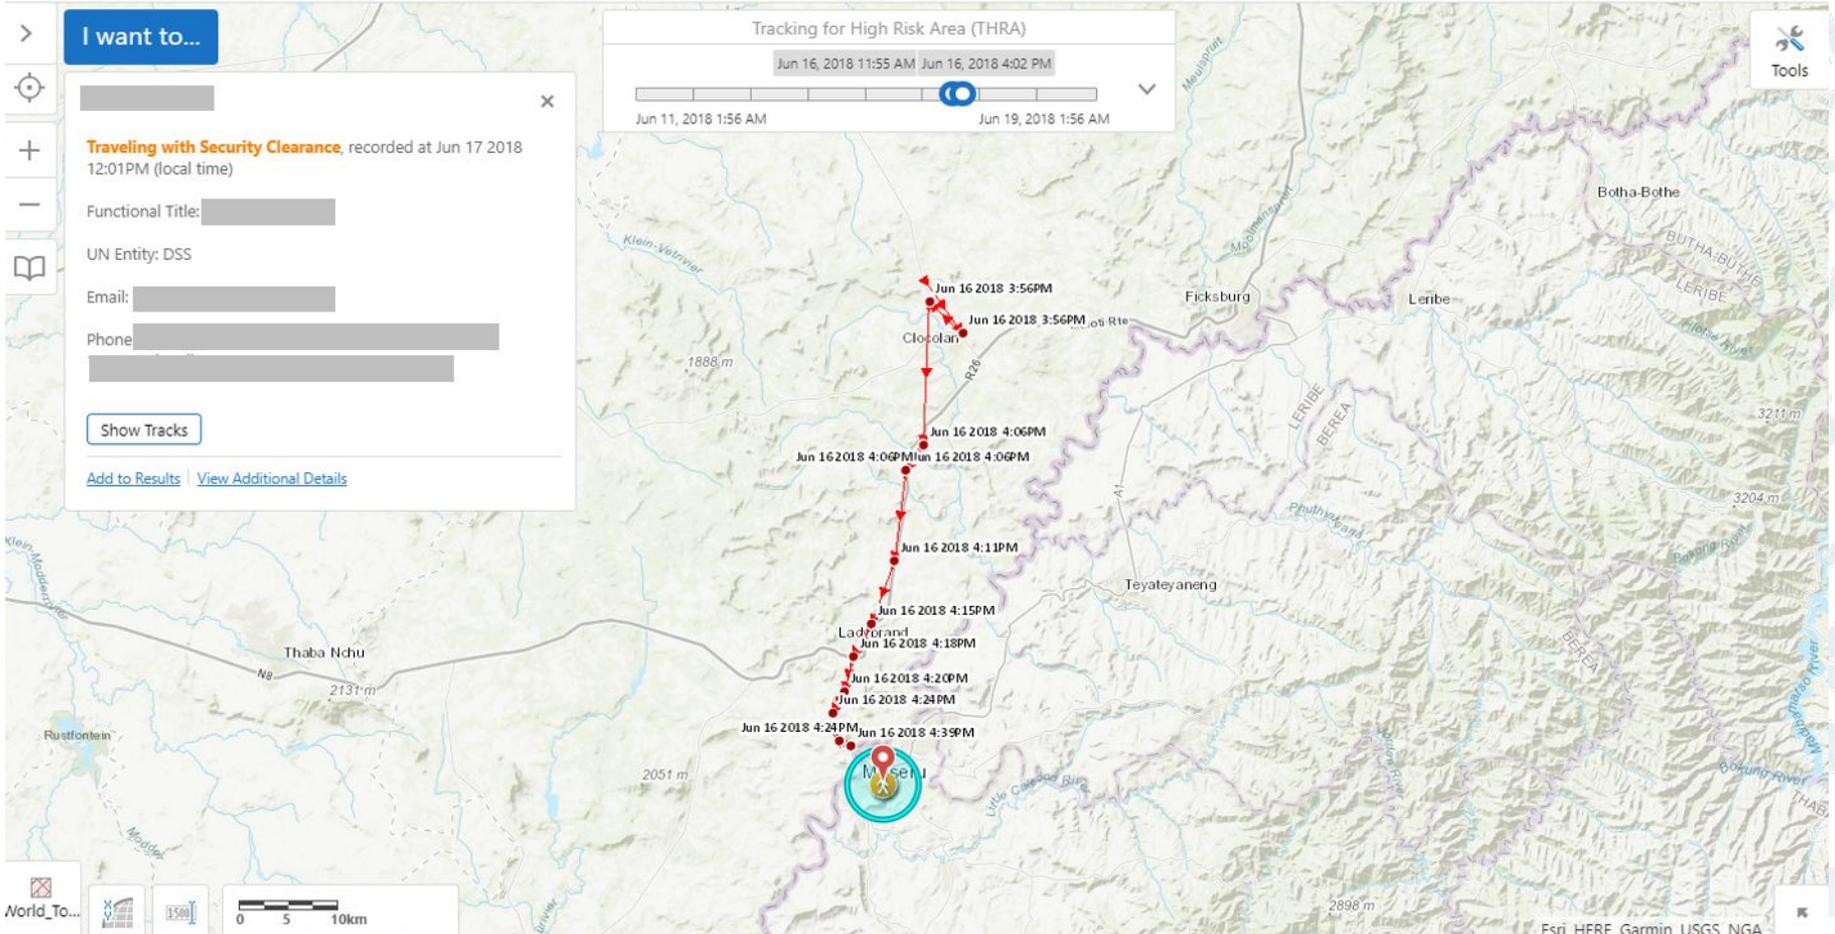

Response	Percentage
Yes	33.33%
No	33.33%
No response	33.33%

Head Count by Agency

Agency	Count
DSS	1
OICT	2
