I really enjoy to the cinema ; it is one of the favorite **PASTIMES** even though I don't really go that often .
Fortunately , the cinema isn't too far away from where I live and I can get there by bus within ten minutes . I am very lucky to live in a big town because it means that I have a choice of cinemas and a wider choice of films

You know , it is popular to go out somewhere first and then go on to a **LATE-NIGHT** film . The cinema is particularly popular among students because they don't have to pay full price for some films and is therefore a reasonably cheap form of entertainment

Watching films is always very relaxing and **ENTERTAINING** .

The **CONVENIENCE** of the cinema is that you can choose what time you want to go because there are usually a number of **SHOWINGS** .

There are a variety of films available today . I especially like comedies or love stories . Detective stories with a lot of action and suspense grab my attention also . I particularly enjoy films where you become so involved with the story that you are sitting in a cinema .

The last films I went to see was an American comedy . I really enjoyed it because it was funny it had a lot of action in it and the end was so **UNEXPECTED** . Nowadays cinemas are so comfortable that it is almost like being at home so it is a **LUXURY** to go the cinema .

**THANK YOU FOR
