

Topic of lesson:

Operation with  
Desimal Fractions

The goals of lessons:

## Plan of lesson:

1. Regards greeting. (Приветствие) (1-3min)
2. Repetition (Повторение) (5-7min )
3. Работа в словарях (4-5min)
4. New topic. (10-15min)
5. Solution. (13-24min)
6. Homework. (1-2min)

Look through the table and try to memorize it.

writing	reading
.2	Point two
0.2	O point two, or; two tenths
0.02	O point o two, or; two hundredths
12.707	Twelve point seven o seven
0	O, or: zero, or: nought; or: cipher; or: n

1	.2	a)	Two second
2	$\frac{23}{6}$	b)	Twenty three sixth
3	$\frac{2}{2}$	c)	Point two
4		d)	Twelve point seven nought seve
5	3,57	e)	Three and five sevenths
6	.	f)	naught; or: cipher;
7	0	g)	Point; or: decimal point
8	...	h)	nought point nought two,
9	0.02	i)	And so on to
10	12.707	j)	three point fifty seven

## 1) Работа в словарях

1. + plus
- 2.- minus
3. x Multiply
4. / Divide
- 5.= Equal to.
6. . 3.2 point
7. x+2 Expression
8. remainder
9. **Keep in mind**
10. **Sum.**
