

Muscle vibrating drive - STANLEY

Drives : 4 x MAS-20-240N-AA-MO-... SA (**with dead volume**)

Valves : 8 x MHE4-MS1H-3/2G-1/4K

+ CRVZS-5

+ LFR-3/8

Control unit : Pulse generator 24 VDC (TAPP)

Vibration amplitude - 3,5 mm

A photograph of an industrial power supply unit. The unit is housed in a black metal enclosure with a transparent front panel. Inside, a white power supply module is visible, labeled 'TRACO POWER Industrial Power Supply TEL: 120-1154'. Below the module is a green digital display showing '5.10'. To the right of the display is a pressure gauge with a needle pointing to '3bar'. The unit is connected to various cables, including a blue cable and a white corrugated hose. The background shows a green metal structure and other industrial components.

Vibration frequency - 51 Hz

Supply pressure - 3bar
