Telex Release System

If you want to log in Telex Release system, you must be:

1. **ILIS user.** (with Documentation (local) function)
2. **The role of Local manager or Normal user in Telex Release system.**

Index

	User role	
	authority.....	P.8-11
	Introduce the function program on	
	Workspace.....	P.12-24
	Q & A for the function program on	
	Workspace.....	P.25-68
	Introduce the function program on Address	
	book.....	P.69-71

User role authority

- ◆ **According to working procedure, there are mainly three kinds of users role related with export/import agents and ICBS could use this system. So they can be defined as below:**

- 1. Local manager (export/import)**
- 2. Normal user (export/import)**
- 3. Administrator (ICBS)**

The chief assignment of the role

ICBS =>

- a. The role is to set and manage the role and authority of all agents.

Local manager =>

- a. The role is to maintain Normal User e-mail list
- b. **How to be this role:** Agents have to inform ICBS the designated user ID, then ICBS will set it accordingly.
- c. Once there is job rotation, agents have to inform ICBS to maintain new Local Manager.

Normal user =>

- a. The role is to handle the Telex Release practice.
- b. **How to be this role:** Local manager is authorized to set local user as “Normal user”.

✚ Telex Release menu related to Administrator\ Local Manager\Normal user are as follows.

Introduce the function on workspace

Workspace

❖ New Release

❖ Pending Release

❖ Release Query

❖ Global Query

❖ Resend Email

❖ Clarify Cargo Status

◆ New Release

- This program is full function program that create one telex release B/L or several ones with a release number.
- Query B/L basis information according to specific conditions such as B/L No.、 Voyage 、 Vessel name 、 Common voyage 、 Place of receipt 、 Port of Loading 、 Port of Discharging、 Place of delivery and Consignee .
- After querying by the B/L number or other conditions, the B/L basis information will be extracted from CIS file in HQ system. However, if the user want to create Telex Release before transmitting the CIS file, the user has to input the B/L data manually in this system.

In addition, there is the function related to Sending Email on New Release.

Email function:

- Providing the query conditions such as User ID、Country、Office、Email Address、Department and so on.

- Providing the Email functions of “Add Email List” and “Remove”.

◆ Pending Release

- Once telex release B/L is pending (got Release Seq. No., but not send mail yet), export agent can edit/send pending telex release on this program.
- Query B/L basis information according to specific conditions such as Release Seq. No.、 B/L No.、 Consignee、 Voyage、 Vessel Name、 POR Country、 POD Country.

◆ Release Query

□ Query Telex Release B/L basis history according to specific conditions such as Release Seq no., B/L no., Current Status , Consignee, Voyage, Vessel Name, POR , POD, LPORT , DPORT & Created user and so on.

□ 【Release Status】:

1. **All ACTIVE**: New Release Issued , Cargo Released , Cancel Request Issued , Cancel Request Locked , New Release Locked
2. **Release Cancelled , Release Deleted**

Action Instruction

Confirm Release:

Import agent can access this function to give the release confirmation to the export agent.

Request Cancel:

Export agent can access this function to create a request “withdraw Telex Release”.

And then wait for the confirmation “Confirm Cancel” or “Reject Cancel” from import agent.

Confirm Cancel:

Import agent can access this function to confirm the request “withdraw Telex Release”.

Reject Cancel:

Import agent can access this function to reject the request “withdraw Telex Release”.

Lock:

Export agent/Import agent can access this function to request to lock Telex Release practice.

Unlock:

ICBS or Local manager of Export agent/Import agent can access this function to remove

“LOCK” action and recover the original status

◆ Global query

- Query Telex Release B/L basis history according to specific conditions such as Release Seq no., B/L no., Current Status , Consignee, Voyage, Vessel Name, POR , POD, LPORT , DPORT & Created user and so on.
- Under this function, users can view all the B/Ls only but can't do any other actions.

❖ Resend Email

- Providing the query conditions such as B/L No.、
Release Seq. No、 Action、 Mail Subject.
- Providing the full function program of “Email Resend”.

◆ Clarify Cargo Status

- Providing the query conditions such as B/L No., Confirm Status, Date
- Once export agent send Clarification telex release request auto mail to import agent, import agent have to query B/L via this function to clarify whether this shipment has been released or not and update status timely.
- Under this function, users also can view all B/Ls which have been clarified already.

Q & A for the function program on Workspace

For export agent:

- ❖ 1. How to create new Telex Release?
- ❖ 2. How to create several New Telex Release with the same Release Seq. no.?
- ❖ 3. How to do “send email” on Pending Release?
- ❖ 4. How to withdraw Telex Release (Condition: After got the Release No. but not Send Email yet)?
- ❖ 5. How to withdraw Telex Release (Condition: After got Release Seq No. and Sent Email)?
- ❖ 6. If import agent don't receive the New Telex Release auto mail, how to resend Email to import agent?
- ❖ 7. If container status reported as “FC”(Full to consignee), how to send the clarification mail of shipment status to import agent?

For import agent:

- ❖ **1. After receiving “Withdraw Telex Release” auto mail, what should import agent follow up?**
- ❖ **2. After import agent received the New Telex Release auto mail, how to give the confirmation to the sender?**
- ❖ **3. After import agent received “Clarification” auto mail, what should import agent follow up?**

❖ **Export agent=>**

How to create New Telex Release?

Function : New Release

Step1: Input B/L No.

Step2: Click “Query from CIS” (Please see next page)

😊 **“ATTENTION”**: After completing step 1 and 2, the system will retrieve the B/L data from CIS database. In case the user want to create new telex release before CIS file transmission, the user has to fill in the columns with the correct B/L data manually. Then, please go to proceed step 3.

[Web Telex Release -- New]

B/L No.	Voyage	Vessel Name	Common Voyage	Place of Receipt	Loading Port	Discharging Port	Place of Delivery
M570008104	AME843E	YM PLUM	62E	SAJED	SAJED	HKHKG	HKHKG

Query from CIS (Consignee)

BENTA ENTERPRISES LTD. FLAT 1013
SINCERE HOUSE 83 ARGYLE S
TREET, KOWLOON
HONGKONG

Remark
You can input the remark or note in this column. (ex. container quantity, lost B/L...)

New Release No. Same Release No.

The B/L has been automatically retrieved from CIS.

Step 5: After step 4 (Send Email), system will show you “Check Points”. Please check the following points.

Step 6: Click “Send”.
(Then, please see the next page)

Check Points -- 網頁對話

Before sending the email, please check the following points :

Loading Port or 3rd place agent	1	Confirm that full set of original bills of lading with properly endorsed (if appropriate) have been surrendered.
	2	Confirm that all charges incurred at your side have been collected.
	3	Confirm that the LOI should be submitted by shipper. As for "To order" type B/L, the details of designated consignee should be also submitted by shipper.
	4	After completing all above-mentioned procedures, the loading port agent or 3rd place agent could notify the discharging port or destination agent to release the subject cargo to the designated consignee.
	5	Original B/L, LOI and related documents should be kept in agent for at least two years.

Send

😊 After click “Send”.

The user can search the receiver by either of “Contact ID” or “Contact Group”.

**In order to simplify the receiver selection, we did some fine-tune to the email function for Contact Id. the system will automatically check the delivery place and directly list the users under the delivery country. After that, the sender need to select both of the City-Base and Office-Dept conditions to find the proper imp receiver.

By “Contact ID”:

1. Query by the grouping function “Country”->“City Base”->“Office – Dept”
- 2.【Query】
3. Remove the user if necessary
4. Add shipper’s Email if necessary
- 5.【Send】

Email Receiver Maintenance List

Select Type : Contact Group Contact Id

Country : City Base : Office - Dept :

User ID	Department	Office	Country	Email Address	
ANDYWONG	Inbound	Hong Kong	HK	imp@yml.com.hk	<input type="button" value="Remove"/>
AGNESLAM	Inbound	Hong Kong	HK	imp@yml.com.hk	<input type="button" value="Remove"/>
ALEXNG	Inbound	Hong Kong	HK	imp@yml.com.hk	<input type="button" value="Remove"/>

Shipper's Email (for external use only) :
Note: If more than one email address, please separate by ;

Free text which is named "Shipper's Email":

Users can input shipper's Email in this free text, in the meantime, it's only for external use. It means that even if the customer will receive the Telex Release auto mail, he is not allowed to log in Web Telex Release system. Besides, this free text will be shown after users choose the email receivers and "Add to Email List".

[Special note 1]

- If the delivery place is **USXXX**, the email receiver will be automatically assigned by the system. The sender is unnecessary to select USA receiver on your own judgment.

[Note]

The USA email receiver table is maintained by USA **ITBP**, if any problem, please request ITBP to check the table and update it without failure.

[Special note 2]

- If the email address format is incorrect and the mail can't be sent out via mail server, the error below will be showed. When users see this error message, that means this mail's **NOT** been sent. Users have to go to [Resend] function to do resend.

[Special note 2]

- Besides, Users can click B/L no. under [Resend] function (copy 1) to check email address of all receivers (copy 2).

The Function Program On User Maintenance

(Authority: Local manager and ICBS)

😊 New user

<Note> Administrator (ICBS) and Local manager are allowed to add new user here.

Step 1: Input User ID. (It is same as user id in ILIS)

(User service: You can click User id twice, then search user id by ID or Name)

Step 2: Input Email Address.

Step 3: Select "Role".

Step 4: Select "Active" = Yes

[User Maintenance-- New]

The image shows two screenshots from a web application. The top screenshot is the 'New User Account' form, and the bottom screenshot is the 'User Service' search interface. Both are annotated with red numbers and arrows.

Top Screenshot: New User Account

User ID	Email Address	Role	Active	
		- Select -	- Select -	Save

Annotations for the top screenshot:

- 1. Click User ID. (points to the User ID field)
- 5. Select the role of this user. (points to the Role dropdown)
- 7. (points to the Save button)

Bottom Screenshot: User Service - Microsoft Internet Explorer

User Service

Search type : By ID By Name

Please type words :

Search

Annotations for the bottom screenshot:

- 2. you can search by ID or Name (points to the search type radio buttons)
- 3. Search (points to the Search button)
- 4. Then, system will show you the related details of this user ID or name on below space. Just click the one you want. (points to the search results area)
- 6. Select "Yes" or "No". If Active is "Yes", then this user can work on this system. (points to the Active dropdown in the top screenshot)

User Editing

Administrator (ICBS) and Local manager are allowed to edit the Email Address/Active/Role of the user.

[User Maintenance-- Edit]

User Edit :

User ID : Country : Office :

Email Address : Department :

1. Query by "user id" or "country" or "office" or "Email Address" or "department"

User ID	Name	Department	Office	Country	Email Address	Active	Role	
WKCHO	WKCHO	Export	Seoul office	KR	irenekong@yml.com.tw	Yes ▾	Normal User ▾	Save

2. Then you can amend the data for Email address/Active/Role if need.

3. Save.

<Note> If you want to remove one user from this system, please change the status of Active from "Yes" to "**No**".

<Note> The user data concerning Department, Office, Country in Web Telex Release system is on the basis of ILIS user data. So, if the user data is incorrect after created, please update the user data in ILIS first, and then the same will be updated in Telex Release system at the same time.

The full set of Original Bs/L has been surrendered to this office. Please release cargo to designated consignee without presentation of YM's Original Bs/L.

Remark :

The discharging port or destination agent may then release cargo to the verified consignee against following condition :

1. Collecting all charges from concerned parties.
2. Collecting signatory LOI from consignee.

*****CLARIFICATION*****
TELEX RELEASE REQUEST

TELEX RELEASE

To Import Agent,

We cannot issue TLX release for subject B/L no. since the container status has been reported as "FC" (Full to consignee).

Please check whether this shipment has been released or not and go to telex release system to update status via URL : https://as2.yangming.com/ilis/index_v2.htm (AS2->Telex Release->Workspace->Clarify Cargo Status)

Please do not reply your confirmation by this auto-email

*****SHIPMENT IS NOT RELEASED*****
TELEX RELEASE REQUEST

TELEX RELEASE

To Export and Import Agent,

Import agent confirmed this shipment has NOT been released.
Please issue this Telex release in Web Telex Release system.

*****SHIPMENT IS RELEASED*****
TELEX RELEASE REQUEST

TELEX RELEASE

To Export and Import Agent,

To Export Agent,

Import agent confirmed this shipment has been released.
Please issue this Telex release in Web TLX system in order to keep the "TT fee" record for further checking.

To Import Agent,

If the TLX record is created after cargo released (after FC), this TLX notice will Not be sent out and No need to do [Confirm Release].

How to create Telex Release with TT fee ?

< Telex Release Menu □ [Workspace] □ [New Release] >

Create Telex Release with TT fee in “New Release” page

1. Input B/L number, and click [Query from CIS].
2. The CIS data and TT fee will be automatically brought into the related columns.
3. If the tariff rate is correct, please click [New Release No.] to create New Telex release number.

*If the Tariff Rate shows “0”, which means the TT charge of your office is not set in FRT system.

*If you have any doubt about the “Tariff Rate”, please clarify it with Business department (i.e. HQ-BTDP / BEDP / BADP).
