

Traineeship results

Very productive month

During this months I've done few interesting things:

- Add new feathers
- Fix more than dozen bugs (easy and not at all)
- Learn new technologies

New feathers

On this traineeship I've getting some interesting tasks for do

Some of them required be more familiar with project

There will be a few examples

Variable weekdays order

Weekdays order in calendar changing when localization has changed (from/to English)

Highlight days with events

If day has some events – it will be highlighting in according with event type:

- Star event
- Custom event
- Uncomplete series

Also it has short notice about events under calendar (shows for selected day)

The screenshot displays a calendar for August 2019. The title is "Звезды" (Stars) with a yellow circle containing the number "1". The calendar grid shows days from 1 to 31. The 13th is highlighted in blue. To the right, a section titled "Последняя:" (Last:) shows a date range "Даты: 11.08 - 13.08" and a progress bar indicating "Выполнено: 3 из 5" (Completed: 3 of 5). A red button with a white plus sign and the text "ДОБАВИТЬ ЗВЕЗДУ" (ADD STAR) is located below the progress bar. At the bottom of the calendar, a notice for the selected date (11.08 - 13.08) reads "Незавершенная серия" (Incomplete series).

Achievement

For brave development!

Description

This achievement is very valuable reward! You should proud yourself for getting that!

Completed at
12.07.2019

Fixed bugs

Among the tasks also were been bugs what needed to be fixed

There is some of them:

- Refreshing total count of stars in calendar when achievement add/remove
- Fixed error when try to searching class with teacher name filter (in admin-panel)
- Fixed error while trying to remove custom achievement in admin-panel
- A lot small bugs in localization and logic of calendar

Priceless knowleges

During traineeship I've knew a lot new things

There is biggest of them:

- Angular JS
- Node.js
- MongoDB
- Software application
- Interaction between client and server in JS frameworks
- OS X :)

Work difficulties

Nothing is easy, so this traineeship too

While working I've met a few difficulties (some of them from lack of experience, some – bad knowing of project)

Anyway, I've "bit" them and done my job, and I did this not without pleasure :)

I could say more – I liked it

I like feeling of challenge, because it can show you what you are really capable of

In the end

I want to say that I've really enjoyed this "adventures"

I've knew what I can do and what I want to do

It is pretty useful experience and I'm appreciate for this opportunity

I hope we can help each other in long-term perspective

Thanks for hearing!
