# MATERIALS TOYS

Russian toys made of wood, cloth and clay. The English are made of metal and plastic.

# CREATURE

Historic wooden toy production was in the region of Nizhny Novgorod province. This region is generally famous for wood carving. The second is known since the XIX century. It is located on the shores of the White Sea, Onega Peninsula, Arkhangelsk and Vologda provinces. These toys their appearance reminiscent of the ancient northern idols.

I chose this topic because I love toys.

My project will help people learn more about the history of Great Britain and Russia toys.

Why is this project important to me?  
These items are related to my story.
