- Dental clinics provide patients with preventive and standard dental care, including emergency dental care.

- Services include teeth cleanings, teeth whitening, x-rays, root canals, crowns, fillings and orthodontics. According to the American Dental Association, nearly all dentists are in private practice. Specifically, it is estimated as many as three out of four dentists are solo practitioners. Private practitioners work as licensed, self-employed dentists.

- Because of the relatively small size of the organization, usually patients get more personalized care from private practitioners.

- ◉ Dentistry is the branch of medicine that is involved in the study, diagnosis, prevention and treatment of diseases, disorders and conditions of the oral cavity.

ACTIVE VOICE

Present Indefinite:

- ◉ He delivers the parcels.

Present Continuous:

- ◉ He is delivering the parcels.

Present Perfect Continuous:

- ◉ He has been delivering the parcels the whole morning.

Present Perfect:

- ◉ He has delivered the parcels.
