

**The weather forecasts are  
very important for people**

Farmers and sailors are interested  
in weather forecasts

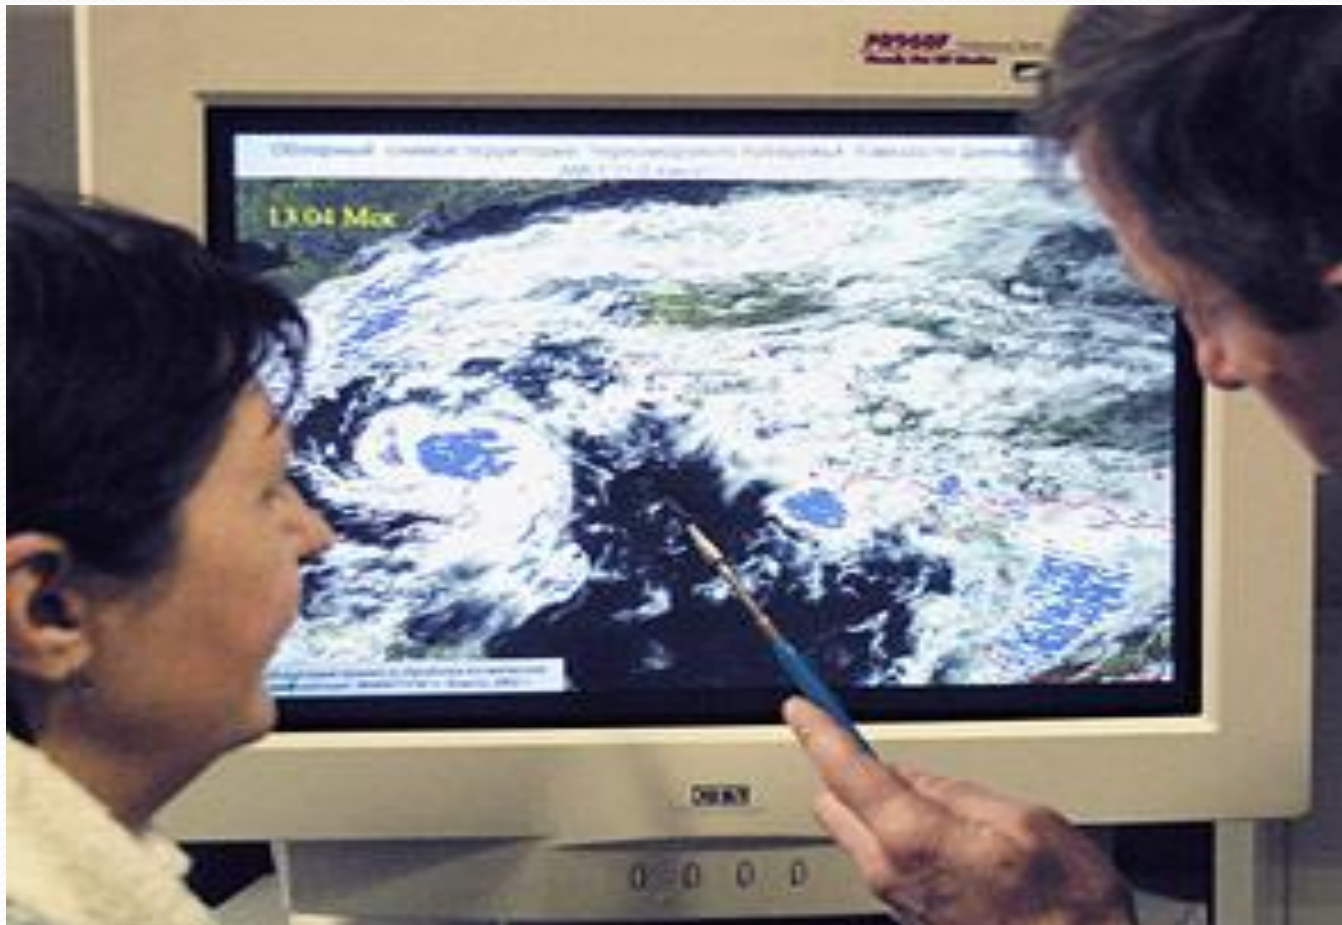

It's  
seriously  
when  
farmers  
lose their  
harvest  
because  
of rain

And  
sailors get  
into  
trouble  
when the  
wind rises

All day and night weathermen are collecting information from ships and planes weather stations

# People gets information about weather forecasts

01.19J26M-d9WYM

On TV

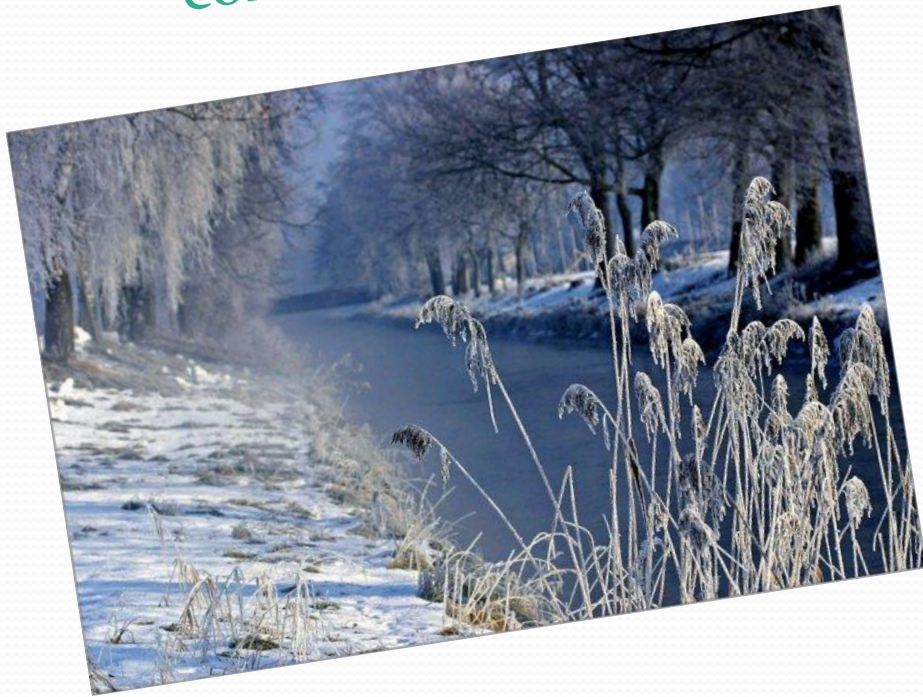

On radio

From the  
Internet

# When a barometer shows high pressure

*In winter  
the weather will be  
cold and frosty*

*In summer it will be  
hot and sunny*

My family usually watch the weather forecasts on TV
