

Audio speakers in the form of bulldogs

Not cheap, but cute and quite powerful wireless speakers that will fit into any interior and will be ideal as a gift for true music lovers and just dog lovers. Funny detail - the speakers attached remote in the form of bones.

Robot cat for single people

Another friendly robot that will be useful not only for children but also for adults, and especially for those who suffer from loneliness. Cat named Fribo helps his master often communicate with family and friends using a special group chat. For example, if you tap twice on the table next to a robot, it will immediately send a message to a friend asking what it is doing.

A computer mouse in the shape of a cone

According to the Korean industrial designer and NEP Baek (Inyeop Baek), the Creator of the conical mouse, its unusual shape prevents the development of tunnel syndrome, as the human hand when using it is in a natural position. The rest of the mouse-cone is not much different from other devices of this type, although it takes some time to get used to.
