12 дн.

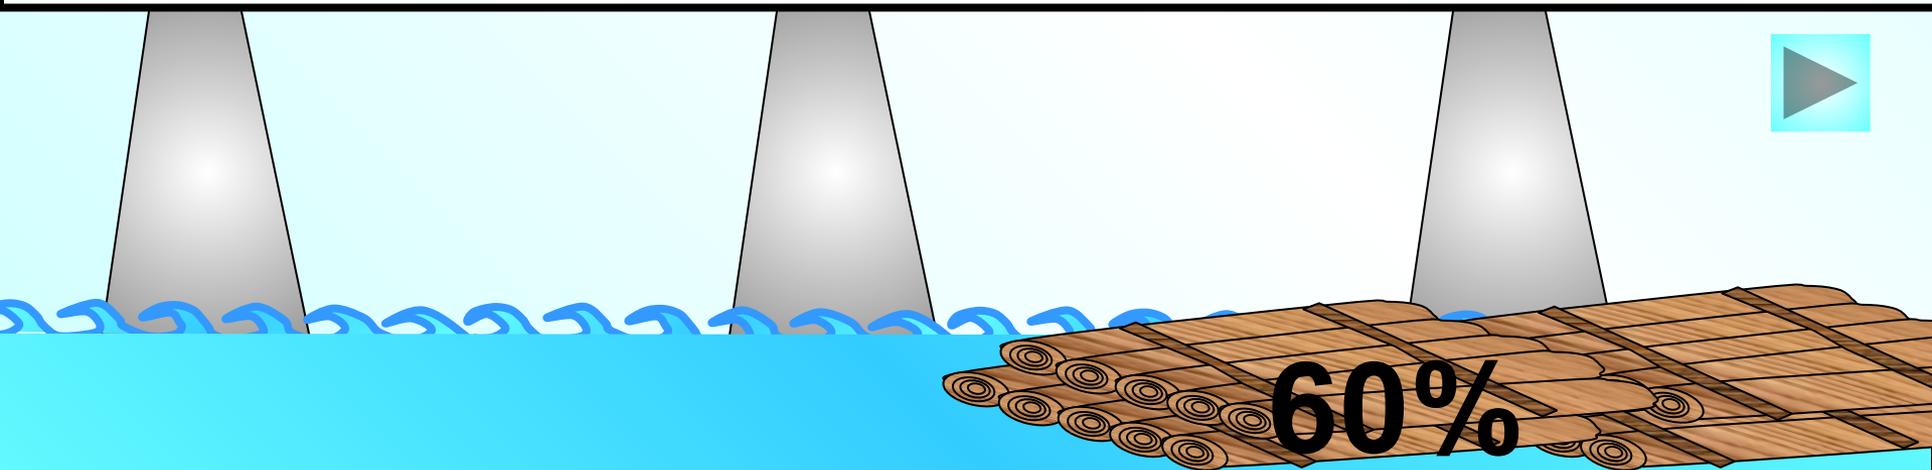

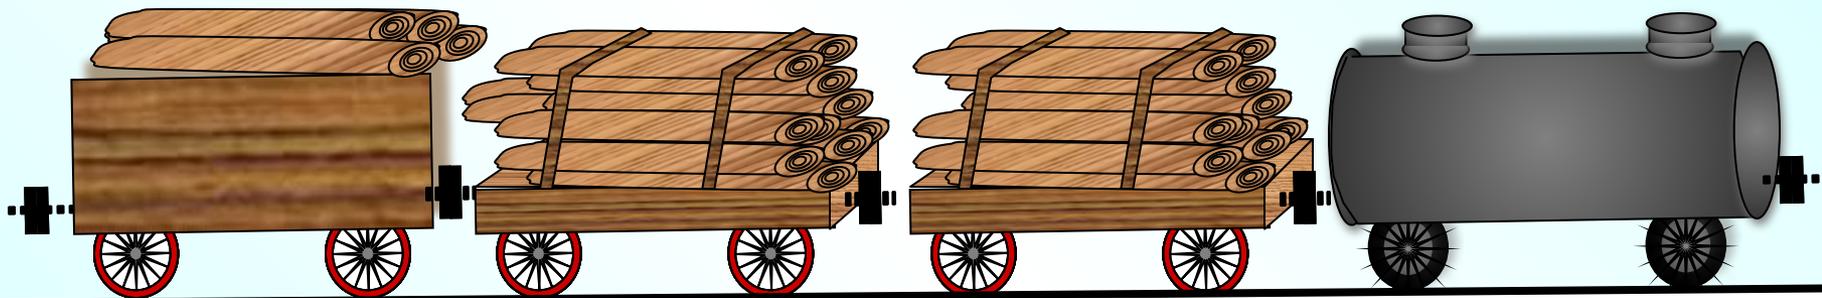

Показать (2)

В апреле было 12 солнечных дней. Какую часть апреля составили солнечные дни?

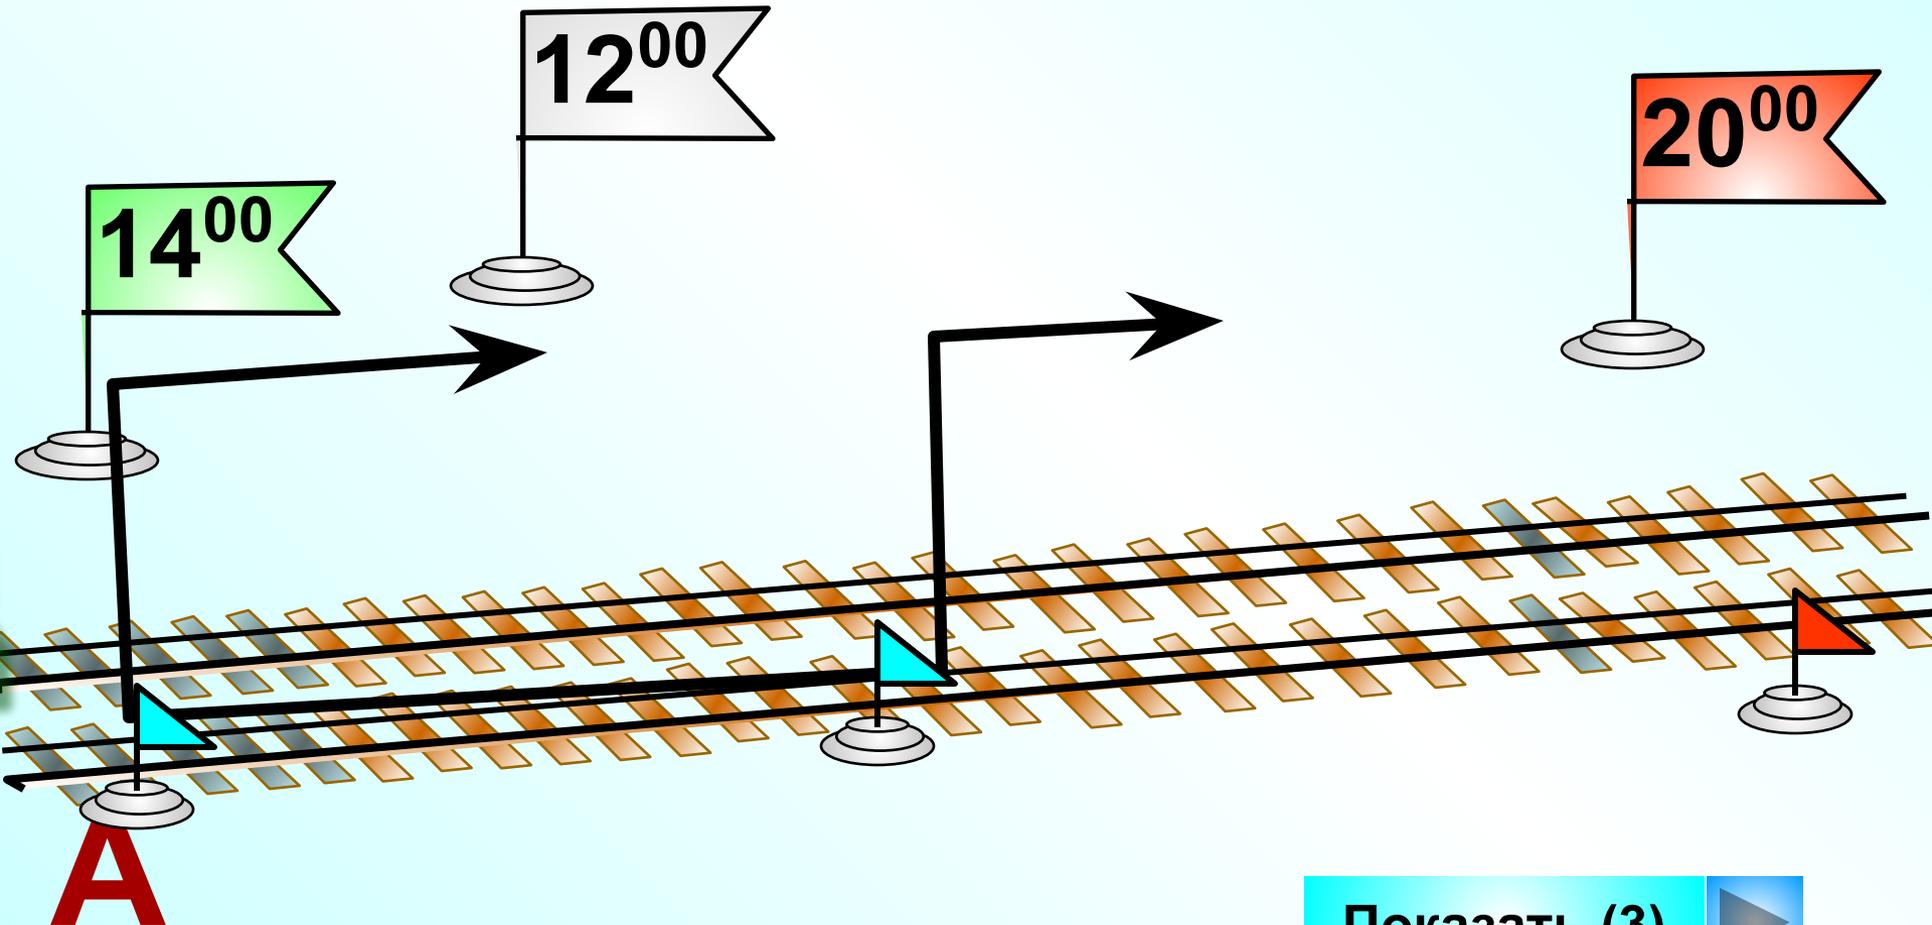

Лесорубы заготовили $32\ 000\ \text{м}^3$ строительного леса. По реке сплавили 60% заготовленного леса, а остальной отправили по железной дороге.

На сколько кубометров меньше леса отправили по железной дороге, чем по воде?

От станции А в 12 часов отправился товарный поезд. В 14 ч с той же станции вышел пассажирский поезд, который догнал товарный в 20 ч. Какова скорость обоих поездов, если сумма их скоростей равна 140 км/ч?

Показать (3)

Поезд проехал мимо столба за 7 с, а вдоль платформы длиной 378 м – за 25 с. Какова скорость и длина поезда?
