# Priorities

Distress "MAYDAY"

Urgency "PAN PAN"

Safety "SECURITE"

Routine

. DISTRESS ALERT:  
*"Urgent!  
There is serious  
and immediate danger".*

. URGENCY MESSAGE:  
*"Urgent!  
There is serious danger!"*

Ship's radio-room.

. SAFETY MESSAGE:  
*"Imminent risk for navigation".*

. ROUTINE MESSAGE:  
*"... to ensure safe navigation".*

RCC

**Distress**

**Urgency**

**Safety**

**Distress message  
announcement by non-GMDSS vessel:**

“MAYDAY - 3 X  
This is Vincente - PWCA  
Vincente - PWCA  
Vincente - PWCA:”

A photograph of a ship at sea, likely a fishing vessel, with a text overlay. The ship is in the middle ground, and the background shows a hazy sky and a dark sea. The text is overlaid on the image, with the words "non-GMDSS" highlighted in a pink box.

Urgency message  
announcement by **non-GMDSS** vessel:

"PAN PAN - 3 X  
All stations - 3 X  
This is Alcona - BUCE  
Alcona - BUCE  
Alcona - BUCE:".

# Safety message announcement by non-GMDSS vessel:

"SECURITE - 3 X

All stations - 3 X

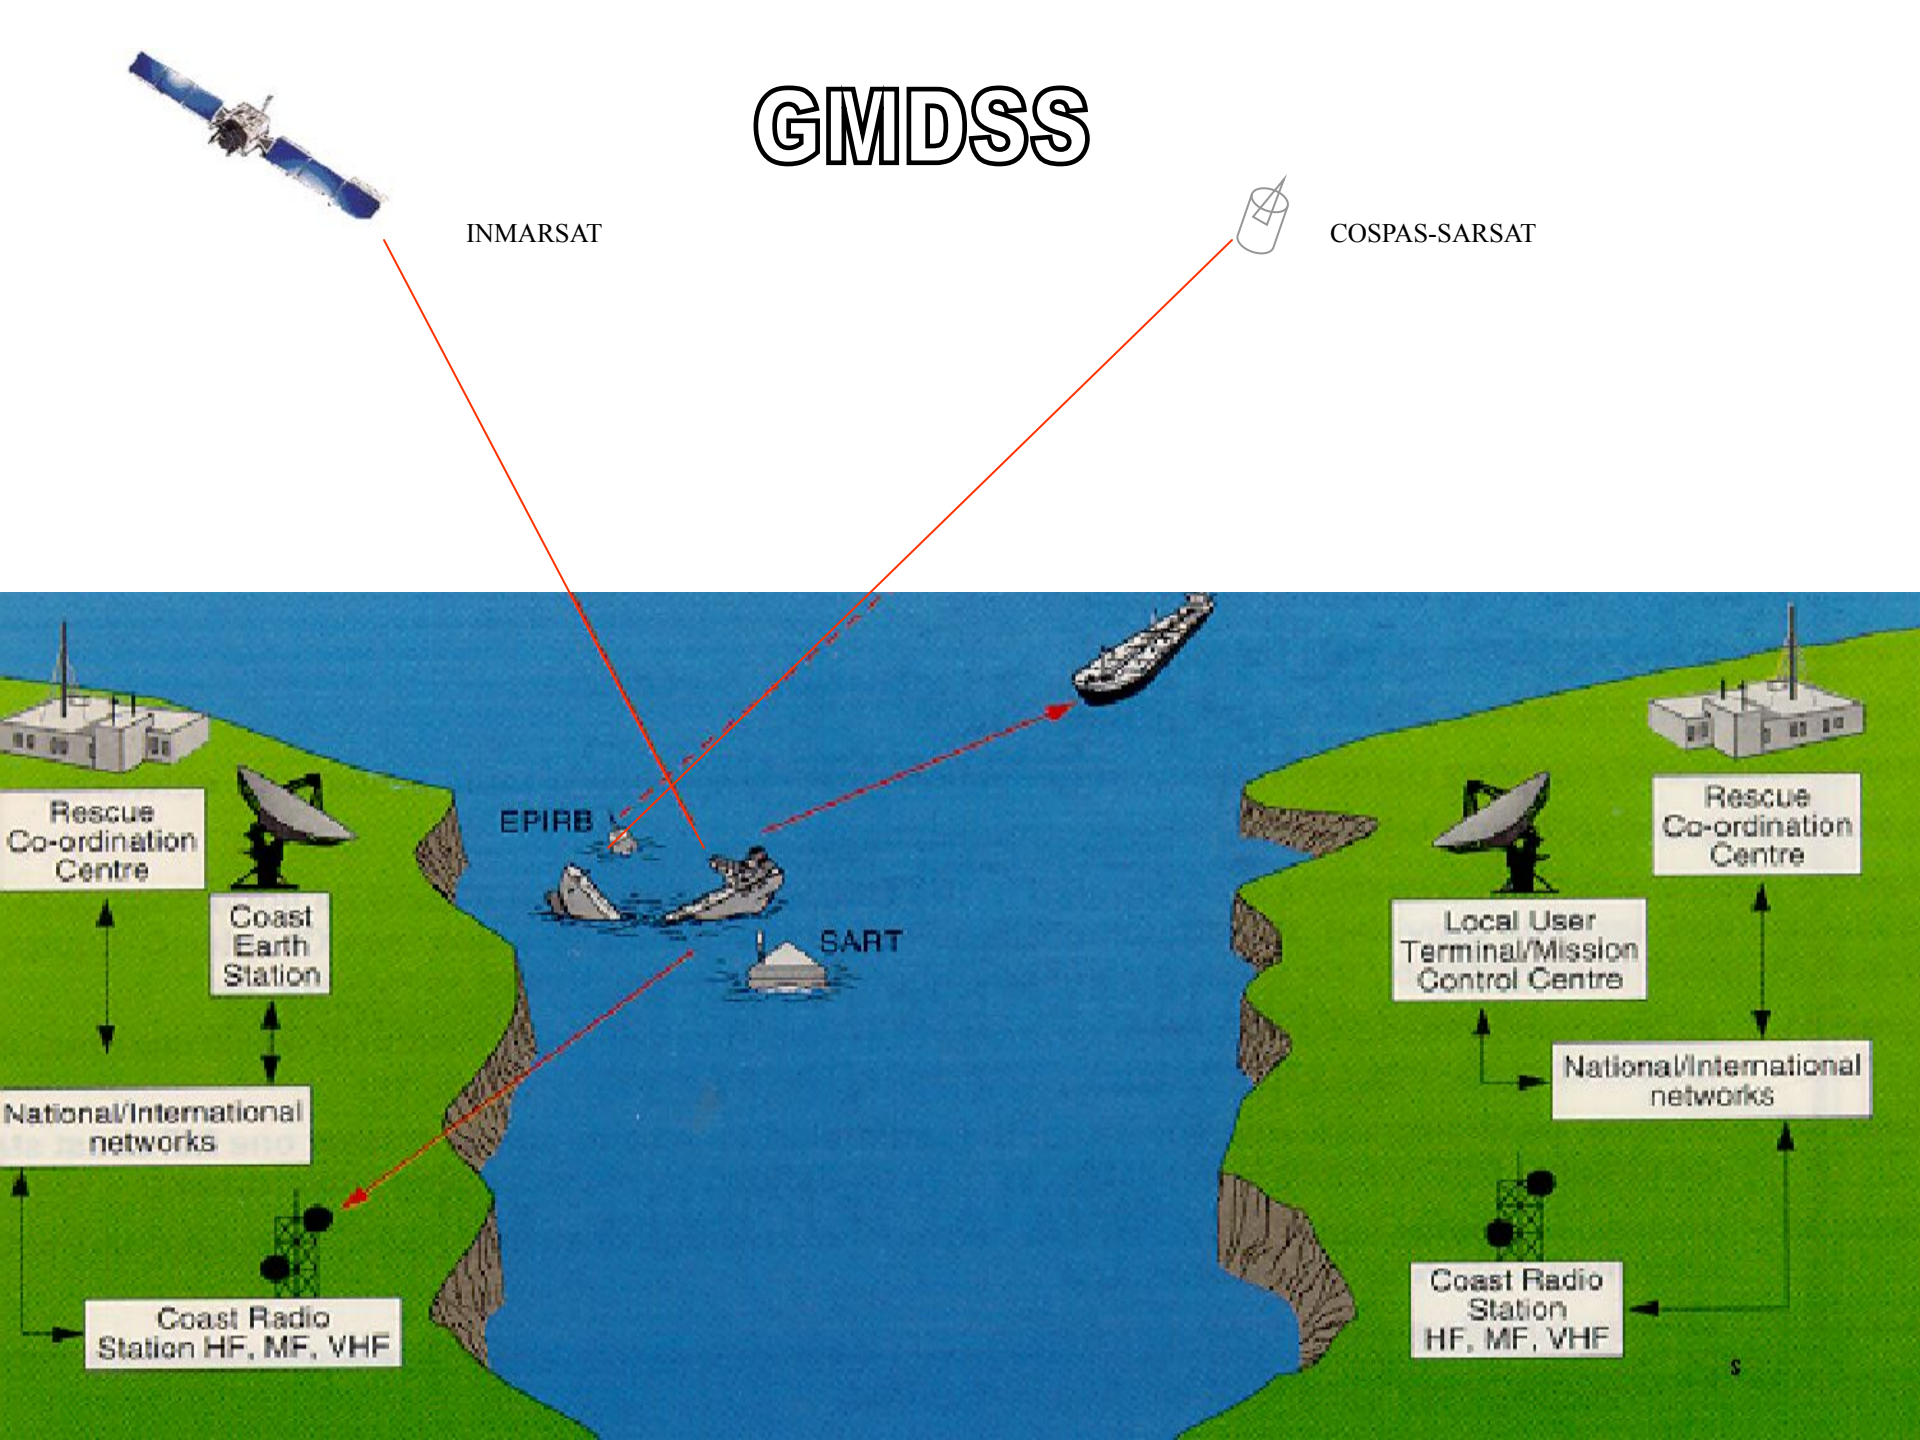

This is Anticosti - V8SH

Anticosti - V8SH

Anticosti - V8SH:".

# GMDSS

# DSC-announcement (GMDSS - vessels).

A Distress Alert, Urgency Message or Safety Message is announced to *Rescue Coordination Centre* and all vessels in the vicinity through "Digital Selective Calling".

R.C.C.

When the *DSC-acknowledgement* has been received from R.C.C., a *distress-*, *urgency-* or *safety message* is transmitted by VHF to all stations.

# Received mayday

If the master of a vessel that has received an acknowledgement decides that he is able to assist, he must transmit a *RECEIVED MAYDAY* to the vessel in distress.

Pearl Head - VRSE

Ocean Queen - IRSL

R.C.C.

"MAYDAY  
Pearl Head (3X) - VRSE  
This is Ocean Queen (3X) - IRSL  
RECEIVED MAYDAY".

# Supplementary received-mayday

Pearl Head - VRSE

Ocean Queen - IRSL

Any vessel that is "*able to assist*"  
(within "*short range*" of the distressed vessel)  
must transmit a "*supplementary received-mayday*"  
to the vessel in distress.

Any ship, knowing that a vessel in distress is not able to transmit a distress alert, must transmit a *distress alert relay*.

Pearl Head - VRSE

X

X

Ocean Queen -IRSL

R.C.C. Aveiro Radio

**Distress relay on VHF  
("mayday relay")**

# Message on VHF

The background of the slide is a blue-tinted image of a ship's superstructure, showing the bridge and upper decks. The image is semi-transparent, allowing the text to be clearly visible.

After announcement by DSC or VHF,  
*communication by conversation* begins on VHF.

Distress/Urgency/Safety

Distress -, urgency - and safety -messages on VHF must contain:

- . The vessel's identification:
  - 9-digit Maritime Mobile Service Identity-Code (MMSI-Code), vessel's name and Call Sign;*
- . position of the vessel;
- . the nature of distress or danger;
- . number of persons on board;
- . the assistance that is required;
- . any other important information.

## **MAYDAY**

Pearl Head

Victor Romeo -- Sierra Echo - two three five - seven eight six - zero zero zero

My position: three eight degrees one zero minutes North /  
zero one eight degrees one zero minutes East.

I am on fire: fire is in engine room and number-two hold. Vessel is sinking.

Crew must abandon vessel.

I require assistance.

Number of crew on board: one eight;

number of injured persons: eight;

number of casualties: two.

Over".

**distress message**

"PAN PAN, PAN PAN, PAN PAN  
All stations, all stations, all stations  
this is 211 868 000 MV Christina;  
my posn. 56 degr. 29 min. N / 000 degr. 53 min. E.  
I am manoeuvring with difficulty;  
I have problems with main engine;  
I require tug assistance;  
advice: all ships keep clear.  
OVER".

**Urgency message**

"Securite, securite, securite; all stations, all stations, all stations.  
This is 426 477 000 - tanker Vermont - CAPK  
in posn. bearing 259 degr. from Falls Light, distance 1.5 miles;  
time: August 6 - 1645 UTC.  
Information: Buoy FL-1 in position 259 degrees from Falls Light,  
distance 2 miles, missing. OUT"

**Safety message**

# SEARCH & RESCUE

# "Silence mayday"

*Radio silence* is imposed to all vessels when a SAR-operation is in progress.

# Search and Rescue (SAR)

A Situation Report (short form- or full form SITREP) is transmitted to all vessels by RCC to indicate that a SAR-operation must be carried out.

# Situation Report (SITREP) - short form.

- Priority; *DISTRESS*
- Date and Time; *September twelve  
time: 13.40 UTC;*
- From RCC: *San Juan Rescue Co-ordination Centre;*  
- To: *All ships in vicinity of position  
37 degr. 15 min. N / 016 degr. 10 min. E;*
- SAR SITREP number *Search and Rescue Situation Report number one;*
- Identity of casualty  
(Name, call sign, Flagstate) *211 687 000 Pearl Head-VRSE  
Bulgarian registration*
- Position (Latitude / longitude) *In position  
37 degr. 15 min. N / 016 degr. 10 min. E;*
- Situation: Message: *Distress;*  
Date and time; *September twelve  
13.43 hrs. UTC*  
Nature of Distress; *Pearl Head on fire;*
- Number of Persons at risk; *16*
- Assistance that is required; *Fire fighting assistance and SAR.*
- Co-ordinating Centre: *San Juan Rescue Co-ordination Centre.*

# Search and Rescue (SAR)

**M.V. Vendor acting as  
On-Scene Co-ordinator**

M.V. Pearl Head in  
distress.

A Situation Report (SITREP)  
is transmitted by the *OSC*  
to inform the SAR-Mission  
Co-ordinator (*SMC*) at *RCC* .

# Search and Rescue (SAR)

A large white ship is moving through the ocean, leaving a massive white wake. A helicopter is flying in the sky above the ship. The scene is set on a bright day with a clear blue sky and dark blue water.

A SITREP is transmitted by assisting vessels and helicopters to inform the *OSC*.

# "Silence fini"

The termination of radio-silence is indicated with "*Silence Fini*".

# Routine communication

ship to coastal station

intership

intraship

# Announcement (by **non-GMDSS** vessels).

Intership communication and communication between ship and coastal station is announced on VHF.

M.V. Anticosti - V8SH

VTS Halifax Radio

**"Address"  
and  
"Identify"**

# Address and Identify

If conditions for establishing contact are unknown or expected to be bad, addressing and identification must be done three times.

When conditions are good, the best way is to address once and identify twice.

# Answer to the question: *"How do you read me?"*.

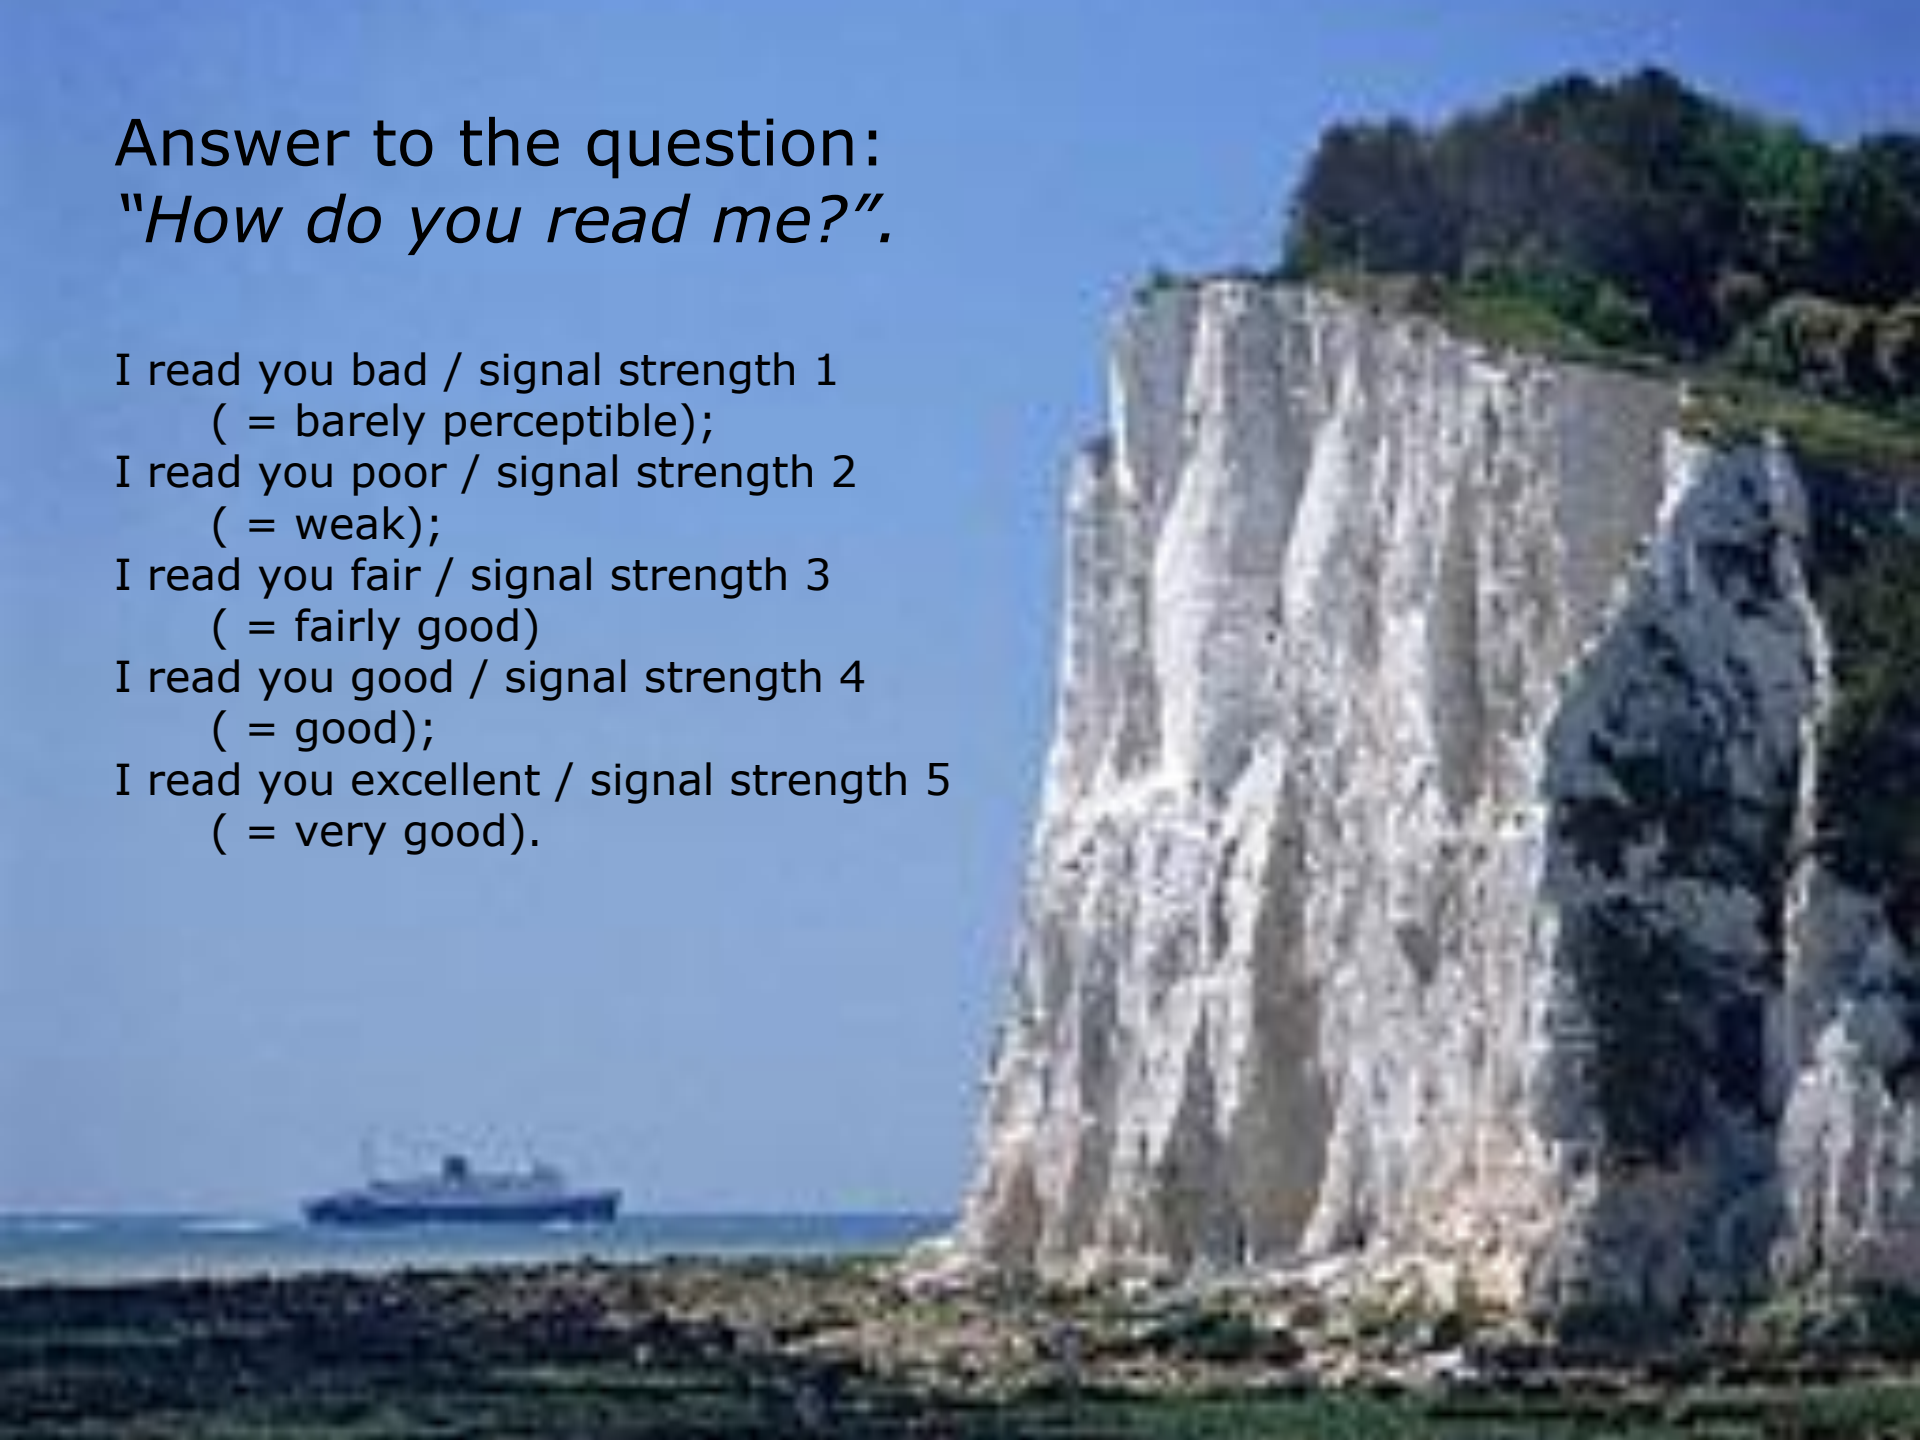

I read you bad / signal strength 1  
( = barely perceptible);

I read you poor / signal strength 2  
( = weak);

I read you fair / signal strength 3  
( = fairly good)

I read you good / signal strength 4  
( = good);

I read you excellent / signal strength 5  
( = very good).

# "Urgent" message

In case of an urgent message  
(*note: not an URGENCY message!*)  
*"how do you read me"*  
is left out.

*Example:*

# DSC-announcement (*GMDSS* - vessels).

Intership communication and communication between ship and coastal station is *announced* through Digital Selective Calling.

**VTS**

When the *DSC-acknowledgement* has been received, communication by VHF will begin.

communication!

**REMEMBER:**

Always  
*ADDRESS AND IDENTIFY*  
after you have heard the word  
"OVER".

# "You must..... I will....."

Always answer  
"You must ....."  
with  
"I will....."

MV Stella Maris

Vessel Traffic Service (VTS).

General

# "Mistake .....correction"

example

*"Mistake ..... correction"*

is used when incorrect information has been given.

# "Repeat"

"Repeat" (or "I say again")  
is used when an *important* message  
or part of a messages is repeated.

example

# "Say again"

"Say again" is used when a message or part of a message has not been clearly understood.

# SMCP

In VHF-communication the  
IMO Standard Marine Communication Phrases  
must always be used to keep the conversation short.

SMCP  
click here

# IMO Ship Reporting System

Coastal stations often ask for a MARITIME and POSITION REPORT of your ship. For this *MAREP / POSREP* the *Standard Marine Alphabet* is used.

# MAREP / POSREP

<u>ALFA</u>	- VESSEL'S NAME + CALL SIGN;	<u>PAPA</u>	- CARGO
<u>BRAVO</u>	- DAY OF MONTH AND TIME (UTC / Z / ZONE / LOCAL TIME);	<u>QUEBEC</u>	(TYPE AND QUANTITY);
<u>CHARLIE</u>	- POSITION (LONGITUDE / LATITUDE);	ROMEO	- ANY DEFECTS OR LIMITATION;
DELTA	- POSITION (AS BEARING AND DISTANCE FROM FIXED POINT.);	SIERRA	- ANY POLLUTANTS OR DANGEROUS GOODS;
<u>ECHO</u>	- TRUE COURSE;	TANGO	- WEATHER CONDITIONS;
<u>FOXTROT</u>	- SPEED (IN KNOTS);	UNIFORM	- SHIP'S REPRESENTATIVE OR OWNER;
GOLF	- LAST PORT OF DEPARTURE;	VESSEL;	- SIZE AND TYPE OF THE
HOTEL	- TIME AND POINT OF ENTRY INTO THE SYSTEM;	VICTOR	- MEDICAL PERSONEL;
<u>INDIA</u>	- DESTINATION (+ ETA);	WHISKEY	- NUMBER OF PERSONS ON BOARD;
JULIET	- DEEP SEA OR LOCAL PILOT ON BOARD;	<u>X-RAY</u>	- ANY OTHER USEFUL INFORMATION.
KILO	- TIME OF EXIT FROM THE SYSTEM;	YANKEE	- REQUEST TO RELAY REPORT TO OTHER
LIMA	- INTENDED TRACK;	SYSTEM (E.G. AMVER);	
<u>MIKE</u>	- VHF-CHANNELS GUARDED;	ZULU	- END OF REPORT.
NOVEMBER	- TIME OF NEXT REPORT;		
<u>OSCAR</u>	- DRAFT;		

A "Charlie-position" is given  
in "*Latitude and Longitude*".

Position:

"39 degr. 16 min. N /  
027 degr. 15 min. W".

A "Delta-position" is a bearing and distance-indication from a fixed point. It is *preceded* by the word "bearing".

Position:

*"Bearing 158 degr. from the Bassurelle,  
distance 1.5 miles".*

# POSREP-practice

-  29 DEGR. 58 MIN. N / 013 DEGR. 12 MIN. E ON MARCH 31 2100 UTC.
-  134 DEGR. FROM BUOY NHR-SE, DISTANCE 6.5 MILES ON JANUARY 13 10.25 LOCAL TIME.
-  159 DEGR. FROM FALLS LIGHT, DISTANCE 2.7 MILES ON MAY 26 1925 ZONE TIME.
-  58 DEGR. 57 MIN. N / 013 DEGR. 5 MIN. W ON JANUARY 31 05.25 UTC.
-  178 DEGR. FROM ROYAL SOVEREIGN LIGHTHOUSE, DISTANCE 2.1 MILES ON AUGUST 5 12.00 UTC.
-  250 DEGR. FROM BUOY CA 4, DISTANCE 12.6 MILES ON DECEMBER 31 0000 UTC.

# Role Plays

**Distress,**

**Urgency and**

**Safety.**

**communication:**

211 687 000 Pearl Head - VRSE is on fire.

R.C.C.

**DSC-announcement  
and acknowledgement.**

“Received Mayday” on VHF after  
*announcement and acknowledgement.*

Pearl Head-VRSE

Ocean Queen-IRSL

R.C.C.

# “Supplementary Received-Mayday” on VHF (after “Received-Mayday” messages).

Pearl Head - VRSE

Ocean Queen - IRSL

Ocean Queen informs Pearl Head:  
position 045 degrees from distressed vessel, distance 3 miles –  
her course: 035 degrees at 12 knots.  
ETA distress position within 15 minutes.

# Pearl Head transmits mayday on VHF.

235 786 000 - Pearl Head VRSE

in position

38 degrees 10 min. N / 018 degrees 10 min. E;  
transmits a distress message on VHF.

Her engine room and no. 2 hold are on fire.

The vessel is sinking.

Crew are abandoning ship.

Assistance is required.

There are 18 crew members on board.

Eight of them have been injured -  
two members were killed.

M.V. Christina (MMSI-Code 211 868 000)  
reports that her manoevrability is reduced due to  
malfunction of main engine;  
she requests for assistance and asks all ships in her  
vicinity to stay at safe distance.  
Her posn.: 56 degr. 29 min. N / 000 degr. 53 min. E.

**urgency message**

MMSI code 426 477 000 - Tanker Vermont CAPK  
in posn. 259 degr. from Falls Light, distance 1.5 miles,  
time: August 6 - 1645 UTC,  
has detected that buoy FL-1 in position 259 degrees from  
Falls Light, distance 2 miles, is missing.

**safety message**

# Role Plays

VHF-Communication  
VTS-Station to vessel.

# Role-play 1

- Address & Identify.

PORTISHEAD RADIO

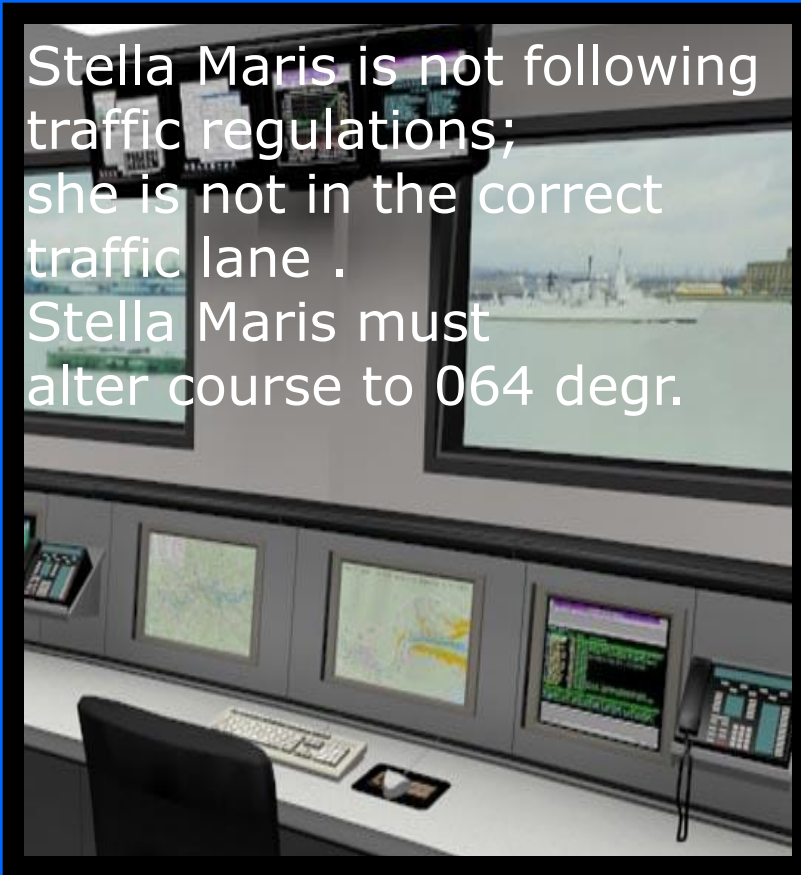

- Address & Identify.

M.V. STELLA MARIS - UB6379

# Role-play 1

Stella Maris is not following traffic regulations; she is not in the correct traffic lane .  
Stella Maris must alter course to 064 degr.

PORTISHEAD RADIO

Stella Maris confirms and closes.

M.V. STELLA MARIS - UB6379

# Role-play 2

Address & Identify

Diamond Star  
VYNG

Maas Approach

# Role-play 2

Maas Approach wants to know

- Diamond Star's present position, course and speed;
- her ETA in position of no. 1 Euro Buoy;
- her draft fore and aft;
- her freeboard and airdraft.

Diamond Star VYNG

Maas Approach

Her position is bearing 045 degrees from no. 1 Euro Buoy at a distance of 12 miles, course 052 degrees true at 7 knots; ETA no. 1 Euro Buoy is 1145 hrs. UTC; draft fore: 5.5 m - draft aft: 6 m. freeboard of 6.8 metres; airdraft of 18.5 metres.

# Role-play 2

Maas Approach now indicates that Diamond Star may enter traffic lane at 1245 hrs. UTC;  
Maas Approach warns for a heavy swell in the fairway;  
Diamond Star must maintain present course and reduce her speed to 4 knots.  
Vessel astern is going to overtake her to the West.

Diamond Star VYNG

Diamond Star confirms.

Maas Approach

# Role-play 2

Maas Approach reports that Diamond Star's berth is ready and that she will berth at 1300 hrs. UTC. Request to remain stand by on channel 13.

Diamond Star VYNG

Diamond Star confirms.

Maas Approach

# Internship VHF-Communication: role-plays

communication

# Calling unknown vessel

Non-GMDSS vessels  
(e.g. small vessels)

Announcement &  
acknowledgement  
on VHF channel 13 or 16

GMDSS vessels

Announcement &  
acknowledgement  
by DSC.

Message by conversation on VHF-working channel

# Calling unknown vessel

Announcement on channel 13 or 16:

*"All vessels (3X)*

*Calling unknown vessel in position .....*

*This is ..... (name of the vessel 3X + callsign)*

*HOW DO YOU READ ME? - OVER"*

*or in case of an urgent message*

*"(MESSAGE) ..... "*

*Acknowledgement (ch. 13 or 16);  
message on working channel.*

# Calling unknown vessel

## Announcement on DSC

With the *Automatic Identification System* (AIS) the MMSI-code of an unknown vessel can be read from the radar display.

*Message on working channel.*

# Role-play 3

Address & Identify on VHF:

Seaborne - IRSL

Unknown vessel  
(*Great Yarmouth Princess - GBCH*)  
posn. 052 degr. from Bondpier -  
distance 0.5 miles

*acknowledges.*  
(*message on ch.6.*)

# Role-play 3

Seaborne is going to overtake  
Great Yarmouth Princess  
on her port side -  
course: 250 degr.;  
speed: 8 knots.

Great Yarmouth  
Princess - GBCH

Seaborne - IRSL

Great Yarmouth Princess  
confirms and closes.

# Role-play 4

Amsteldijk is at anchor  
2.5 miles W of Bondpier;  
Amsteldijk asks  
unknown ship about  
her intentions.

Unknown vessel  
2 miles N of the breakwater  
(*Ice Flower OVR*)

Amsteldijk - PHSA

.....answers  
that she will *stand on*.

**urgent message**

# Role-play 4

Amsteldijk indicates that Ice Flower is on a collision course. She must alter course to port-side.

Ice Flower - OVRR

Amsteldijk - PHSA

..... confirms and closes.

# Pilotage

Amsteldijk requests pilotage.

# Role-play 5

Address & Identify

# Role-play 5

Amsteldijk requests pilot service.  
Her position is  
225 degr. from Bassurelle,  
distance 3 miles.

Answers that pilotage has  
been suspended and will  
be resumed at 1200 UTC.  
Pilot boat will reach  
her at 1345 UTC.  
She must anchor in her  
present position.

# Role-play 5

Amsteldijk confirms  
and closes.

Dover Pilot  
Station

# Role-play 6

Pilot-tender

Address & Identify

Amsteldijk  
PHSA

# Role-play 6

Pilot-tender

Amsteldijk  
confirms  
and closes.

Pilot reports that he is underway (ETA-Amsteldijk: 1400 UTC). Amsteldijk must heave anchor and proceed on course 064 degr. true at 6 kn.; make lee on starboard and rig pilot ladder .

Amsteldijk  
PHSA
