Government support for investment activities

Conditions for the formation and functioning of enterprises with foreign investment

Forms of investment:

- Creation of a joint venture;
- Creation of an enterprise with 100% foreign capital;
- Acquisition of partial or a full package of shares of joint stock companies

Joint (foreign) enterprises are recognized as newly created enterprises that meet the following requirements:

- The amount of the investment fund is not less than 150 thousand USD;
- One of the participants of the enterprise is a foreign legal entity;
- The share of foreign investment is at least 30% of the investment fund..

Foreign investors can be provided with additional guarantees if they invest:

- In priority sectors that ensure sustainable economic growth;
- In the introduction of high-end modern technologies;
- In projects aimed at expanding the export potential;
- Projects in the field of small business

Income of foreign investor, generated in the Republic of Uzbekistan:

Can be reinvested in the territory of the Republic of Uzbekistan or used in any other way at the discretion of a foreign investor

Government support for investment activities

Preferential taxation for foreign investors and companies with foreign investment:

On corporate income tax

- Taxable profit is reduced by the amount: of
- Funds allocated for the modernization of production;
 - Purchase of new equipment;
 - Construction works for expansion of production;
 - Funds directed to repay loans.

On value-added tax (VAT)

- VAT is exempted from imports of:
- technological equipment, according to the list approved by the legislation, as well as components and spare parts for it;
 - property, imported as investment obligations.

On customs payments

- Exempt from payment of customs duties on:
- Property imported by foreign investors to Uzbekistan for their own production needs;
 - Property imported for the personal needs of foreign investors and foreign nationals who are in Uzbekistan under employment contracts;
 - Goods imported by foreign legal entities that made direct investments for a total amount of more than \$ 50 million if the imported goods are products of their own production;
 - Technological equipment, according to the list approved by the legislation, as well as components and spare parts for it;
 - Property, imported as investment obligations.

Government support for investment activities

Preferential taxation for foreign investors and enterprises with foreign investments on several types of taxes and other mandatory payments

For **exporting enterprises**, the procedure for paying income tax and property tax is applied, based on the share of exports of own-produced goods

- ✓ if the share of exports is from 15% to 30% in total sales – income tax (profit) and property tax rates will be reduced by 30%
- ✓ if the share of export is 30% or more in total sales, income tax (profit) and property tax rates will be reduced by 2 times

Exemption of companies, who attract direct private foreign investments and are engaged in production of goods in sectors of the economy according to the list of priority sectors

Exemption from payment of:

- ✓ Corporate income tax
- ✓ Property tax
- ✓ Tax on improvement and development of social infrastructure
- ✓ Obligatory deductions to the Republican Road Fund
- ✓ Single tax payment for microfirms and small businesses

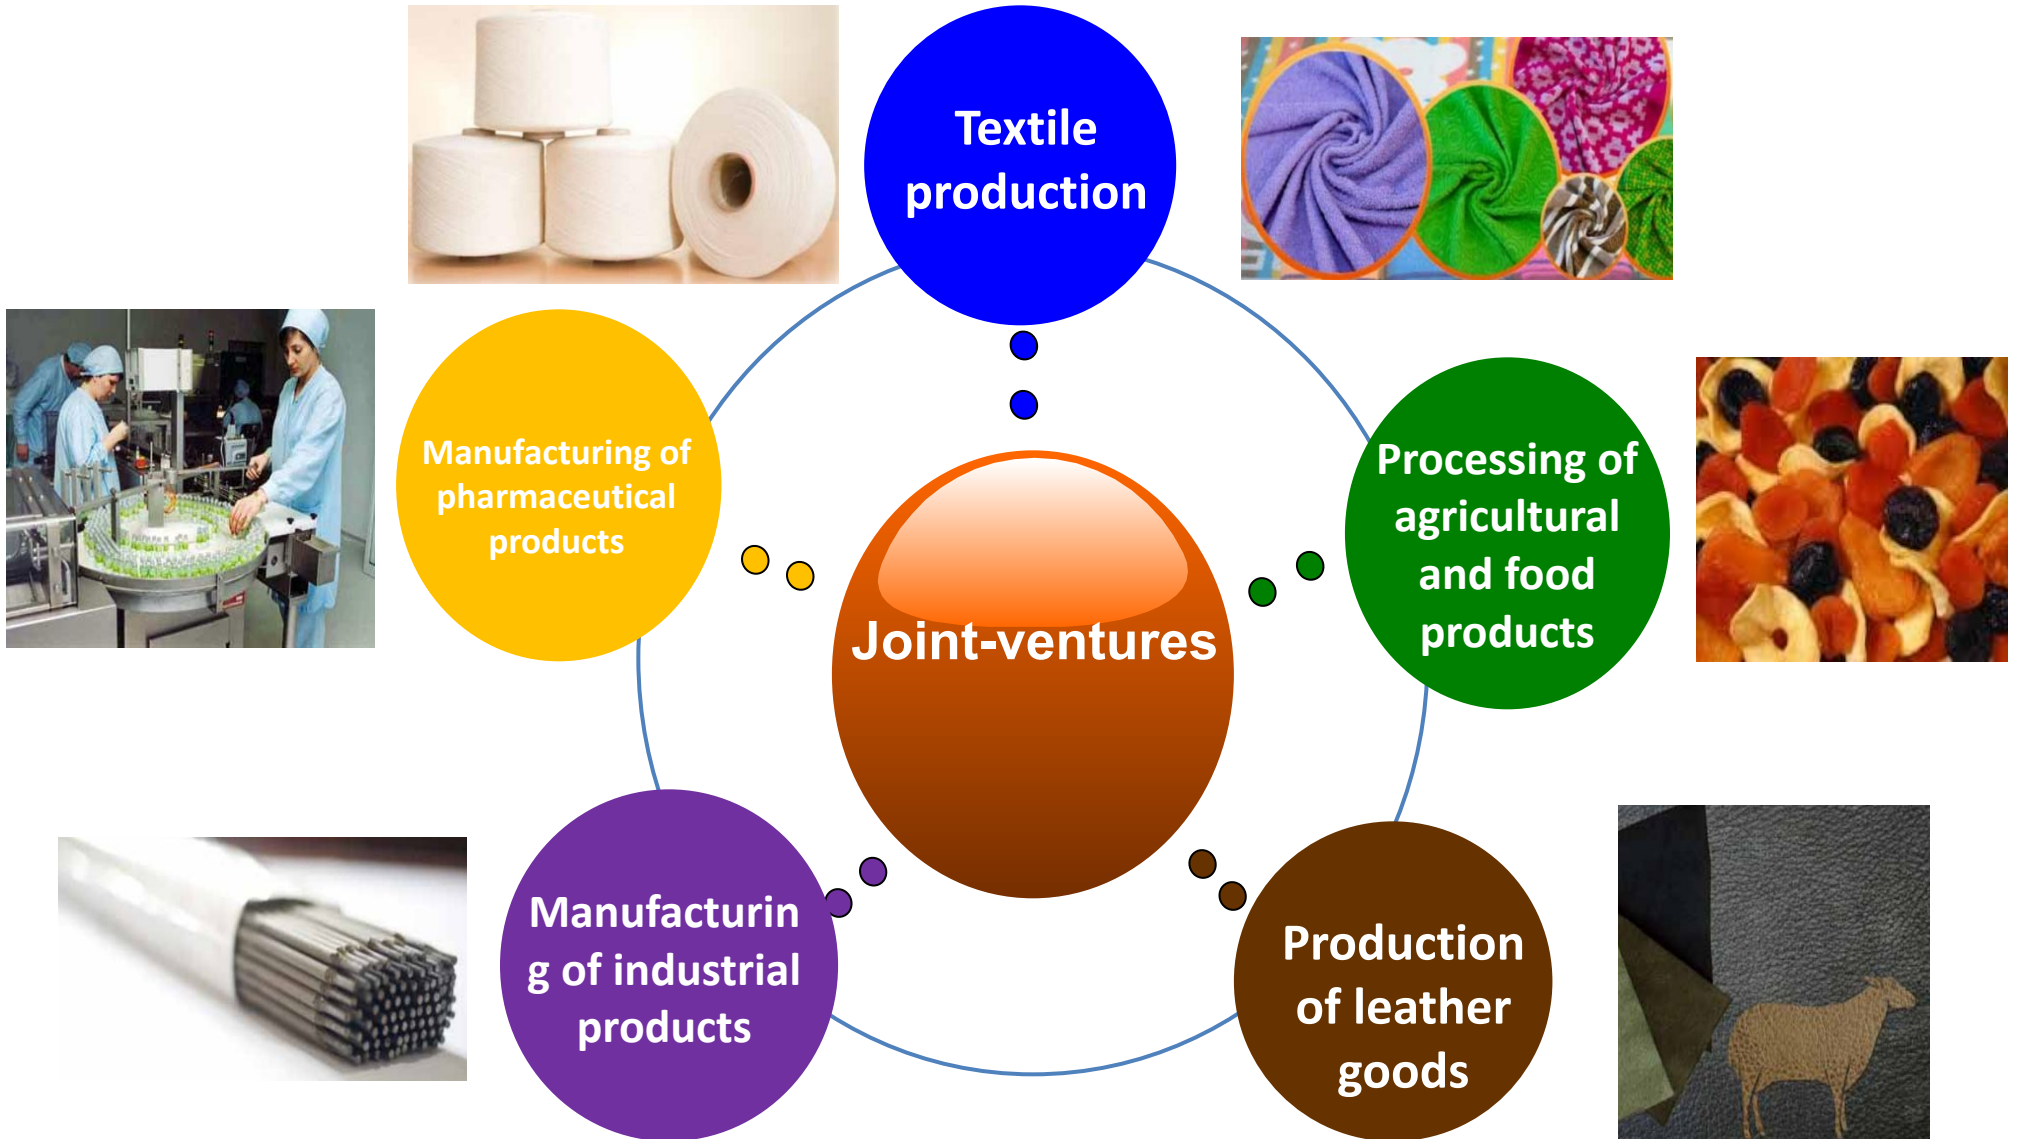

For companies engaged in prospecting, exploration, oil and gas production

Exempt foreign companies that perform exploratory activities for oil and gas from payment of:

- ✓ All kinds of taxes and mandatory payments to off-budget funds for the period of geological exploration;
- ✓ Customs payments for the import of equipment, material and technical resources and services required for work.

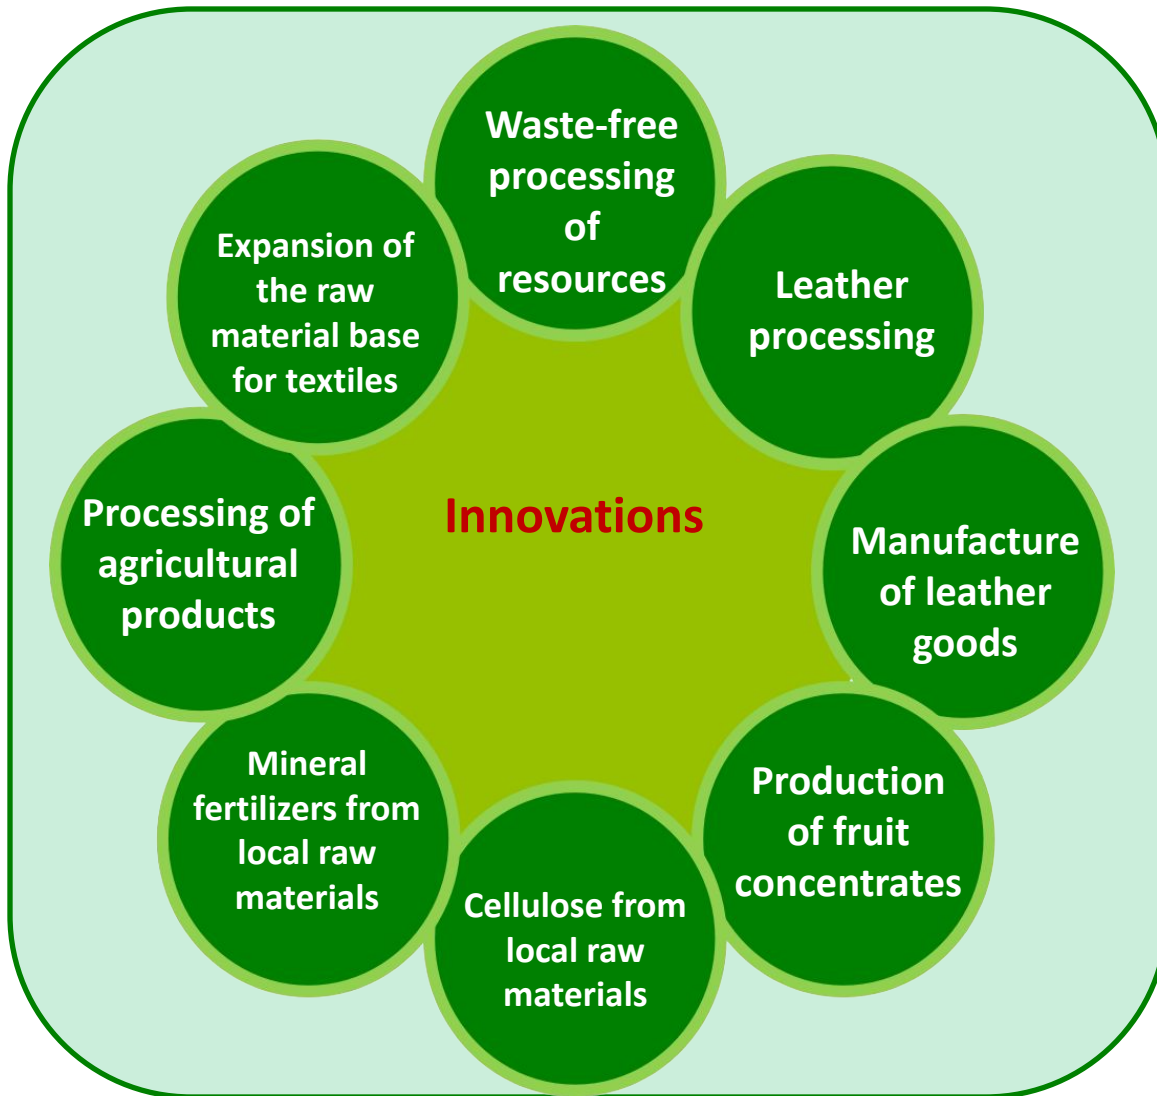

Exempt oil and gas production joint ventures that carry out prospecting and exploration for oil and gas from payment of profit tax for a period of 7 years from the commencement of oil or gas production.

Perspective directions for cooperation

Investment proposals for investors on the basis of innovative approaches to the development and implementation of initiated projects

1 approach. Innovations in the spheres mostly interested by entrepreneurs

2 approach. Specific innovative projects that require investment:

- ❖ Expansion of the range of textile products on the basis of improving the structural composition of materials
- ❖ Creation of biologically active polymers (fungi) of antiseptic purpose for leather processing
- ❖ A rational, effective and environmentally friendly technology for processing leather waste
- ❖ Production of children's shoes with varying dimensions and configuration
- ❖ Synthetic leather production
- ❖ Production of footwear from molded rubber
- ❖ Production of textile shoe fabrics with and without nap
- ❖ Other projects

3 approach. Innovative ideas for the organization of new projects were developed by scientists and specialists of Namangan

These ideas are ready and require investment
