

The background of the slide is a close-up, slightly wavy image of the Union Jack flag, showing the red, white, and blue colors and the characteristic cross pattern.

My trip to London

Sofiya Andryushenko

I have dreamt to visit England for long time.
And first I have been the this summer. Today
I'd like to share impressions with you.

The airport, which is associated with Great Britain, is called Heathrow. It's the chief international and the busiest airport of the country. It's the best airport I have seen in my life.

Then we met the typical English families and immersed into culture and customs of English families.

The first impression of Englishmen are well-disciplined and it is probably no exaggeration to say that they have the best manners in the world. They are old polite they all know to how to behave in society. Beside they are never rude.

The London School of Commerce (LSC), established in November 1999, is located in central London, next to the River Thames, about a 5-minute walk from London Bridge MRT Station. The school's location is close to landmarks such as Tower Bridge, Tower of London, the London Eye, the Big Ben, the London Dungeon, Parliament House, numerous parks and amusement parks. The LSC's training objective is to create opportunities for students in different countries, to have access to an advanced education and to update their communication and work skills.

London has many places of interest. One of them is Buckingham Palace is the official residence of Queen Elizabeth. It is located near Green Park. When the Queen is in the residence , the Royal Standard flies over Buckingham Palace.

There are 775 rooms where members of the Royal family and their servants live. There are also rooms for guests. There are offices , on-site post and even swimming pool in the palace.

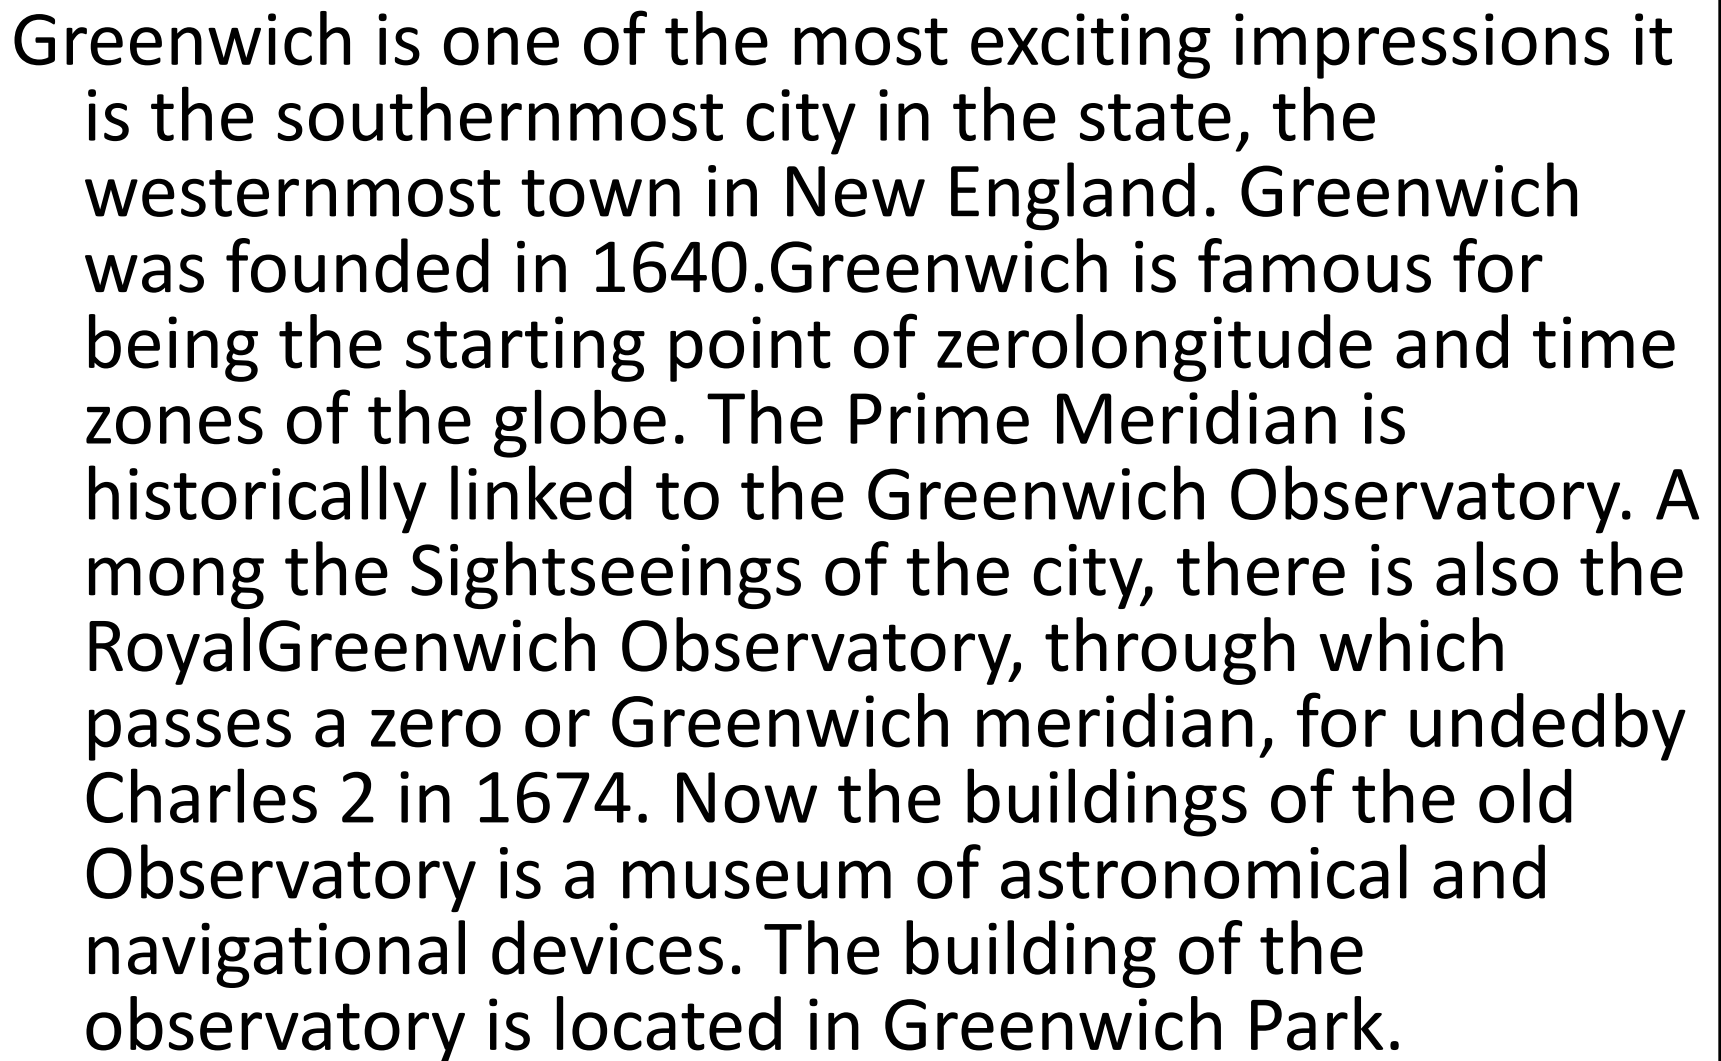

Windsor Castle is the oldest and largest occupied castle in the world.

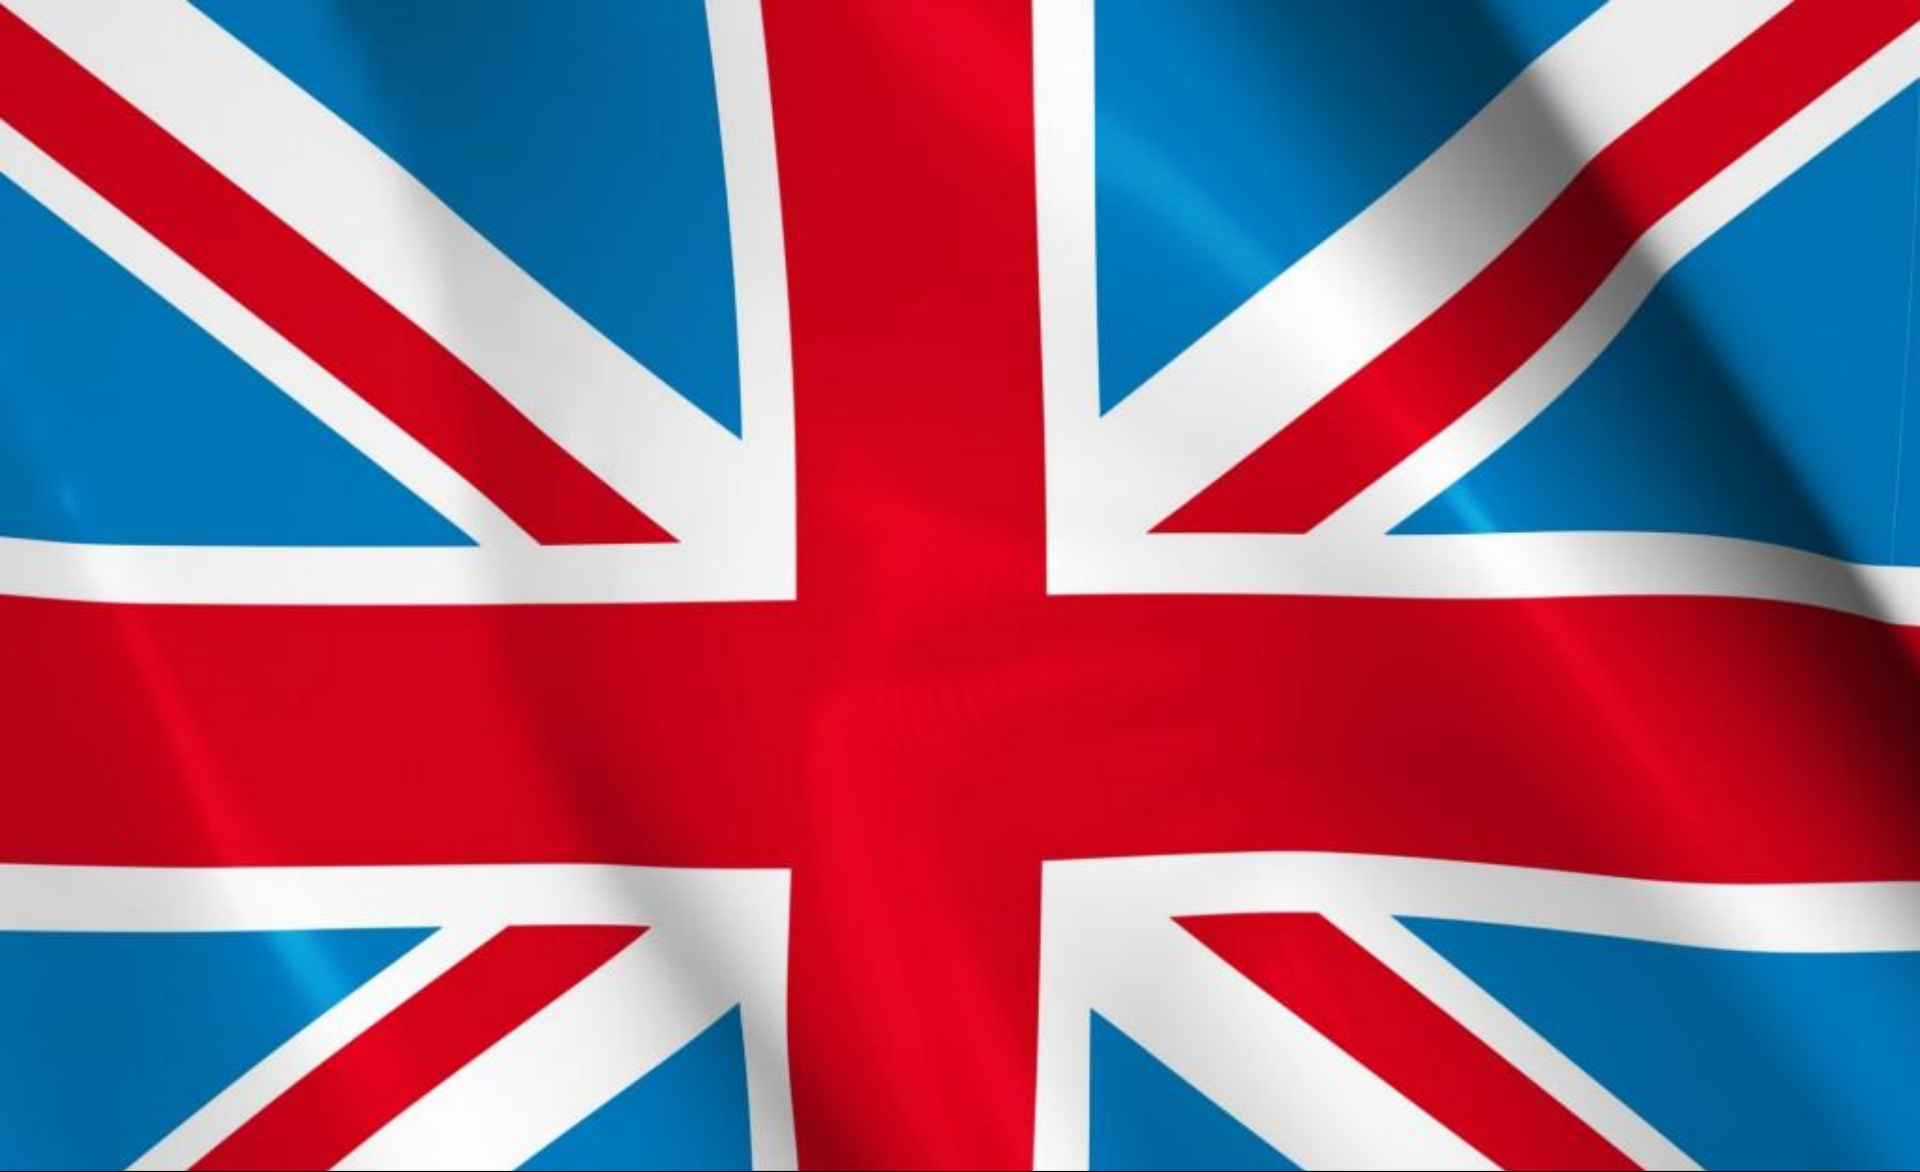

Founded by William the Conqueror in the 11th century, it has since been the home of 39 monarchs. Today the Queen spends most of her private weekends at the Castle.

Madam Tussaud's is the most popular and talked about wax museum in the world. There are wax models of the famous and infamous, both living and dead, from every walk of life. The museum is situated in Marylebone Road, not far from the street which is famous as the home of the first great detective in fiction, Conan Doyle's Sherlock Holmes.

Greenwich is one of the most exciting impressions it is the southernmost city in the state, the westernmost town in New England. Greenwich was founded in 1640. Greenwich is famous for being the starting point of zero longitude and time zones of the globe. The Prime Meridian is historically linked to the Greenwich Observatory. Among the Sightseeings of the city, there is also the Royal Greenwich Observatory, through which passes a zero or Greenwich meridian, founded by Charles 2 in 1674. Now the buildings of the old Observatory is a museum of astronomical and navigational devices. The building of the observatory is located in Greenwich Park.

I should say I feel in love with this city once I saw it. If I get a chance I will visit this country again.
