The TEXT

Hard to live without music. We hear music everywhere: in the streets, at home, on the radio and on television, in stores, in parks, in concert halls and on the coast, sometimes in the woods. We can't live without music. We like to listen to music, we love to dance to the music, we can play different musical instruments. Music is a combination of many sounds. They are short and long, weak and strong. The music reflects the mood and emotions of the people. Some people like folk music. In our country there are numerous folklore groups. It is interesting to listen to their music and songs.

Last week we visited with friends for a folk music concert. This concert gave us a great impression. Some people love the classics, but young people prefer modern music: rap, fate and pop music. If you want to listen to modern music, you can attend music halls and concerts of popular groups and singers. Or to buy a ticket and visit "Eurovision". I like to listen to songs performed by our Ukrainian popular singers. This talented singers and composers, and I like to go to their concerts.

My friends and I buy tickets beforehand and often give our favorite artists colors. Classical and modern music are popular in our country. My friend Oleg is fond of classical music. Sometimes he spends his free time listening to music by Wolfgang Mozart and other composers.

"The fourth Symphony and Sixth Symphony" by Shostakovich made a strong impression on him.
