UK economy

*Great Britain is one of seven
economically developed countries in the
world.*

USA

China

Japan

Germany

France

UK

Brazil

On the world market Great Britain supplies aircraft equipment: military and civil planes (British Aerospace, Harrier, Tornado, Eurofighter).

British aerospace

Developed mechanical engineering also allows Great Britain to supply medical equipment, agricultural machinery, machines, computers, household appliances.

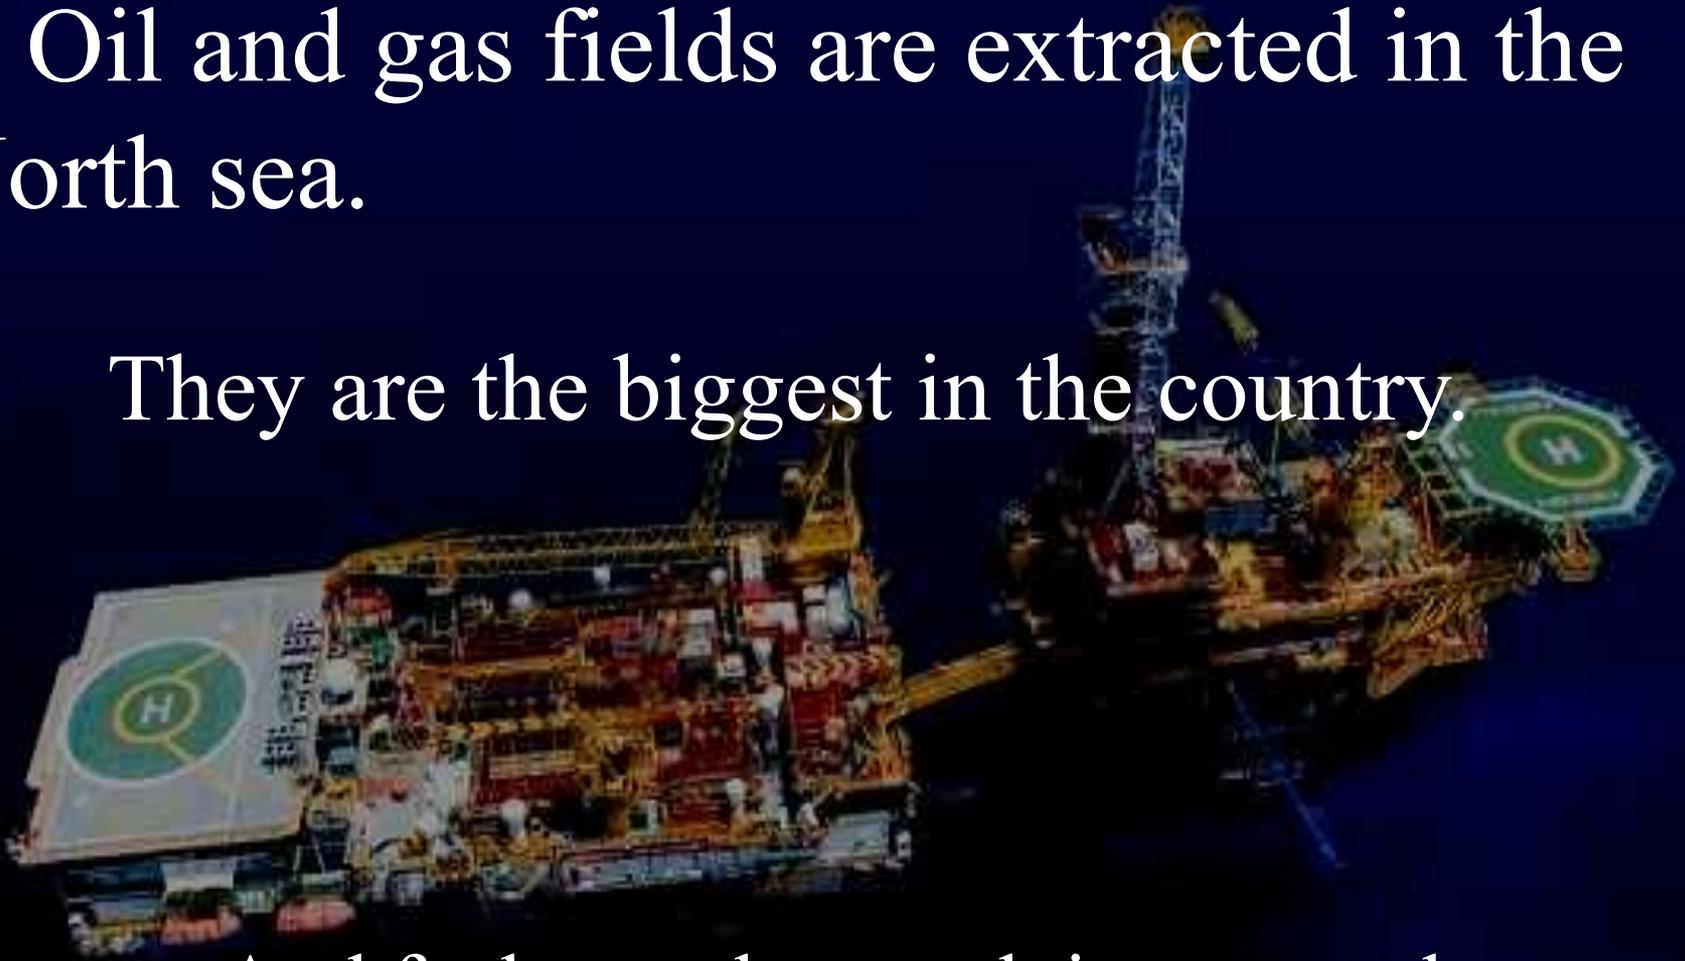

Great Britain is also the 4th country in the world for producing medicines.

Oil and gas fields are extracted in the North sea.

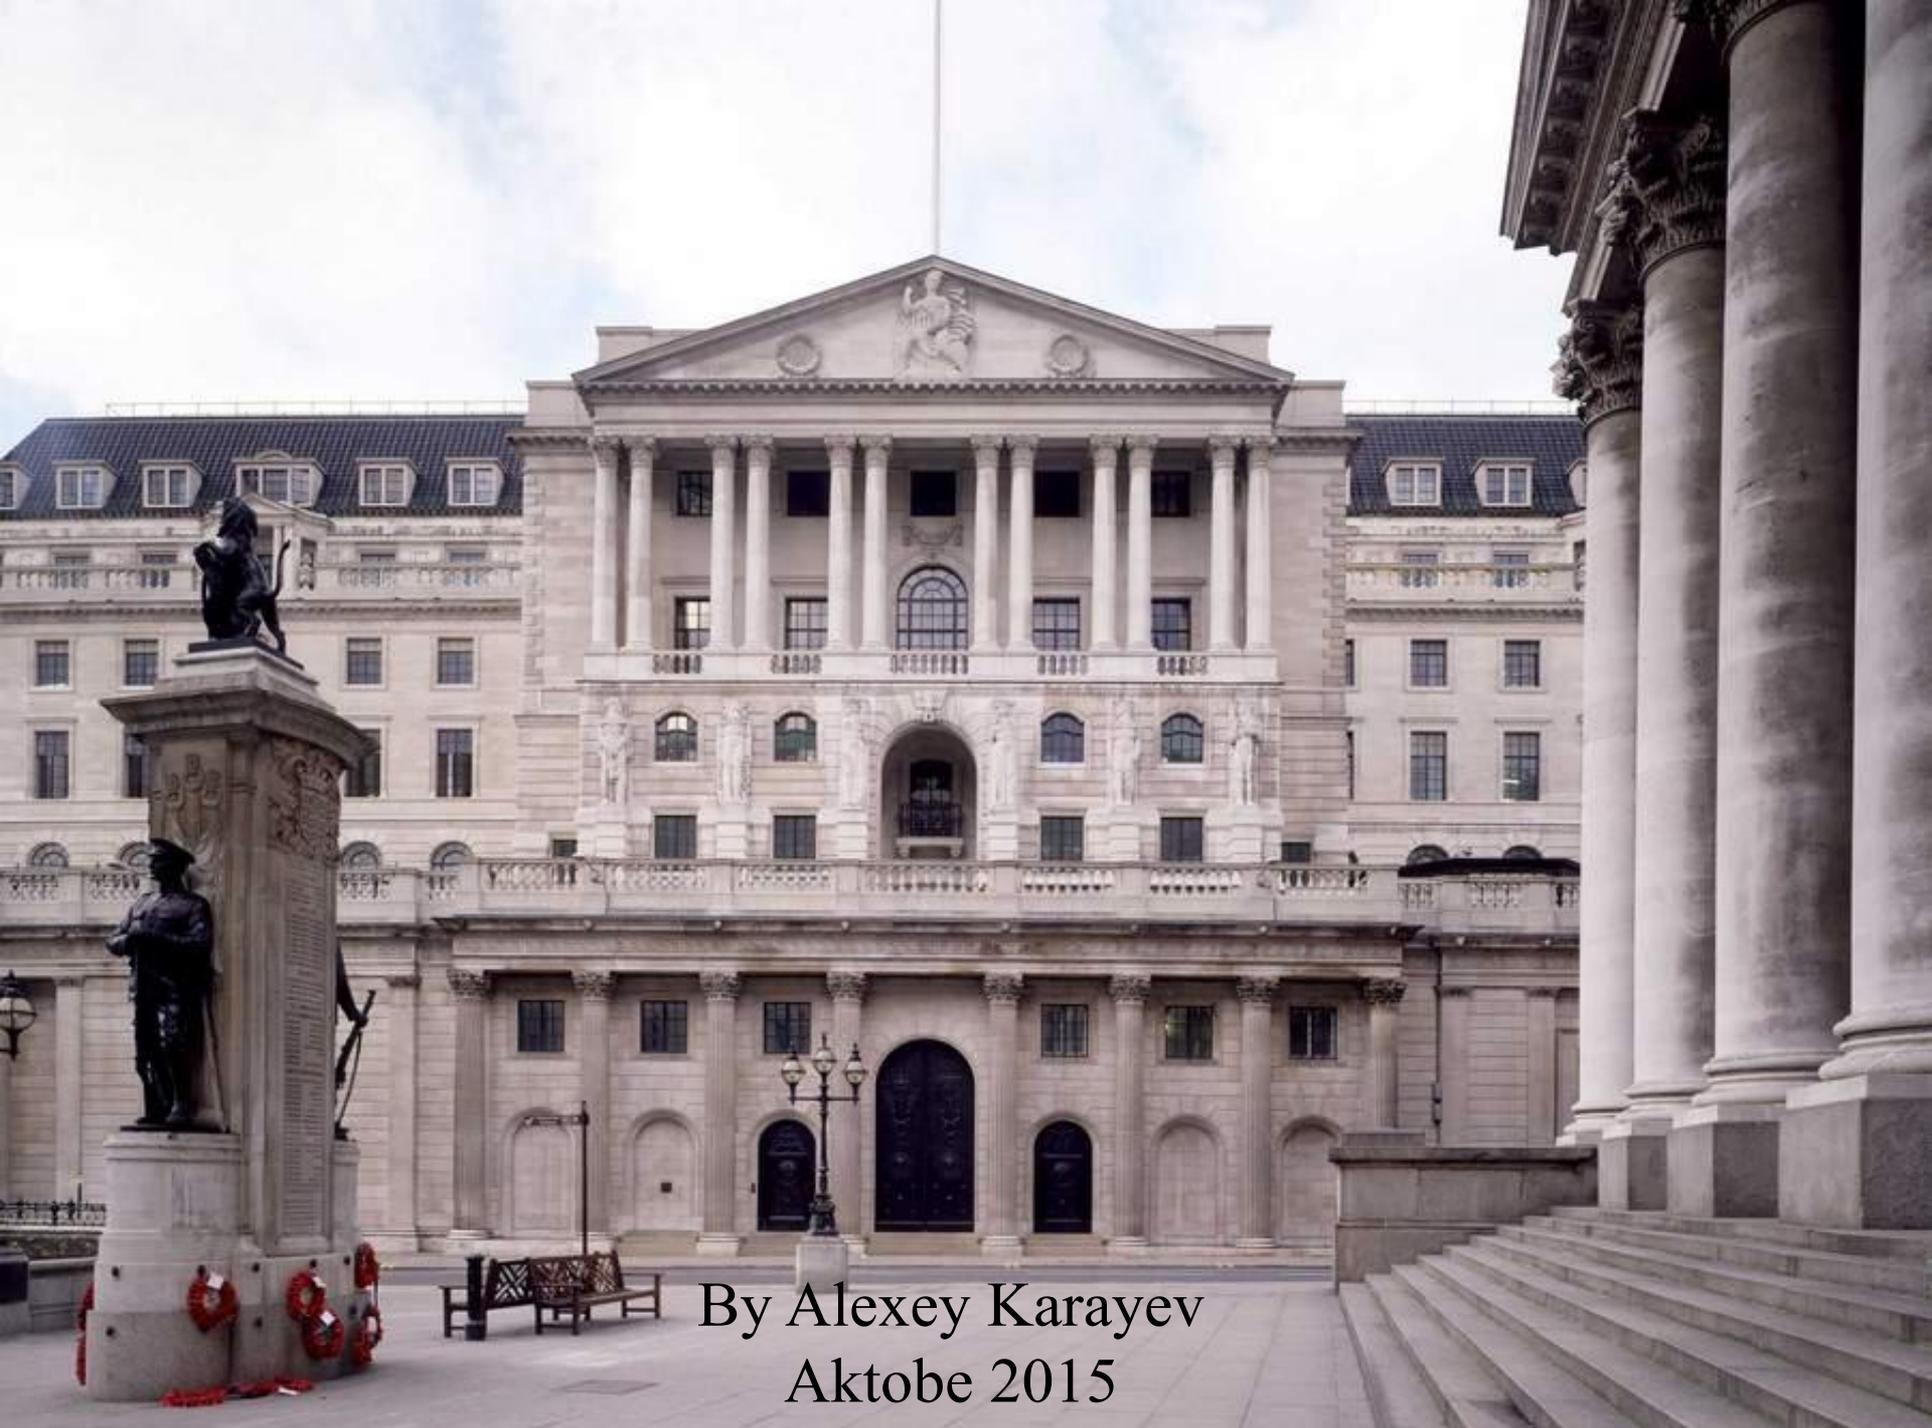

They are the biggest in the country.

And fuel, mostly petrol, is exported to other European countries.

The service sector is presented by such industries as finance and tourism. In London are situated more than 50 the largest foreign banks and the world currency market.
