

My name is Daria Bobrovskaya, I am 22 years old and I am studying in the second year of the Polytechnic University of Peter the Great in the direction of architectural design. I work as a freelancer, I am interested in architecture and painting. I am concerned with the problems of ecology and after graduation I'm going to work as a designer, creating eco-friendly things, as well as a comfortable and safe environment for people's living. I think my graphic and environmental design to participate in the international exchange program because this will help me learn more about design and become an international professional skills will be a good foundation for achieving my goals.

In this project, I worked on creating icons for the blood donation app, the project was made for the Indian company. I chose flat design because it is one of the most popular trends in graphic design at the moment and I believe that this style is appropriate in this context, pastel colors are well suited for a medical application.

These variants of logos were created by me for a crypto currency called Galacoin. It was intended to use logos on electronic medias.

This logo was designed for a coffee shop called Utopia Cafe. The customer wanted to see a classic, elegant logo, squeezed into a circle.

Logo for the restaurant of sea products. I created a minimalistic picture that reflects the concept of the restaurant. I think this work looks modern and stylish.

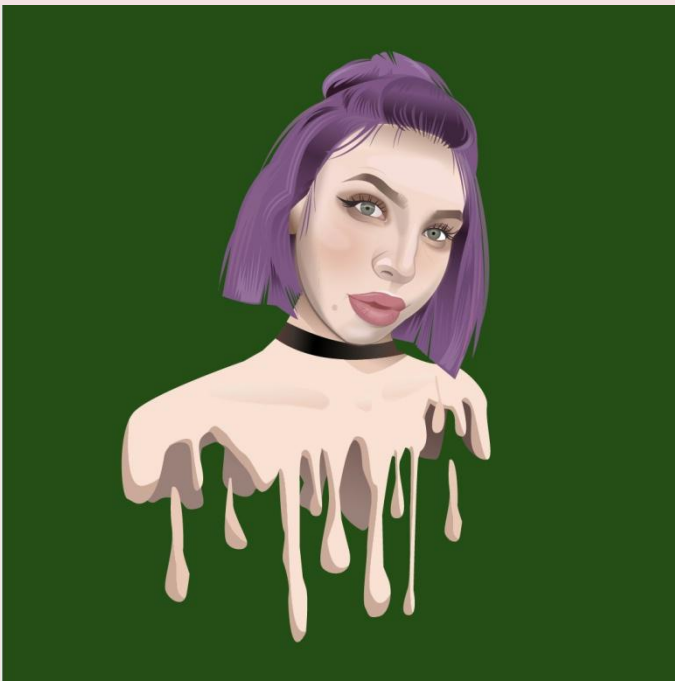

NAIL STUDIO

This logo was created for a nail salon. I created a simple modern logo there the letter "U" stylized like a nail.

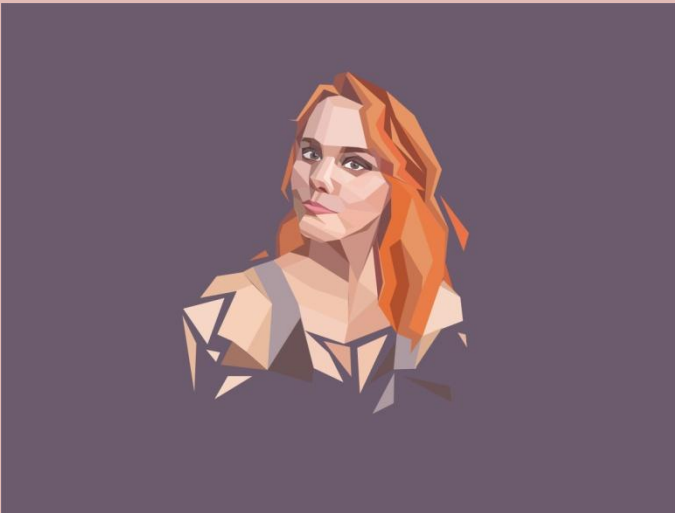

This picture shows a business card which I created to myself. The design is based on my name on the front and some information with my contacts on the opposite side.

I also performed several portraits by order, they were both stylized images and realistic ones. In accordance with the request of some customers, I stylized a person with a photo as a character.

This is a cover for a business podcast. The text and the photo were given me by a customer. The composition of the page was also a wish of him. I created 8 icons to represent the main topics which were going to be discussed in the podcast.

This illustration of a Thai necklace was created by me for a book cover. I was asked to draw a necklace with high detailization

Black and white

This illustrations were created as a design of a Donald Trump souvenir toy for a Chinese online shop.
