

A collage of space-related images. In the center, a man in a brown pinstriped suit and white helmet floats, holding a red suitcase and a small blue card. To his left, a woman in a green dress and helmet floats with a satellite. Above her, a white jet flies. To the right, a rocket with three spheres is visible. Below the man, a blue astronaut in a suit floats. In the background, a large yellow moon and the Earth are visible against a starry sky.

# Space tourism

Advantages and disadvantages essay

An astronaut in a white and orange NASA spacesuit is floating in space. The astronaut is wearing a helmet and has a NASA logo on the chest. The background is a dark, starry space with a large, reddish planet (Mars) visible in the upper left and a bright, fiery nebula in the lower right. The text is overlaid on the right side of the image.

**“Space tourism  
has become a  
reality. Do the  
advantages of it  
outweigh the  
disadvantages?”**

A photograph of an astronaut in a white spacesuit floating in space. The astronaut is positioned on the left side of the frame, with their back to the camera. They are wearing a white helmet and a large white life-support backpack. The background shows the Earth's horizon with a blue sky and white clouds, and a dark, starry space above. The lighting is bright, suggesting the sun is nearby.

“Space tourism has become a reality. What are advantages and disadvantages?”
