Environment

NO.	Device	Qua.	Remark
1	Computer	1	CPU 1.7GHz or above, 512M ram or above, Windows XP or win7 or win8 system.
2	Driver	1	PlatDriversInstall1.8en
3	Download Tool	1	HQXA_CustomerDL_EMMC_V1.16_150818.zip
4	USB Cable	1	USB Cable

Driver Install

Decompression the compression package: PlatDriversInstall1.8, Run PlatDriversInstall.exe. Proceed as follows:

Driver is not certified WHQL. The first installation will show the following dialog box, Please click "Continue Anyway", it will tip many times. has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.)

Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.

Driver Install

After the installation complete, need to restart the computer to make the drives take effect.

🗑 Drivers Setup

Completing the Drivers Setup

Your computer must be restarted in order to complete the installation of Drivers. Do you want to reboot now?

Reboot now

I want to manually reboot later

< Back

Finish

Cancel

lenovo

Program Install

Decompression the compression package: HQXA_CustomerDL_EMMC_V1. 16_150818.zip

Run Program

Run "ets.startrun.exe" program, program will starts normal. Login: Interface will show in Figure 1.
