Company history Sultan

- The integrated complex "Sultan" for the production of high-grade flour from durum wheat and pasta "Sultan" was built and put into operation in February 1996 by the Turkish company "Okan Holding Isot"

The construction of the mill-macaroni complex began in 1993 in accordance with the instructions of the Government of the Republic of Kazakhstan. The President of Kazakhstan, Nursultan Nazarbayev, “laid the first stone” in the foundation of the complex and was present at its opening

- - in December 2007, the mill № 2 for the production of baking flour was put into operation - 200 tons / day
 - - In 2008, the 4th pasta production line was launched
 - - in 2013 modernization of the mill number 1
 - -in 2014, modernization of the line №1 for the production of short-cut pasta.
- 

The main activities of JSC "Sultan-EMMK":

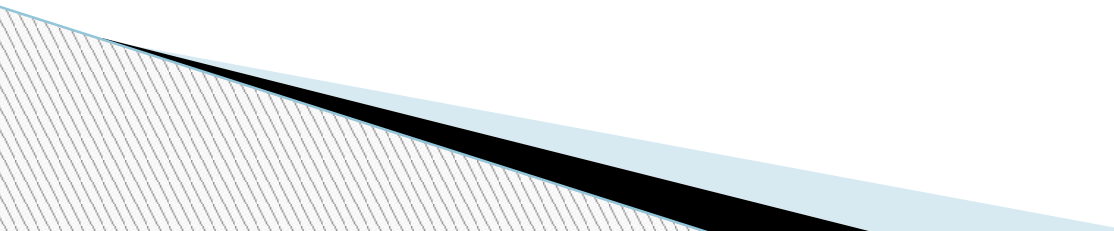

Acceptance, storage and shipment of grain.

Production and sale of milling products, pasta with the Sultan trademark.

Sultan-EMMK JSC is famous for its high-quality products, its wide range and affordable price.

Product Range:

- pasta with the Sultan trademark (38 types) and made from Kazakhstan durum wheat using equipment and technology from the Swiss company Buhler;
 - Wheat flour, baking premium, 1c;
 - forged baking wheat flour;
 - high-grade durum wheat flour for making pasta;
 - Flour 2 varieties of durum wheat;
 - wheat bran
- 

Sultan-EMMK JSC is not only the production of pasta and high-quality flour, but also a powerful elevator that receives, dries, moonlights, cools and stores 100-120 thousand tons of grain per year in its silos. Sultan-EMMK JSC gained good fame from grain owners, who seek to store and ship grain from the Sultan elevator.

productcenter

Flour and pasta "Sultan" are high-quality, ecologically pure products made from Kazakhstan wheat using equipment and technology of the Swiss company Buhler. Flour and pasta "Sultan" - domestic products that can compete with the best pasta-flour products of global manufacturers.
