

HOUSE OF MY DREAM

Stremilova Alina

Every likes
dreaming.I would
like to tell you
about the house
of my dream.

I would like to have my apartment in Oslo. There will be a park in front of the house with benches, in which I will spend time.

I would live there with one dog. I imagine my house with one room. My apartment will not be very big but cozy

There would be a balcony and panoramic windows, that will make the apartment light

At the night the windows will be closed with think curtains to sleep better. The whole wall hang a mirror to

Topfinel

Opposite the mirror will be a double bed. Parents will be able to sleep on it when they come to visit. Through the bookcase will be a kitchen, which has modern electrical appliances, that make our life more comfortable.

In the corner will
look good grand
piano.
