

PRESENTATION

The world in the future

WHAT WILL PEOPLE EAT ?

First what I think about is what people are going to eat in the future.

I think people will drink a mixture which will contain vitamins for health.

What will people do in their free time ?

Secondly I think about people s it what do in their free time .

People will play games a-new. For example in Glasses of virtual reality. They will put on them on their heads and will see games a-new. The are such technologies already. But they are very expensive.

What will people do in their free time ?

They cost 56000.

Now they are called
Oculus Rift. It was made
of plastic and cloth.

What will people do in their free time?

IN FUTURE MICROSOFT
THESE ARE HOLOLENS
WILL PRESENT IT .

QUESTIONS ?

What will people eat in
future ?

What is Oculus Rift ?

THANK YOU FOR
WATCHING!
