

The Necessity of Regional Nurseries for the Success of Freshwater Prawn Farming

Craig Upstrom
Aquaculture of Texas, Inc.

Since 1986

2004 USFPSGA Meeting

Nursery Tank for 200,000 45-day Juveniles

Hot Water Heaters for Tank

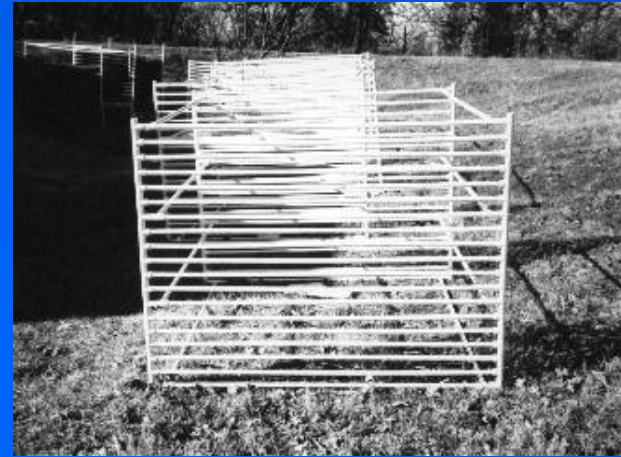

Filters for Tank

Substrates in Tank

Detailed Photos of Substrates

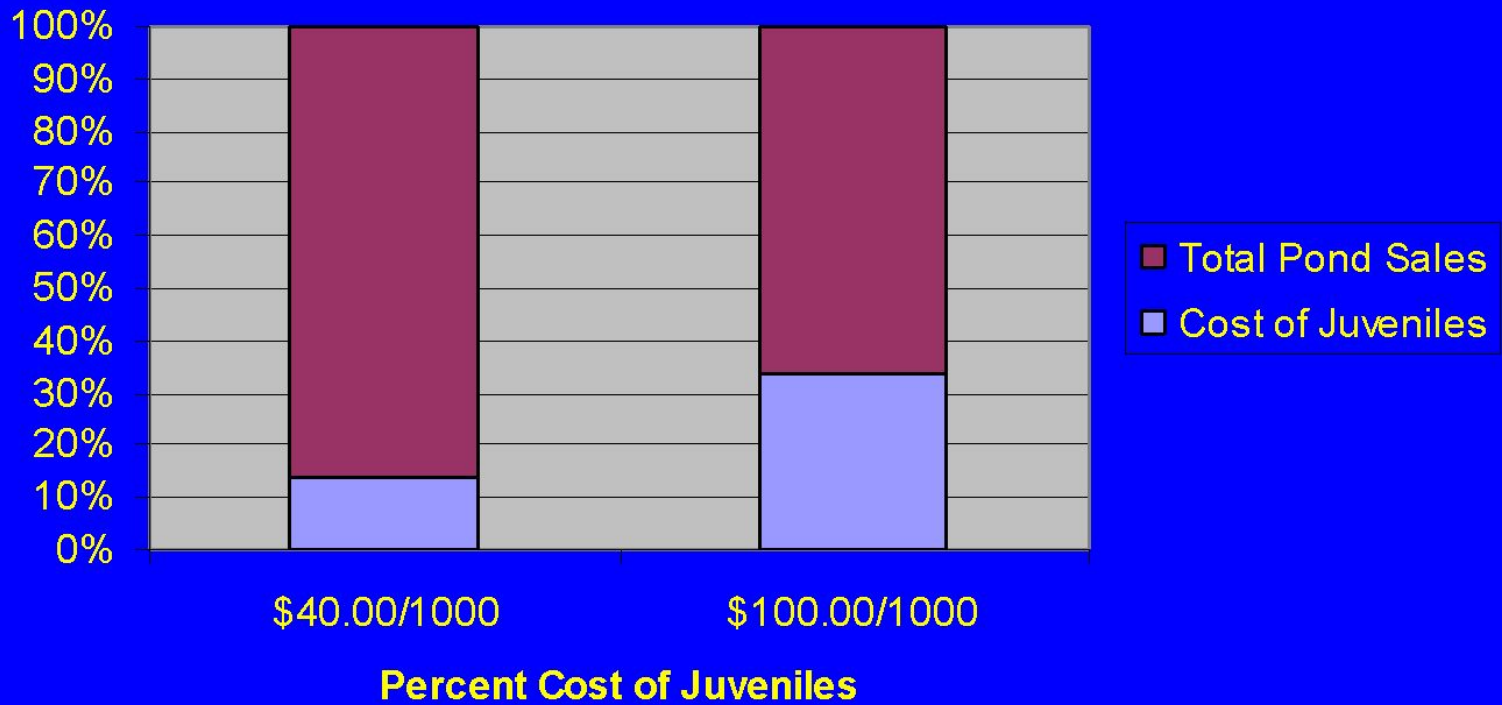

Trolley Track for Substrates

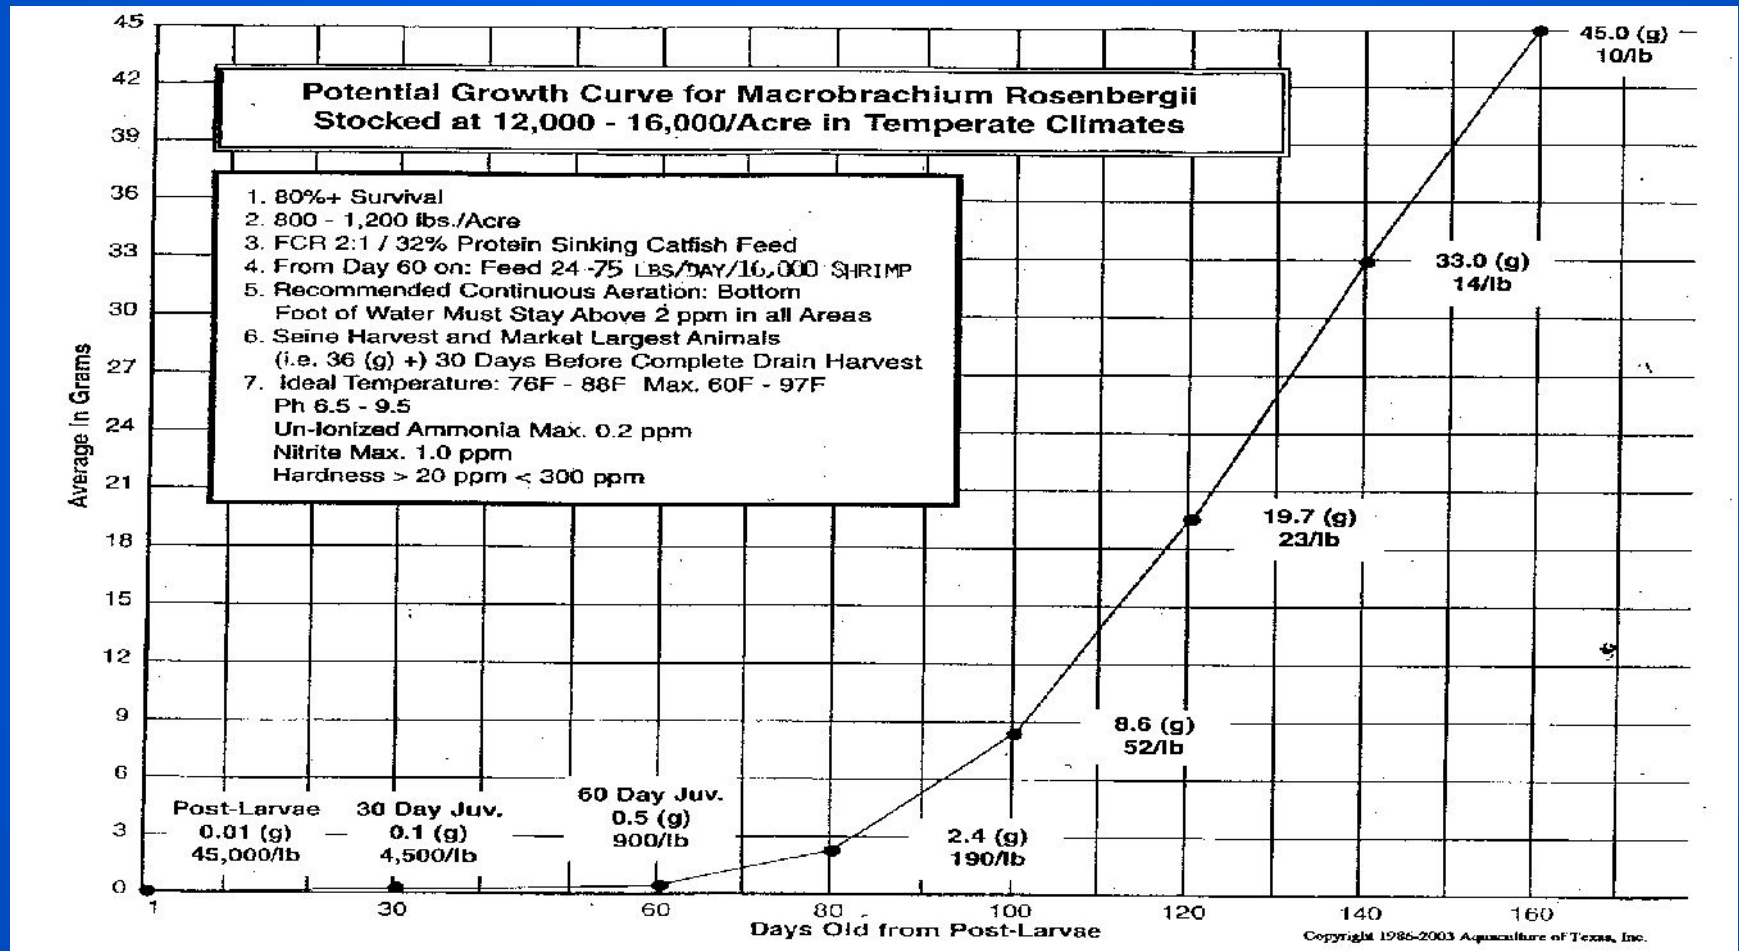

Reason to have Regional Nurseries

1. Cut costs of juveniles and increase profit
2. Increase availability of large juveniles
3. Increase regional sales of juveniles
4. Convenience of transportation
5. Convenience of stocking

Cut Costs of Juveniles and Increase Profit

Increase Availability and Regional Sales of Large Juveniles

Stocking One Acre with 20K PL's vs. 20K 60-day Juveniles

Convenience of stocking and Quantifying your stocking success

Nursery Tank for 200,000 45-day Juveniles
