Let's start with the first set of slides

“

*Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.*

*This is a slide  
title*

- ▷ Here you have a list of items
- ▷ And some text
- ▷ But remember not to overload your slides with content

You audience will listen to you or read the content, but won't do both.

# *Big concept*

Bring the attention of your audience over  
a key concept using icons or illustrations

*You can also  
split your  
content*

### **White**

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

### **Black**

Is the color of coal, ebony, and of outer space. It is the darkest color, the result of the absence of or complete absorption of light.

*In two or three  
columns*

**Yellow**

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

**Blue**

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

**Red**

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

*A picture is worth a  
thousand words*

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

The background is a teal color with light-colored, wavy lines that create a sense of movement. Several birds are scattered across the frame, appearing to fly in various directions. The birds are dark in color with lighter, golden-brown wings, suggesting they might be seabirds or similar species. The overall composition is clean and modern.

SlidesCarnival icons are editable shapes.

This means that you can:

- Resize them without losing quality.
- Change line color, width and style.

Isn't that nice? :)
