

# \*My last shopping

Sabina Shumskaya MFL-12

My last shopping was at supermarket. I do my shopping on Sunday.

I always write a shopping list, because I can forget to buy something, or buy products which I don't need to buy.

I walking around the supermarket putting the things I need in a basket. I want to make apple pie. First of all I put a bag of flour, a dozen eggs and sugar in the basket.

But when I'm looking for apples, I can't find any. An assistant tells me they have run out of apples. So I decide to go to the corner shop, which is near my house. Also I take a carton of juice, a bunch of bananas a packet of biscuits, a bottle of milk and brown bread.

At the end of my shopping, I joined the queue at the check-out, paid in cash, and was given my receipt and change.
