- other operational ricks

## 3. Basic principles of Security Activity

If necessary receive and exchange of information

with

Great Wall

and

HMRus (Sales)

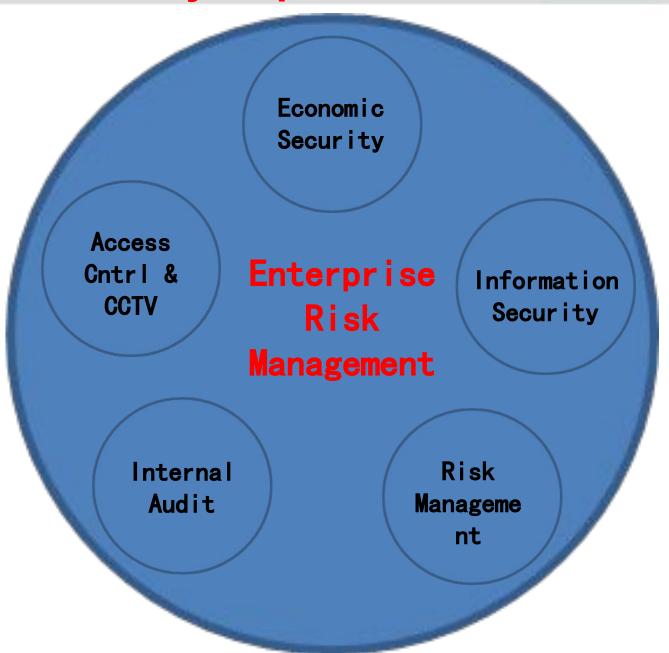

| Independence<br>(most important) | Originally direct report only to General Director. Ensuring independence of investigations of possible influence of other Departments.  |
|----------------------------------|---|
| Confidentiality                  | Provides the secret of conducting investigations Involves a set of rules or a promise that limits access or places restrictions on certain types of information.                                      |
| Integrity                        | Integrity is the qualification of being honest and having strong moral principles, or moral uprightness. It is generally a personal choice to hold oneself to consistent moral and ethical standards. |
| Evidence-based<br>Approach       | Use only facts in 100% strong evidence.   |
| Fair presentation                | Complete and reliable provision of the checked information and data.  |
| Due professional care            | Protection of interests of business of our Company. The interests of the company can't suffer.  |
