**Our Earth is our home**

**Look how beautiful can be our planet!**

The background is a solid light green color. It is decorated with several white butterfly silhouettes of various sizes and orientations, scattered across the page. There are also faint, light green leaf silhouettes scattered throughout, particularly on the left and right sides.

# **1. Our Earth is home**

A scenic landscape featuring a river flowing through a canyon. The river is surrounded by large, reddish-brown rocks and lush green trees. In the background, there are tall, jagged rock formations under a clear blue sky. The overall scene is vibrant and natural.

**People must take care of our planet**

The background is a solid light green color with a subtle gradient. Scattered across the background are several white silhouettes of butterflies in various sizes and orientations, some appearing to fly towards the center.

**2. People must take care of Earth.**

**But human actions  
destroy our nature**

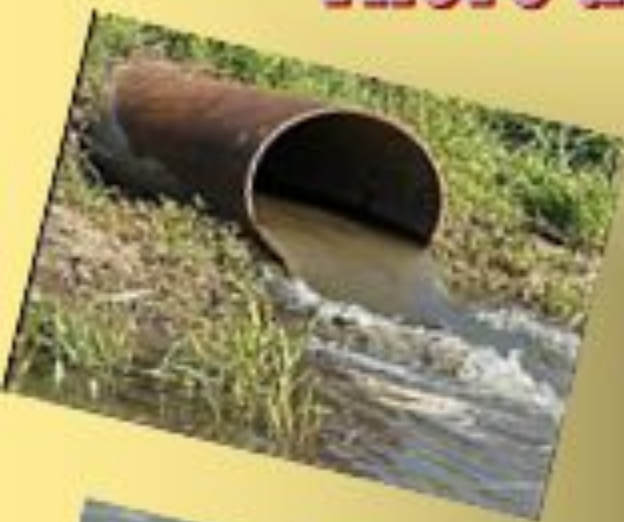

# **3. People destroy nature**

# There are many global problems.

➤ *Littering*

➤ *Air pollution*

➤ *Water pollution*

➤ *Endangered species*

➤ *Destruction of natural resources*

The background is a solid green color with a subtle gradient. Scattered across the background are several white silhouettes of butterflies in various sizes and orientations, some appearing to fly towards the center.

**4. We have many global problems.**

# 5. Pollution is global problem.

# 6. We have air pollution

# 7. We have water pollution.

**8. We have noise  
pollution.**

**9. We have personal  
pollution.**

The background is a solid light green color with several white butterfly silhouettes scattered across it. The butterflies are of various sizes and orientations, some appearing to fly towards the center and others away from it. The text is centered in the middle of the page.

**10.Many people  
smoke, drink  
alcohol.**

**11. They destroy  
themselves.**

# 12. Forest is a protector for nature

Lake Urmia. Left: 1985. Right: August 2010.

**Many forests are protected by government.**

Lake Urmia. Left: 1985. Right: August 2010.

**One of them is deforestation.**

**13. Every year people cut down many trees.**

Lake Urmia. Left: 1985. Right: August 2010.

# 14. People need land for housing, farming

Lake Urmia. Left: 1985. Right: August 2010.

The background of the slide is a light green gradient with several white butterfly silhouettes scattered across it. The butterflies are in various sizes and orientations, some appearing to fly towards the center. The overall aesthetic is clean and nature-themed.

# **15. Factories pollute nature**

**16. People must recycle rubbish.**

**17. People can collect rain water.**

The background is a solid light green color with several white butterfly silhouettes scattered across it. The butterflies are of various sizes and orientations, some appearing to fly towards the center and others away from it. The overall aesthetic is clean and nature-themed.

# **18.Greenpeace takes care of our Earth**

**19.I like nature**

**20.I don't pollute nature**

Please, be more merciful, be more kind,  
There's no boarder for the light.  
There's no boarder for the wind.  
And for the birds that we need.

We have to save our planet  
For those who will live after us.  
But we use a lot of poisons  
And don't think about our house.

The ozone layer is becoming thinner  
It is a shield of life on the Earth  
Zones are growing quickly as evil  
And there is hidden in the darkness death.

Forests leave their forces  
The smell of lime-trees is going by  
Keeping sulphate waters  
Rains are falling from the sky.

**The most horrible ecological disaster befell Ukraine and its people after the Chernobyl tragedy in April 1986.**

**A great damage has been done to the agriculture, forests and people's health. The consequences of this explosion at the atomic power-station are tragic for the Ukrainian, Byelorussian and other nations.**

***Environmental protection is of a universal concern. That is why serious measures to create a system of ecological security should be taken. Some progress has been already made in this direction. As many as 159 countries – members of the UNO – have set up environmental protection agencies***

*The international organization Greenpeace is also doing much to preserve the environment.*
