Books in our life

Books are an integral part of our life. Each of us at last once read a books. I can not imagine our daily life without books. Unfortunately at this time people like computers , not books. This lead to loss of vision.

Well that people can combine computers and books and create e-books, which don't harm health. I love read different books from encyclopedias to fantasy and comedias . I'm very happy every new book that appear to me.

# My favorite book

I love to read books of adventure. I have read many interesting books, but my favorite book - "The Adventures of Tom Sawyer" by Mark Twen. This book is popular among people all over the world. Tom lives in a small town on the Mississippi River. It is - the guy with the giant imagination

He loves to play with his friends. His friends loved him for his kindness and noble.

I like Tom for his kindness and courage, and that he - a reliable friend.
