Hybridizer : Serge  
Saliba

Catalog 2016-2017

- This new collection is very special, it contains some varieties which are very hard to obtain. It 's the result of crossing many species together, and the seeds were 99.99% sterile and do not germinate ,from the tiny amount of fertile seeds, some were rejected and some were selected, so imagine the hard work and patience . It took me many years to make this catalog .It's a unique selection , I wish you enjoy it!!

# 'SRG's Lavender Squeeze' – IS-

A beautiful variety with the size of a speciosa but the flowers look like a mini shape and are very big.

It's very attractive with this blue lavender color and center.

Mega bloomer and re-bloomer !!

Price : 7 Euros /pc

# 'SRG's Sigun'

A beauty with 2 colors on the petals, sometimes simple other time full double.

it's a new member among my doubles which i adore.

very generous and compact.
