

Tropical rainforests

A lush, dense tropical rainforest scene. The image is dominated by vibrant green foliage, including large, deeply lobed leaves and numerous ferns. Several tree trunks are visible, heavily covered in bright green moss and lichen. Numerous thin, brown vines hang vertically from the upper canopy, creating a complex, textured appearance. The lighting is soft and diffused, highlighting the intricate details of the forest's flora.

Tropical rainforests grow in the hot, wet, humid places near the Equator.

They clean and renew the Earth's air supply by absorbing carbon dioxide and producing oxygen.

They provide a home to thousands of animal and plant species.

Important products that come from rainforest plants are mahogany wood, rattan, bananas, paprika, pepper, cocoa and coffee.

The medicines quinine and aspirin come from tree bark and cough mixture is from tree of rainforests.

People are destroying the rainforests at a rate of 115 square miles a day.

The trees are cut down and used as building material or fuel.

Join an organisation which tries
to save the rainforests!

A vibrant rainbow arches across a dense, lush green forest. The forest is composed of many tall, thin trees with thick foliage, creating a rich green canopy. The rainbow is bright and multi-colored, with red, orange, yellow, green, blue, and purple bands. It starts near the bottom left and curves upwards towards the top right. The overall scene is bright and hopeful, symbolizing nature's beauty and the message of the text.
