

# **OFFICIAL STYLE OF CLOTHES**

Classics and formal-business style have a lot in common. But the outfits in this style are more diverse and modern.

# Formally-business

- Formally-business

One of the most conservative is the style of Business Formal. This style is suitable for teachers and academics. He is maximally devoid of individuality, and does not distract from his studies.

# Managerial

- ▣ Managerial

There is such a style as Modern Business. This strict style will be appropriate for various business meetings, exhibitions and other places where you need to look respectable and emphasize your status in a properly dressed society.

# Business casual

## ▣ Business casual

Young girls prefer the style of Business casual. It is less formal and is a combination of business and everyday styles. This youth style allows wearing clothes from brighter fabrics. You can create a simpler and more casual image within the business cache. For this, shorter skirts, simple monophonic skirts and sweaters are used. Deep neckline is unacceptable and within the framework of this style, but sleeves in the hot season may well be shortened.

The school uniform includes white blouses and shirts, dark blue pants, a skirt, jackets and dresses. Many teenagers are unhappy with the school uniform. Here are a few reasons:

- 1) Most teenagers find the school uniform uncomfortable - they prefer jeans and t-shirts.
- 2) Some students do not like that all teens look the same. How can we show our individuality, even if everyone has to have one style of clothes?
- 3) Instead of wearing everyday clothes that have already been bought, schoolchildren have to buy clothes "especially for the school."  
And spend more money.
