

# Паразитические простейшие (протозоология)

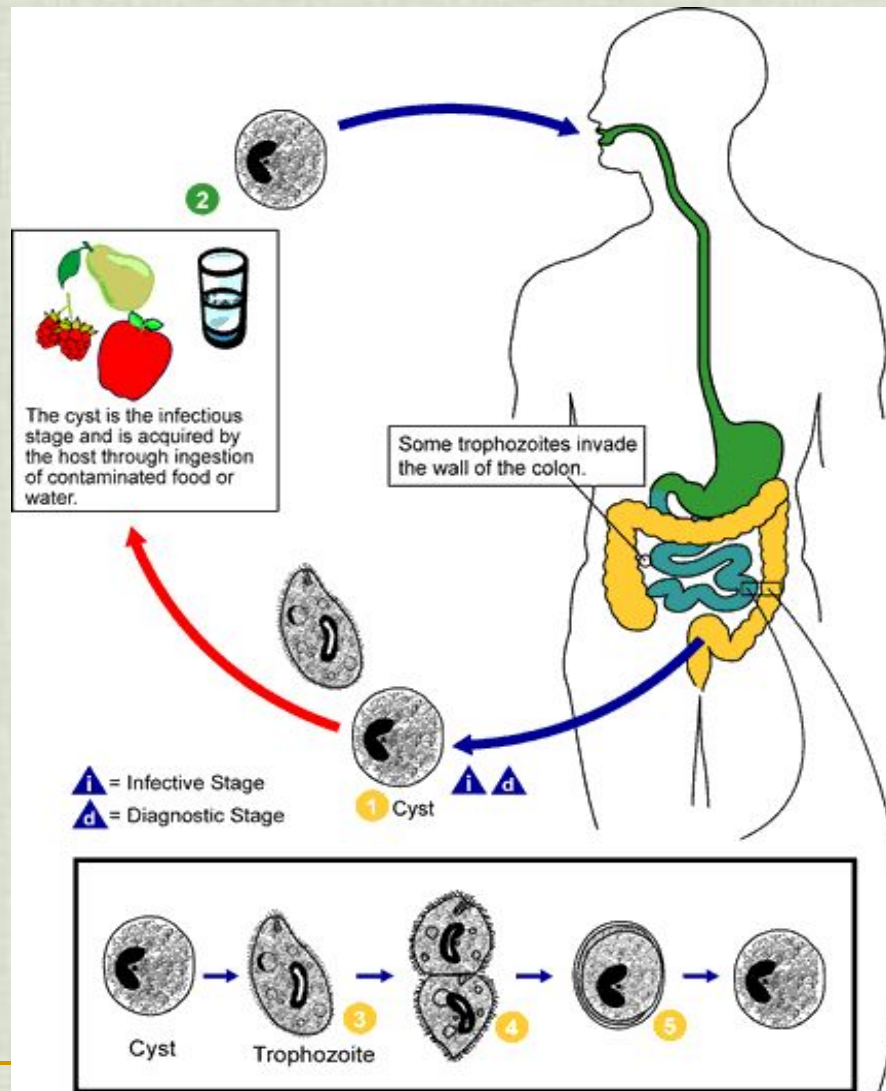

Общая характеристика

# Дизентерийная амеба *Entamoeba histolytica*

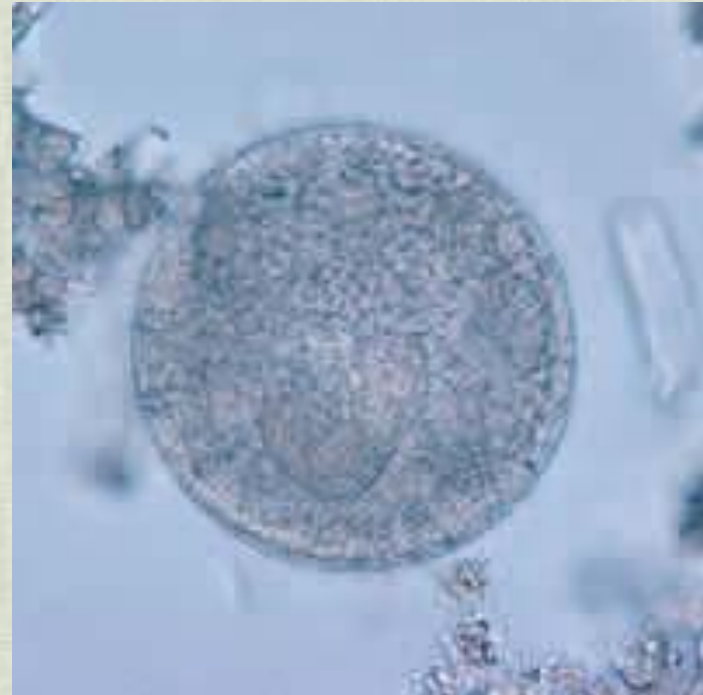

# Цикл развития кишечного балантидия

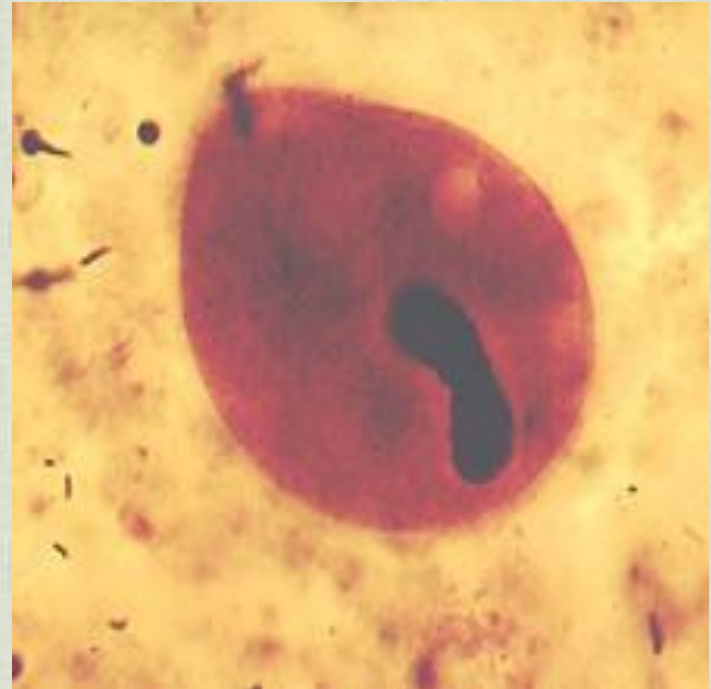

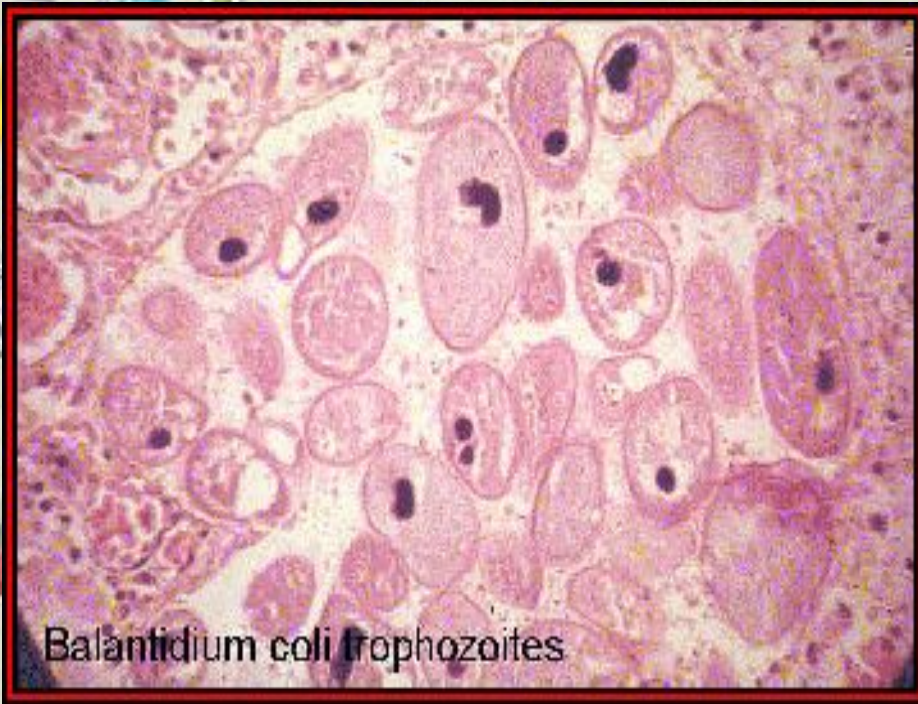

# Вегетативная форма и циста

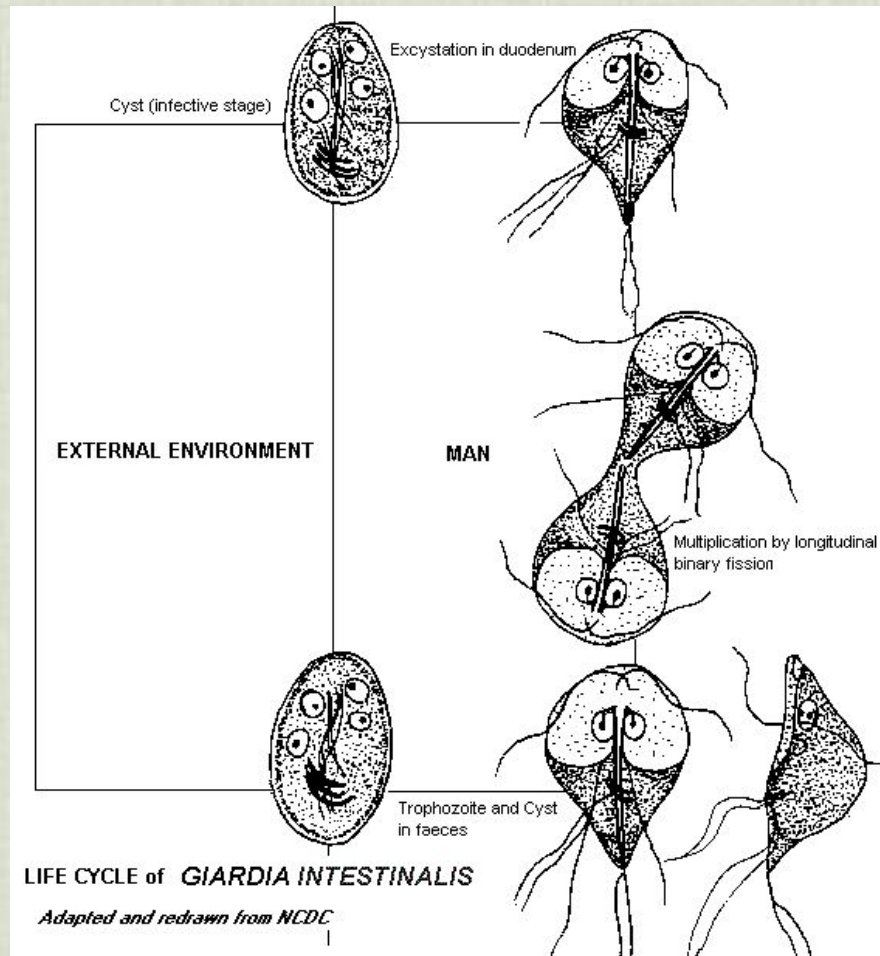

# Копроскопия

# Трофозоиты балантидия

# Цикл развития лямблии (жардии)

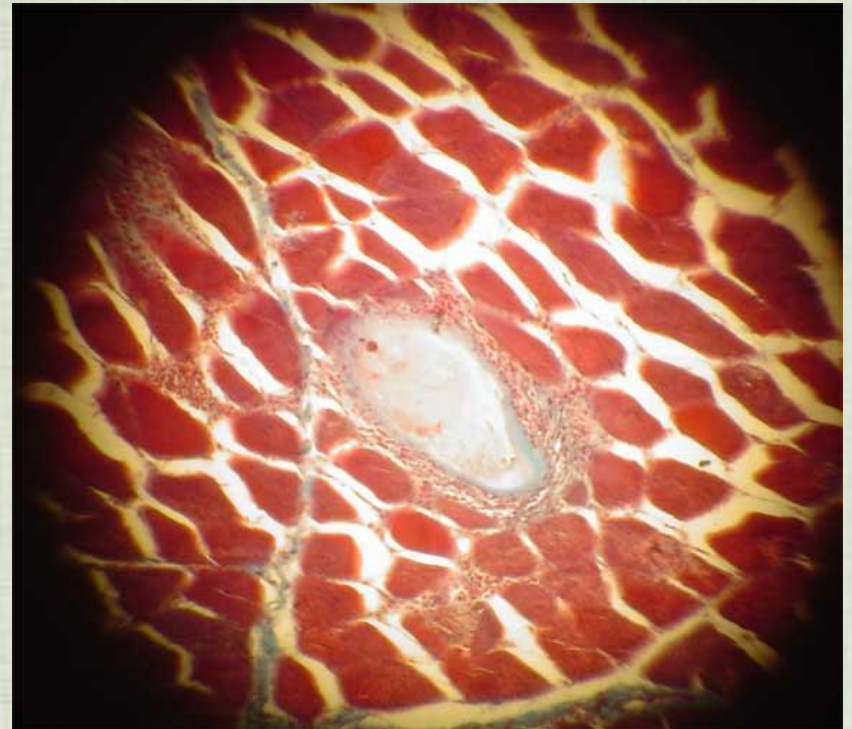

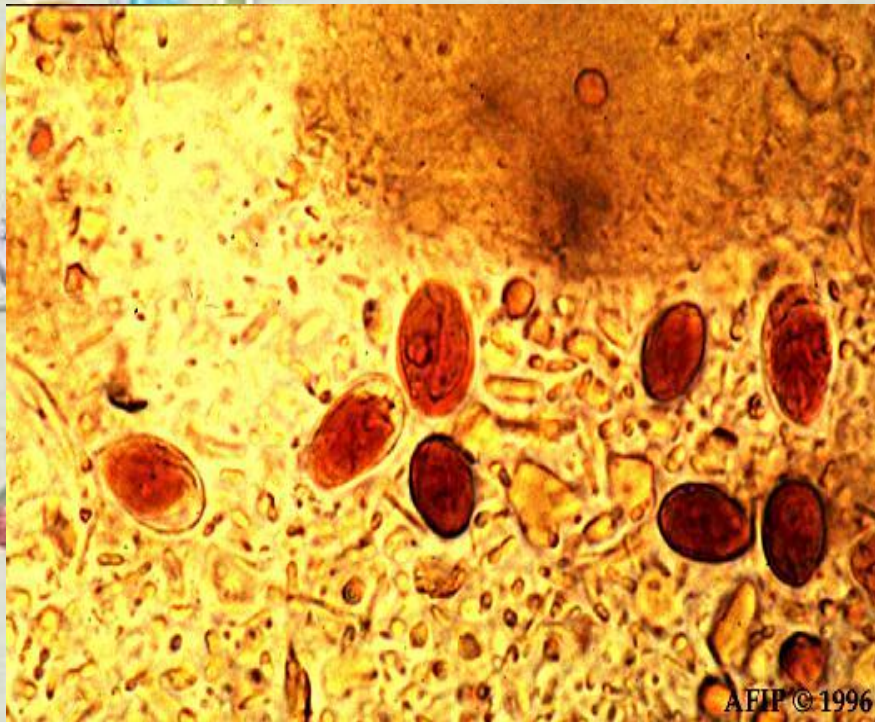

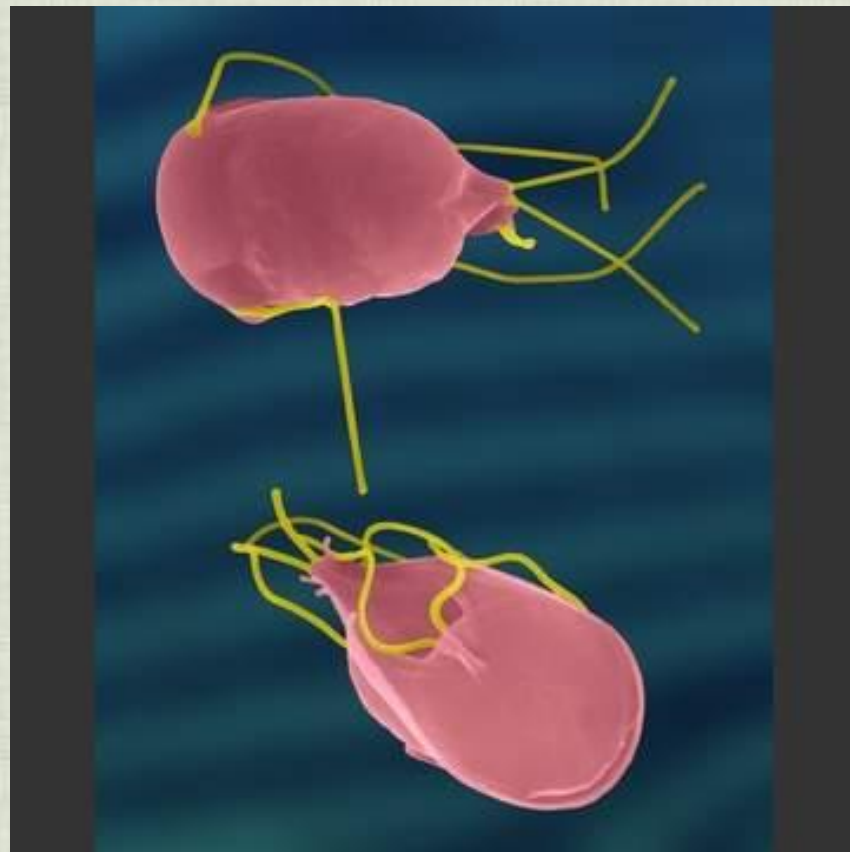

# Лямблии

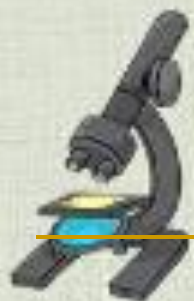

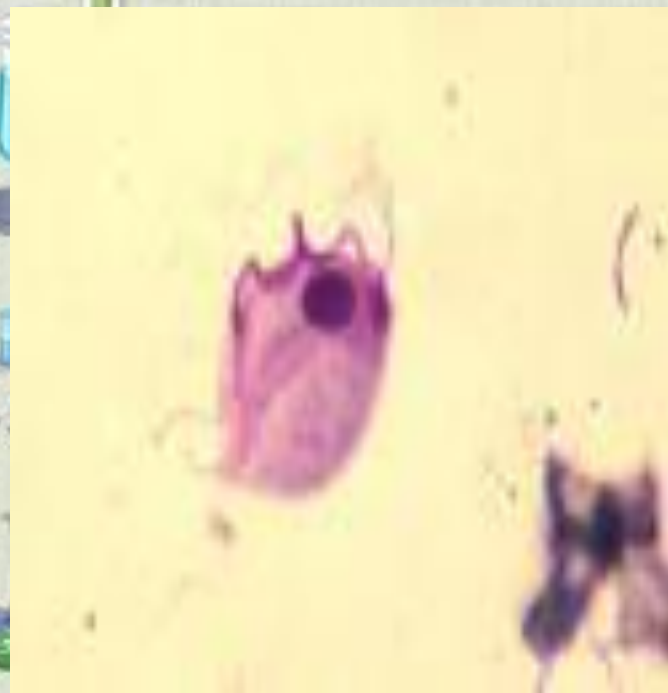

# Лямблии

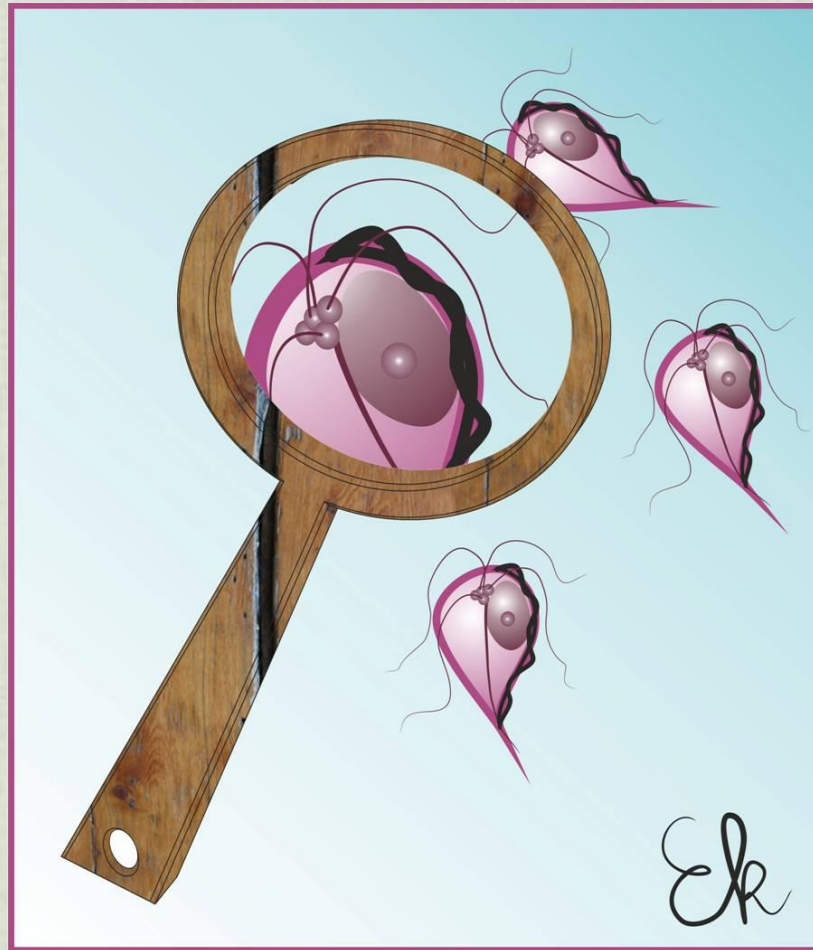

# Цисты и трофозоиты лямблии

# Трихомонада влагалищная

# Трихомонада

# Трихомонады

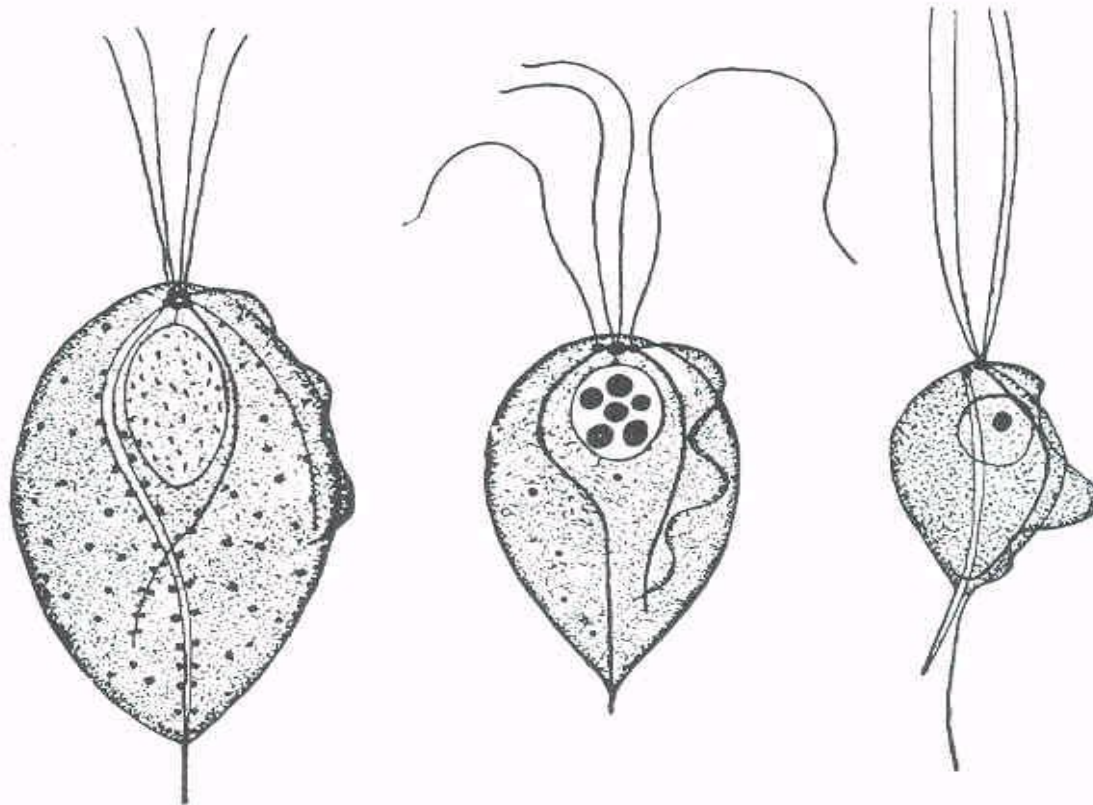

Fig. 19-12. *Trichomonas vaginalis*, *Trichomonas tenax* y *Trichomonas hominis*.  $\times 2.000$ . (Powell.)

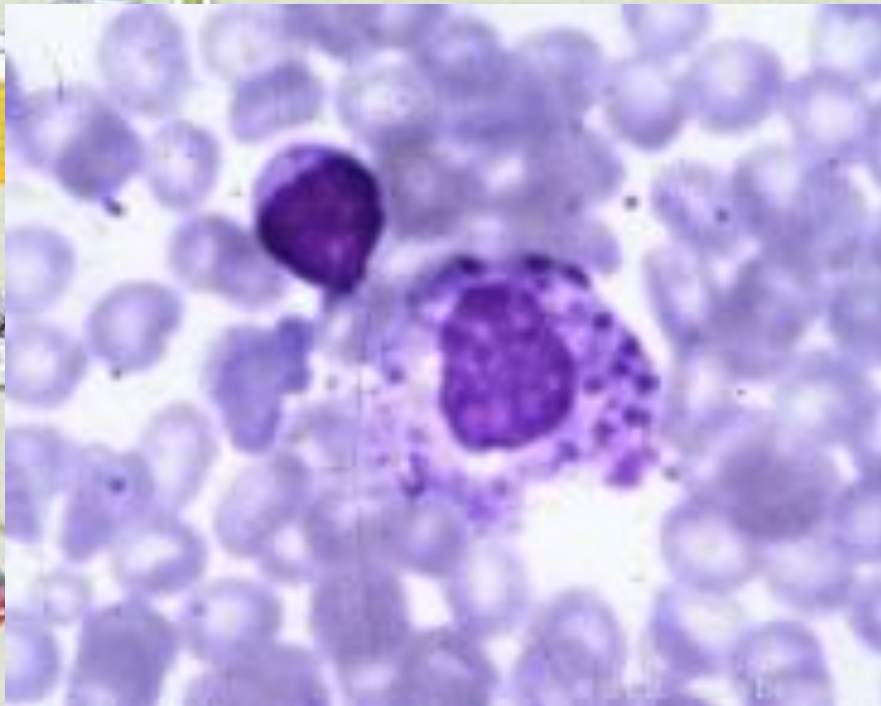

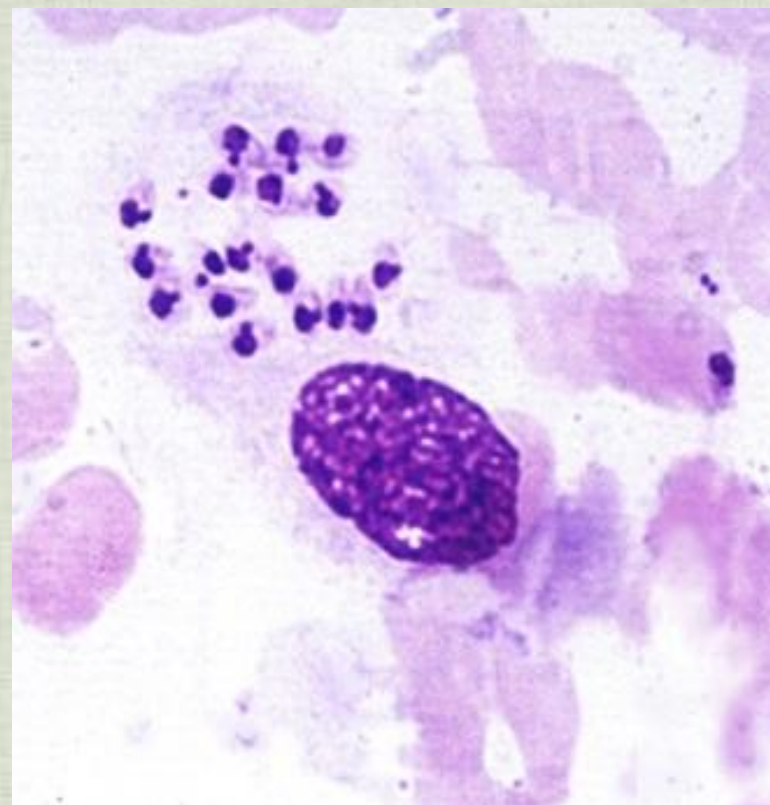

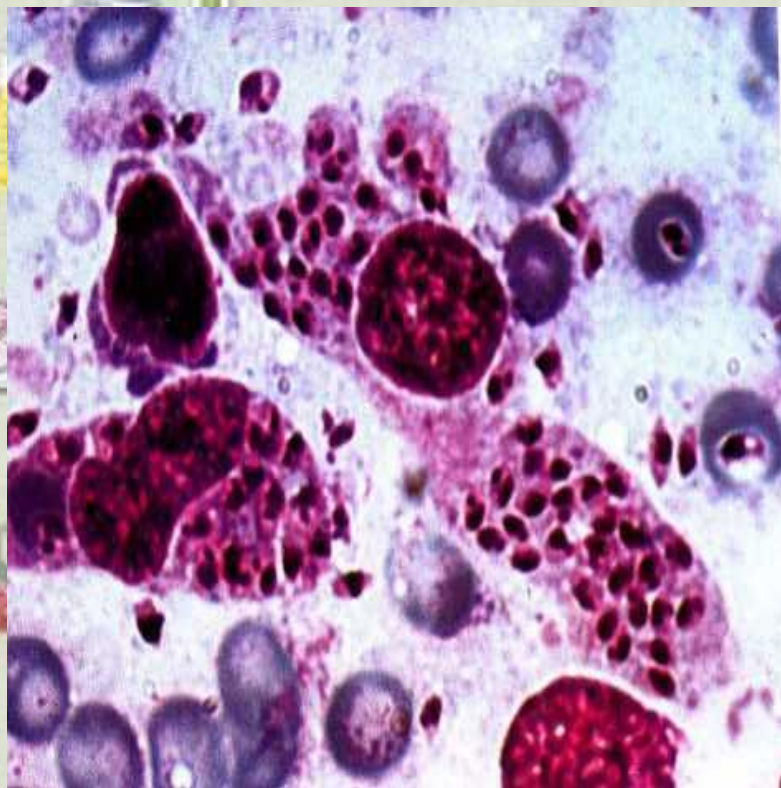

# Кожный лейшманиоз

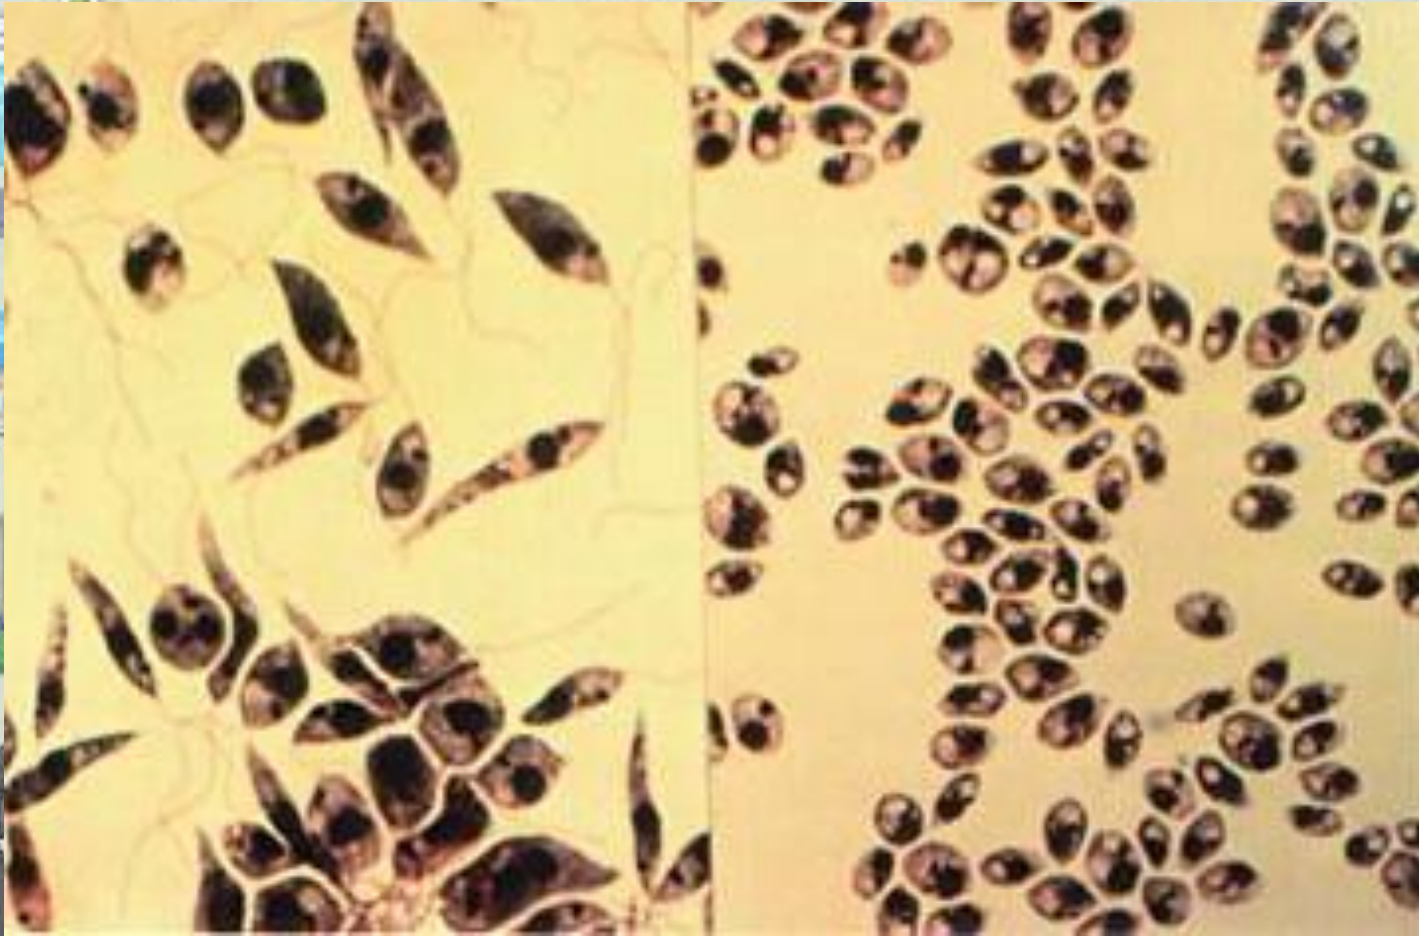

# Лейшмании

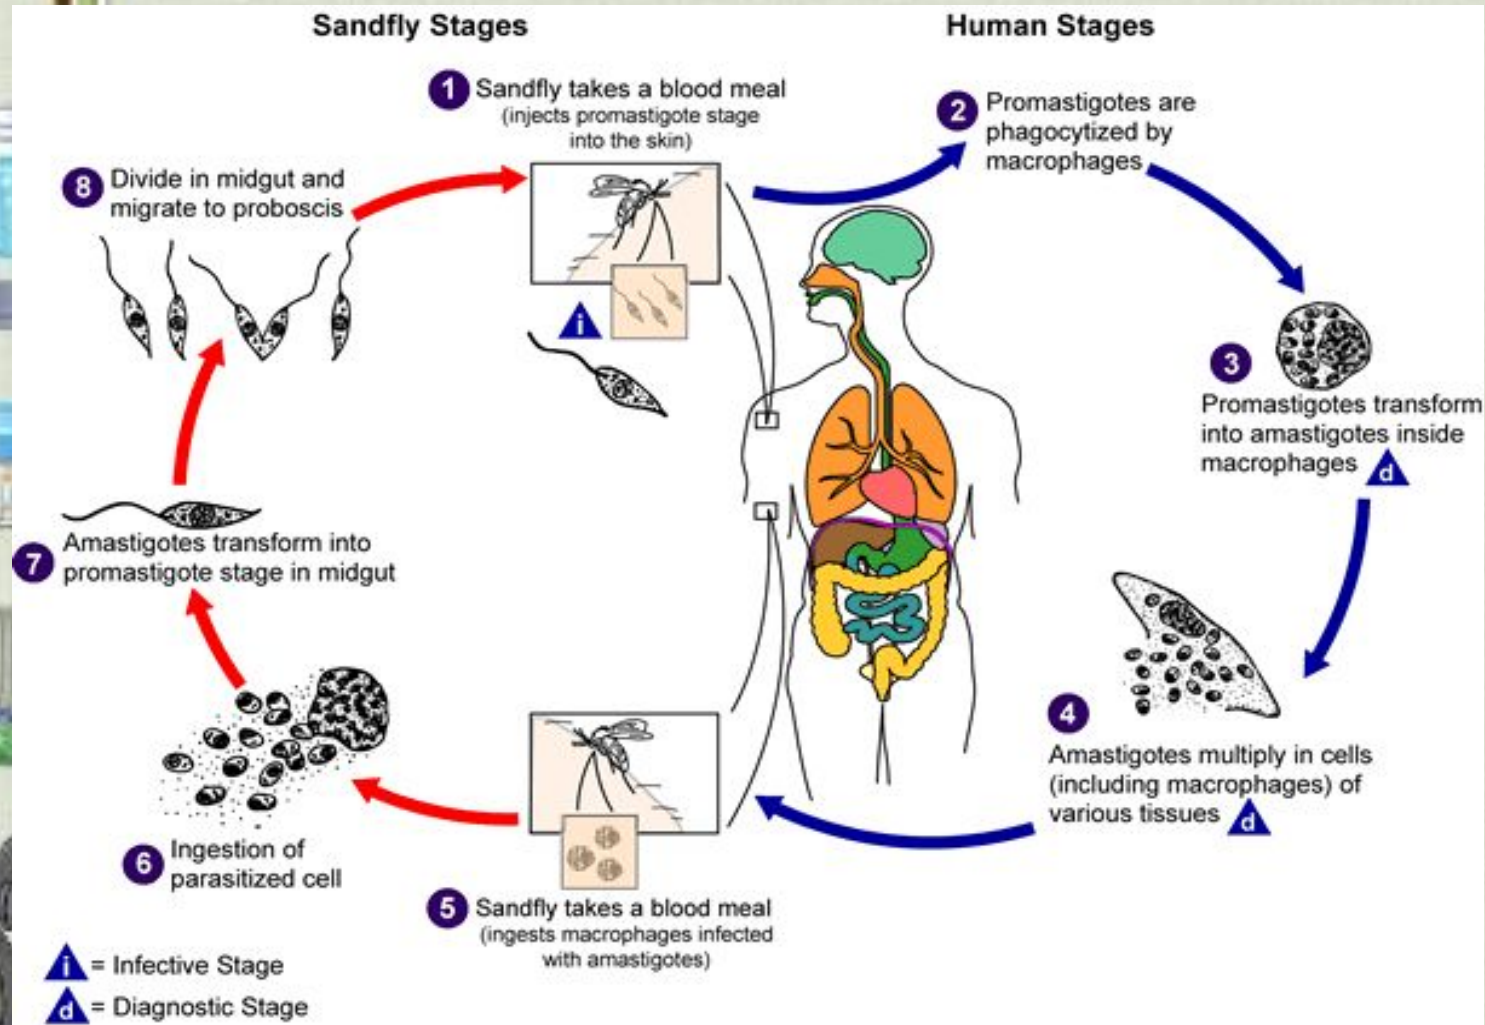

# Лейшмании

# Жгутиковые и безжгутиковые формы

# Цикл развития лейшмании

# Цикл развития мухи цеце

1) Paarung

4) Puppen: jung (hell), alt (dunkel)

2) Larviposition

5) Schlupf der adulten Fliege

3) Grabende Larve

6) Blutmahl

## Biologie der Tsetse-Fliege

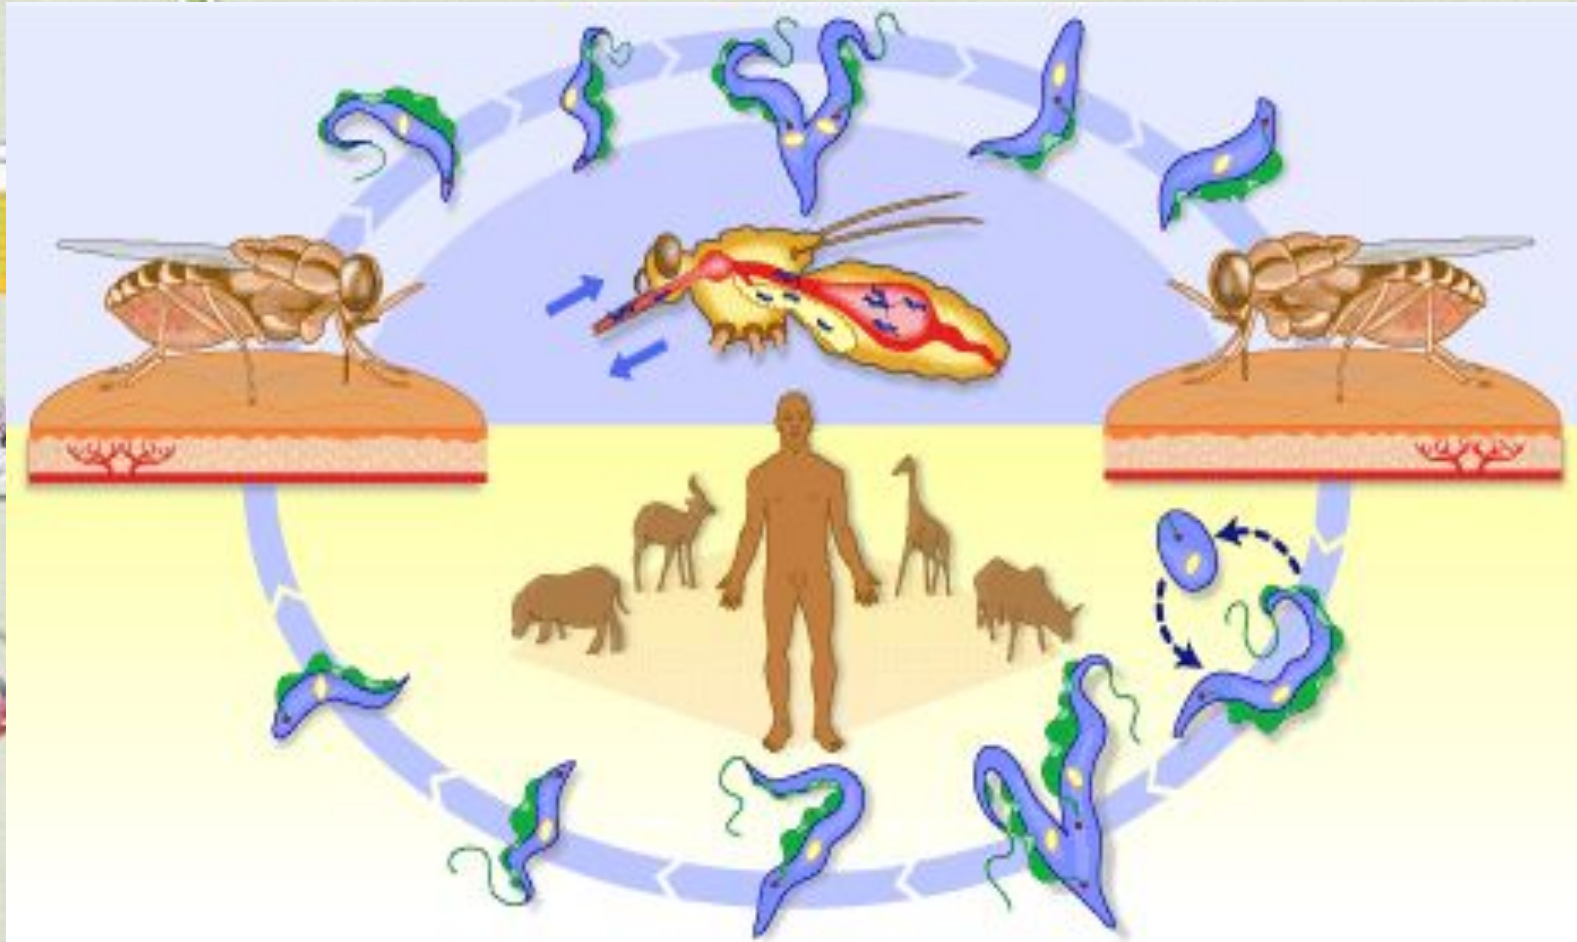

nach R. Brun

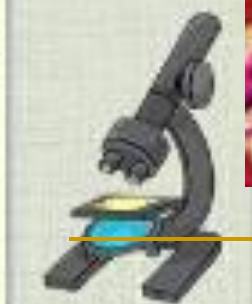

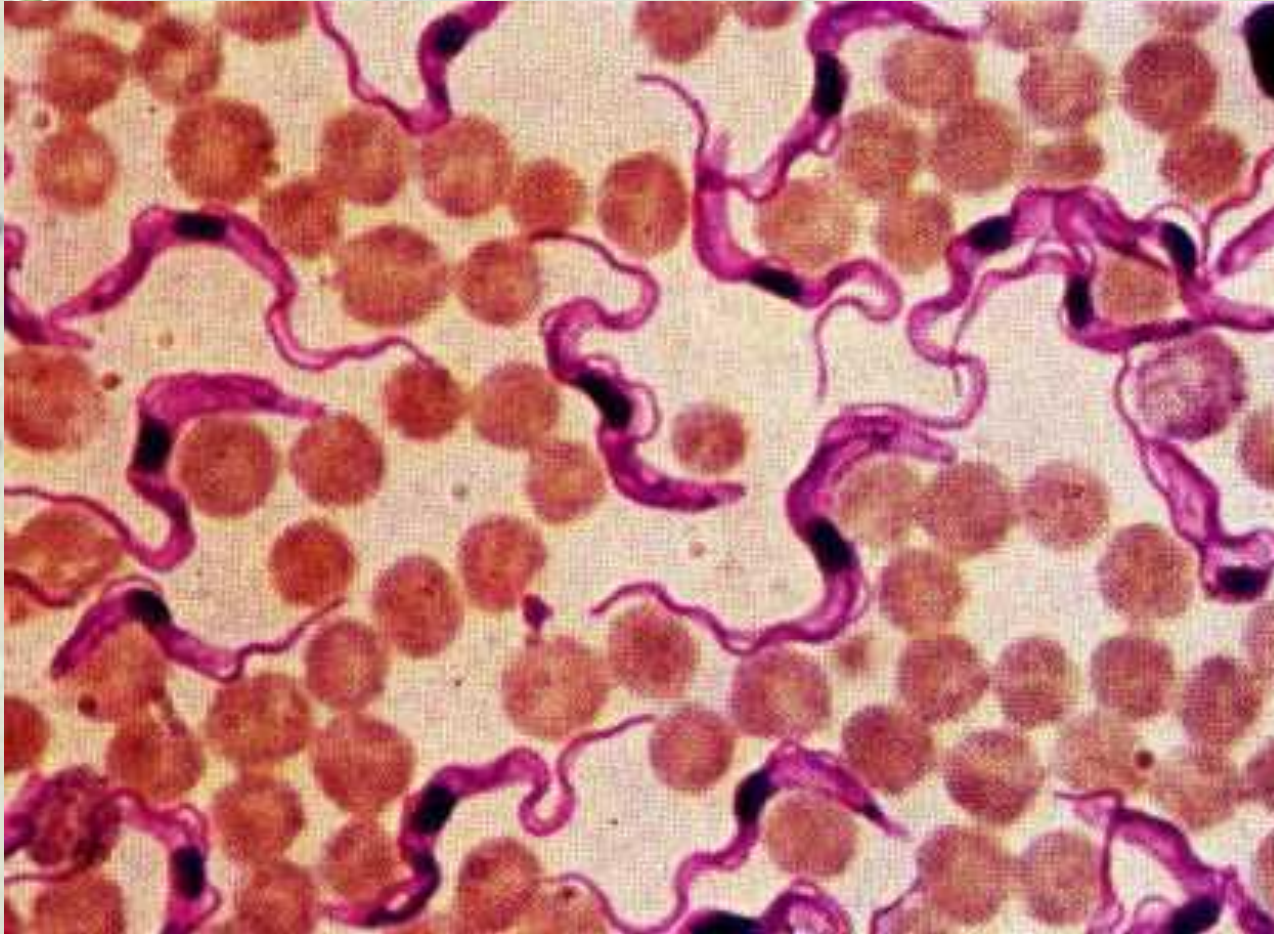

7) Verdauung des Blutmahls

# Цикл развития трипаносомы

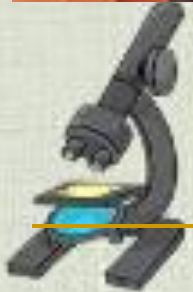

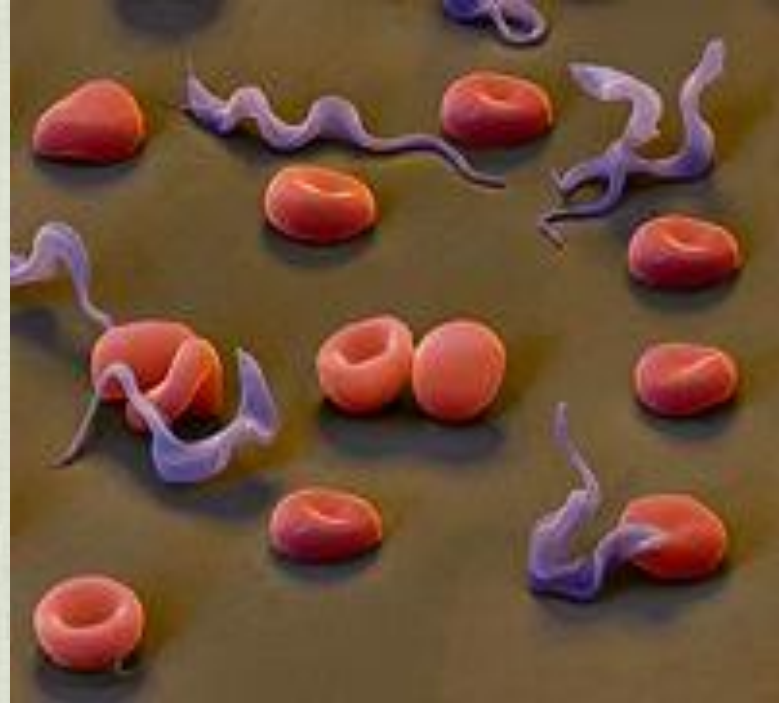

# Трипаносомы в мазке крови

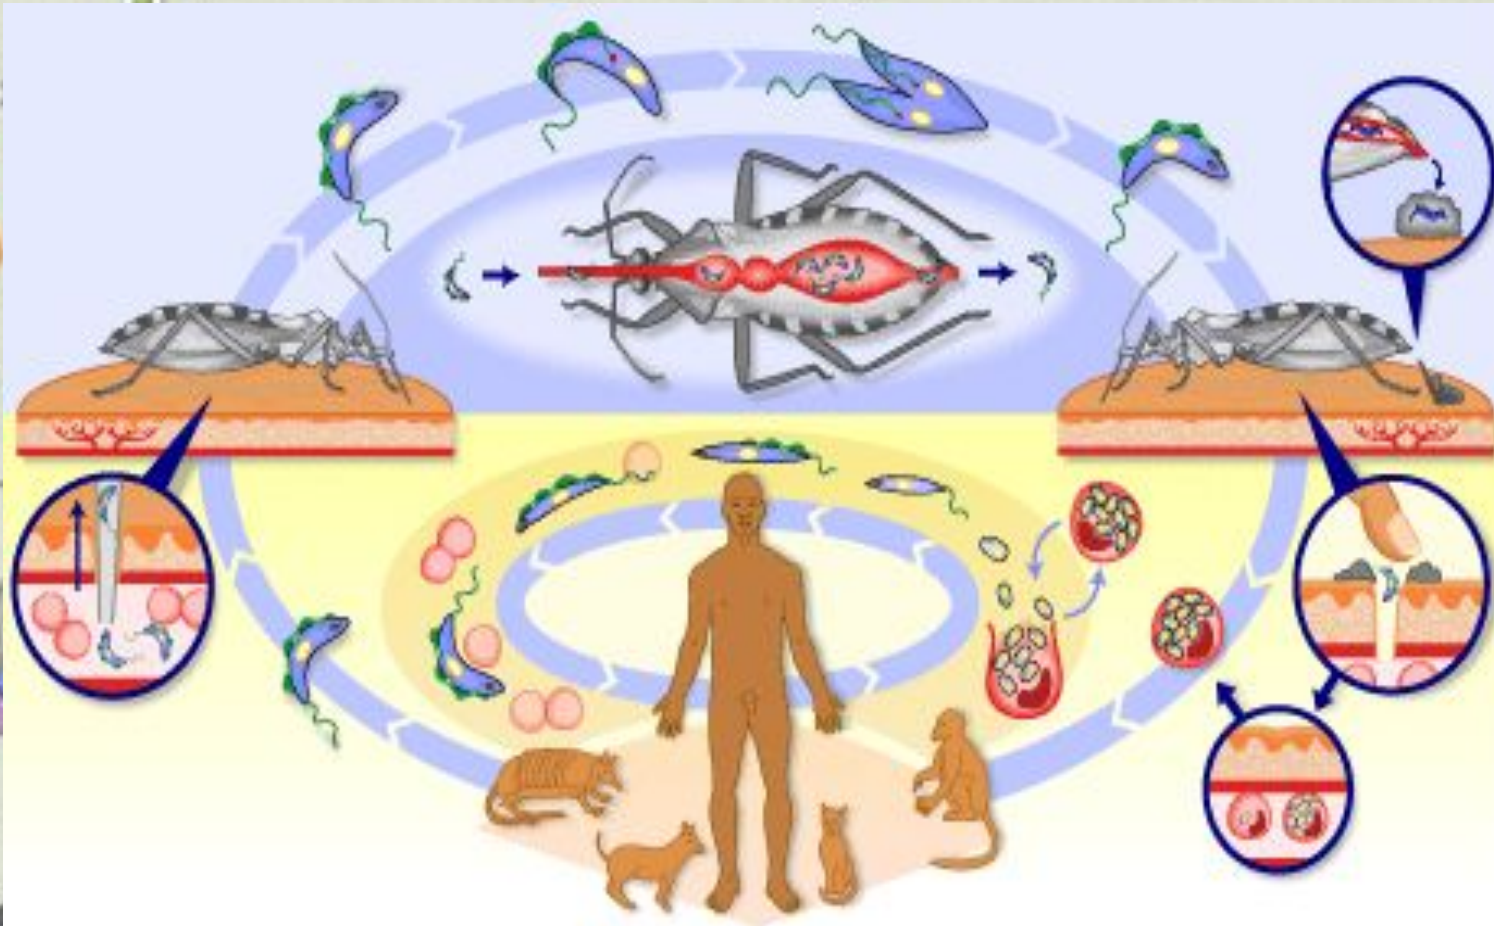

# Трипаносомы

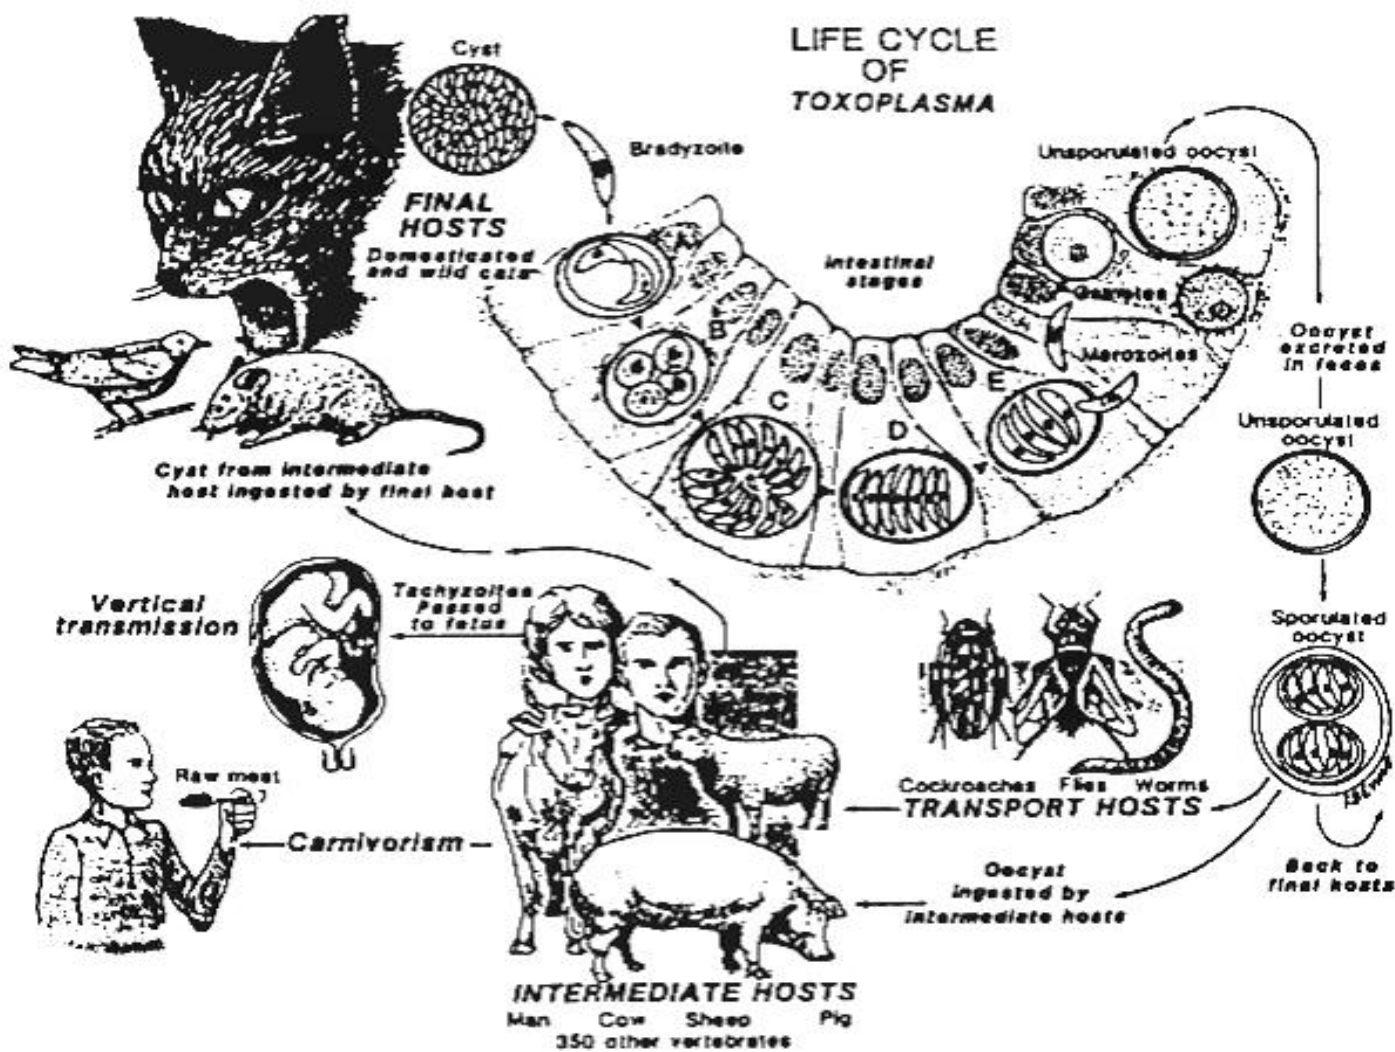

# Трипаносома крузи

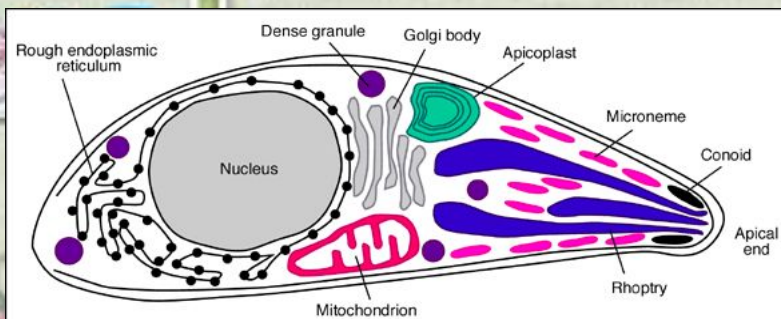

# Поцелуйный клоп

# Цикл развития токсоплазмы

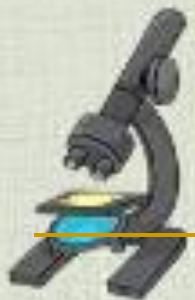

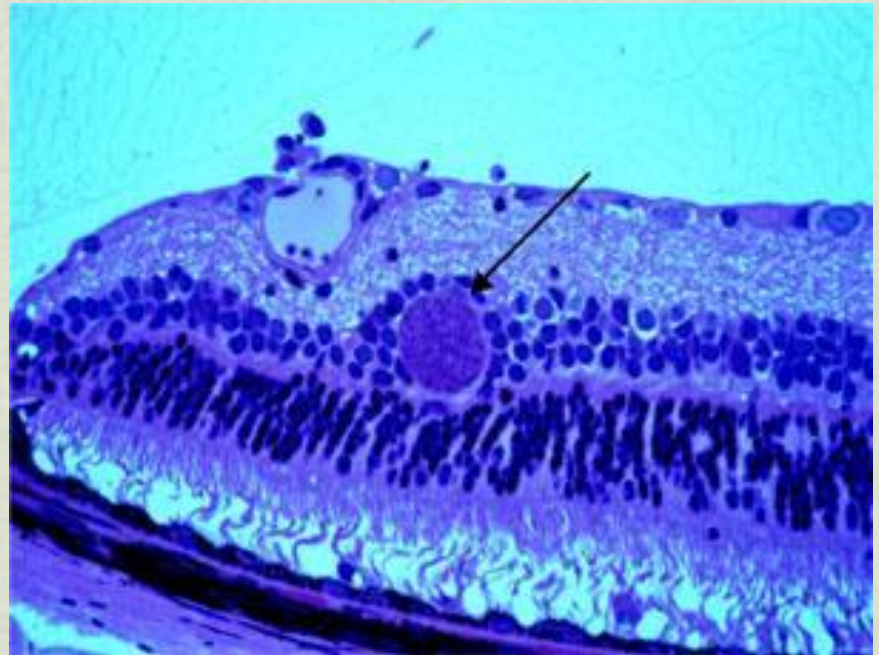

# Токсоплазма

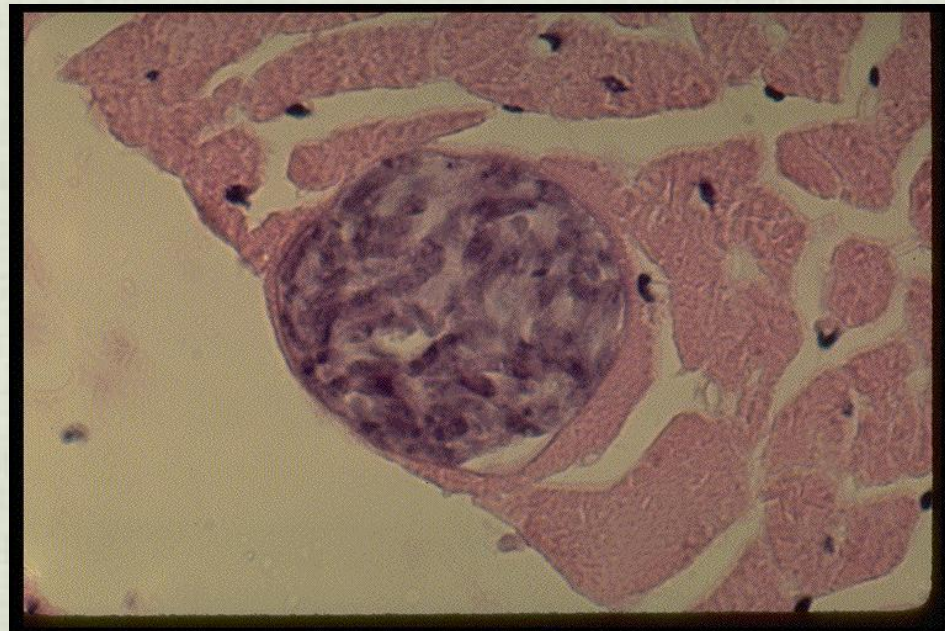

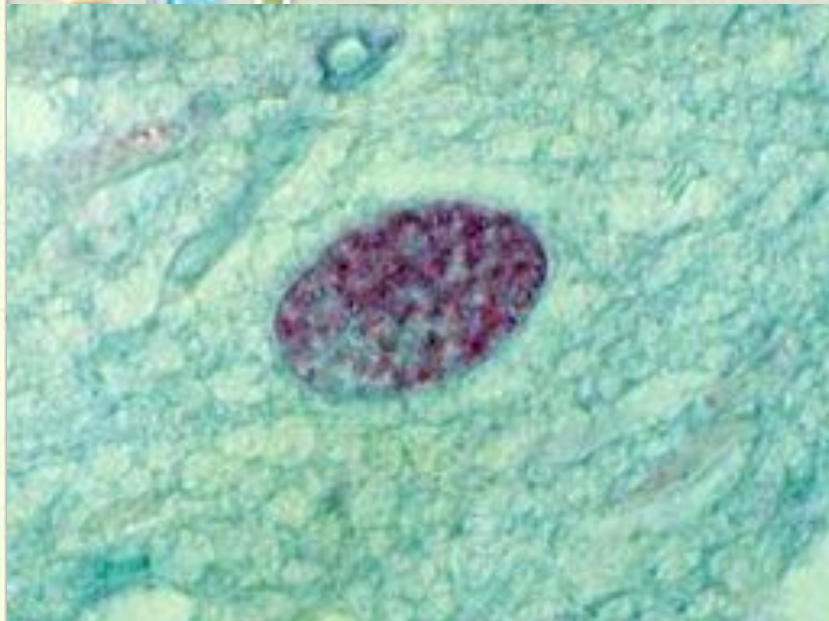

Ultrastructure of a *Toxoplasma gondii* tachyzoite

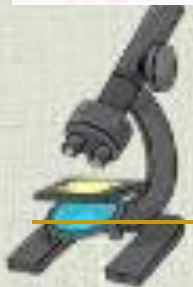

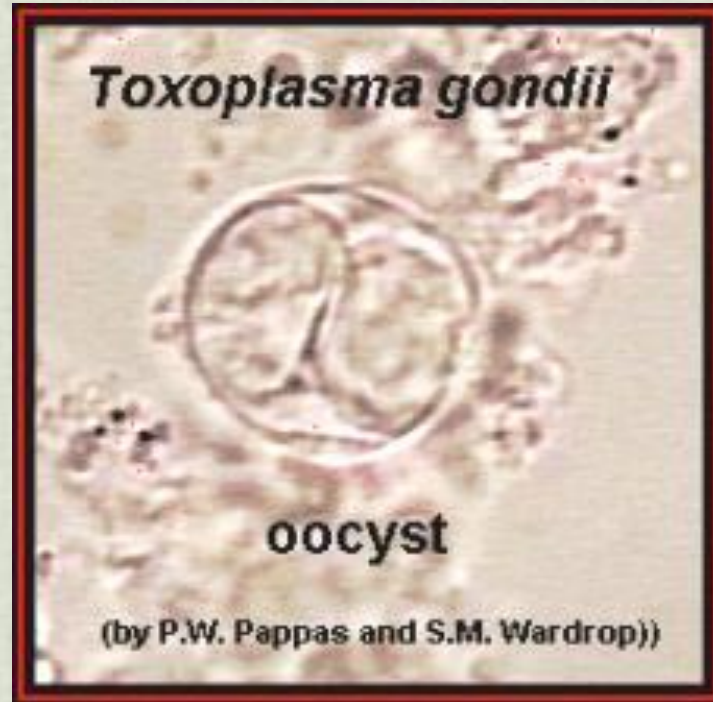

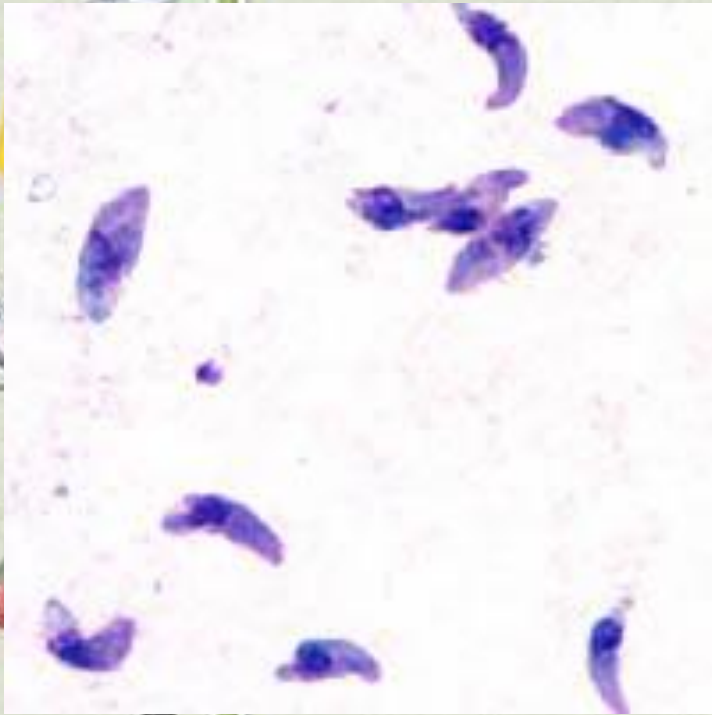

Expert Reviews in Molecular Medicine ©2001 Cambridge University Press
