DESCRIPTION

Greece: Holidays in Halkidiki is a bus tour to Greece from Minsk at an attractive price from the operator. The generally recognized pearl of northern Greece is, of course, the Halkidiki peninsula. The cleanest beaches, many of which have been awarded the EU blue flag - a kind of quality mark. Green pines descending to the azure waters of the sea. Secluded coves and crowded beaches. Modern tourist complexes and friendly family hotels. All this is Halkidiki. We live in the village. Hanioti is a large, very picturesque resort village, offering its guests wonderful conditions for recreation. Many hotels, various water sports, horseback riding, many taverns, bars and cafes. At the end of summer, a traditional folklore festival is held in Hanioti. As part of the tour, in your free time you can visit such excursions as: "Excursion-cruise to Holy Mount Athos", "Meteora", "Thessaloniki", "Kastoria". The cost of a bus tour to Greece includes two meals a day, travel, accommodation in a 3 * hotel. We are waiting for you with us!

TESTING

```java
@SpringBootTest
class CustomUserDetailsServiceTest {

    @MockBean
    private UserRepository userRepository;

    @Autowired
    private CustomUserDetailsService userDetailsService;

    private UserDetails userDetails;
    private User user;

    private final String USERNAME = "Admin";
    private final String PASSWORD = "admin";
    private final List<UserRole> ROLE = Arrays.asList(UserRole.ADMIN, UserRole.MODERATOR);

    @BeforeEach
    void setUp() {
        user = new User();
        user.setUsername(USERNAME);
        user.setPassword(PASSWORD);
        user.setRoles(ROLE);

        userDetails = org.springframework.security.core.userdetails.User.builder()
                .username(USERNAME)
                .password(PASSWORD)
                .authorities(ROLE)
                .build();
    }

    @Test
    void loadUserByUsername() {
        Mockito.when(userRepository.findByUsername(USERNAME)).thenReturn(Optional.of(user));
        UserDetails actual = userDetailsService.loadUserByUsername(USERNAME);
        assertEquals(userDetails, actual);
    }
}
```
