

At the Doctor's.

Our slogan today is
“Health is better than wealth”

Let's begin with the tongue twister

**A good doctor treats
both the patient and the disease.**

хирург
стоматолог
мануальный
оптик –
дерматолог
психолог
ортопед

a surgeon
a dentist
a chiropractor
an optician
a dermatologist
a psychologist
an orthopedic surgeon

-A car will arrive in 10 minutes.

I don't feel well

-What's the matter with you, sonny, where does it hurt?

-I don't feel well.

-Where is the pain?

-I've got a very bad headache and my nose is running.

-You have got a cold .Take a pill!

Have a cup of hot tea with honey and go to bed.

If you've got the flu	you should	stay in bed and keep warm
If you've got a cold	you shouldn't	drink hot milk with baking soda and honey
If you've got a cough	you must	go out
If you've got a burn	you have to	have X-ray
If you've got a cut		take tablets and drink much water
If you've got toothache		pull your tooth out
If you've got a sore throat		put a plaster on it
If you've cut your finger		put a bandage on it
If you've burnt your arm		put your finger under cold water
If you've broken your leg		drink hot herbal tea
If you've broken your arm		drink tea with raspberry jam
		eat onion and garlic

Imagine, you are a doctor. Match the problems to the advice. Begin like this:
 If you have burnt your arm, you should

Make up a dialogue “At the doctor’s”

First aid kit

to take temperature
to cut a bandage/a
plaster
to clean a wound
to make pain go away
to treat wounds
to stop bleeding
to extract a splinter

We use a thermometer

Imagine, you are going on a beach holiday. In pairs, decide which of the following you would pack in the first aid kit. Follow the example:

I think we need
to pack
tweezers.

I agree. We will
need tweezers to
extract a splinter

Crazy nuts

Will I get a sick note?

Medical phrases you might hear

Do you have an appointment?

Have you got a health insurance card?

Please take a seat in the waiting room

What seems to be the problem?

How can I help you today?

What are your symptoms?

Can you describe the pain?

Does it hurt? Does it hurt here?

Does it hurt when I press here? Does it hurt when I exert pressure here?

Let me listen to your chest / back (using stethoscope)

I'm going to take your blood pressure / temperature / pulse

I'm going to give you an injection

I'm going to examine you

I'll write you a prescription

I'm going to prescribe some antibiotics

Match the replies so that you can get the correct dialogue

-Would you like to come in?

-Thank you.

-That cough sounds really very bad. How long did you have it?

-For about two weeks.

-I think I should listen to your chest and to your lungs Take of your shirt! Breathe in deeply , that's right...and again, please, sit down! I'm going to take your blood pressure.

-Can I put my shirt on? It's rather cold here.

-Oh, certainly you can .Sorry about the cold. The central heating is broken.

-Now I want to take your pulse. Stand up, please, and touch your toes. Do you smoke?

-Yes, I do.

-You shouldn't smoke at all, I want to take your temperature. Take this medicine 3 times a day after meals.
