

# АППЛИКАЦИИ ИЗ ГЕОМЕТРИЧЕСКИХ ФИГУР

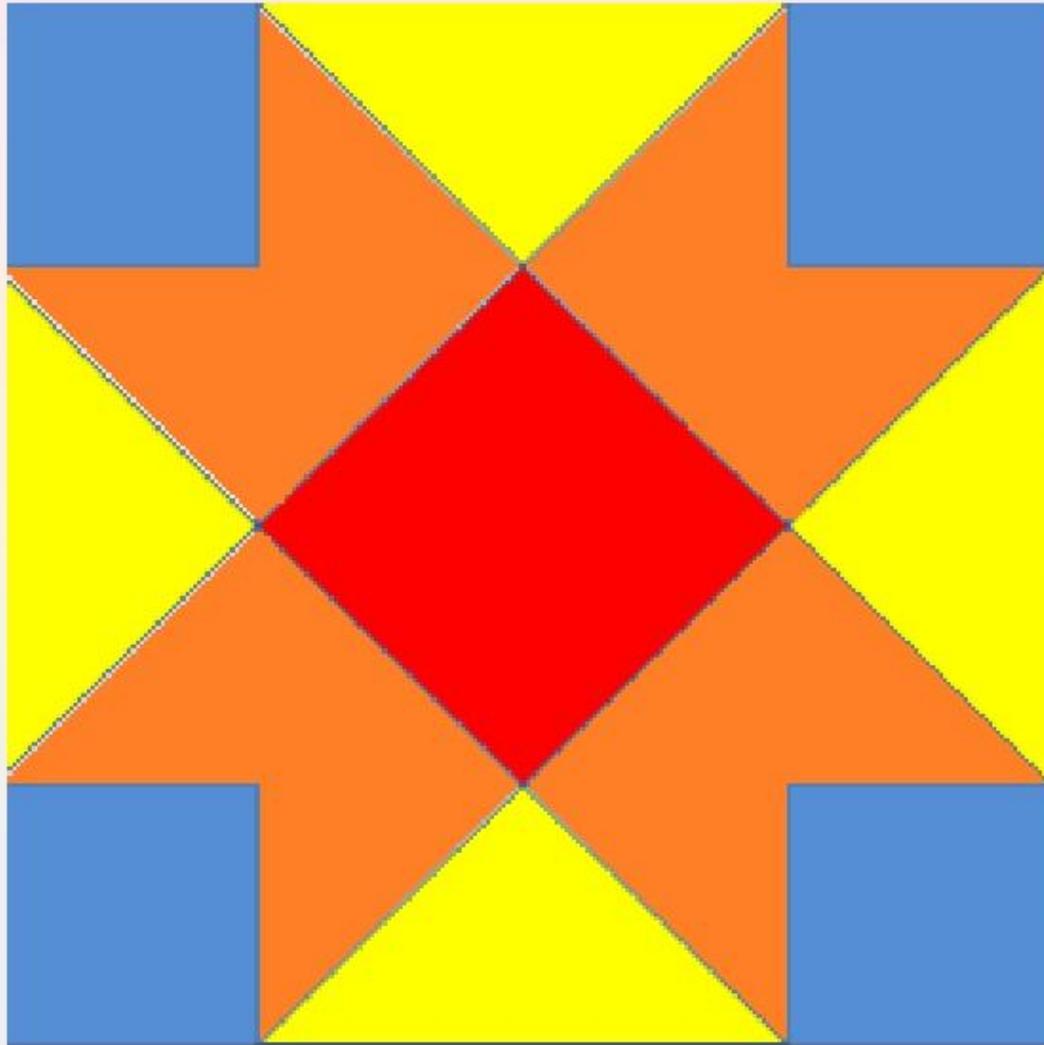

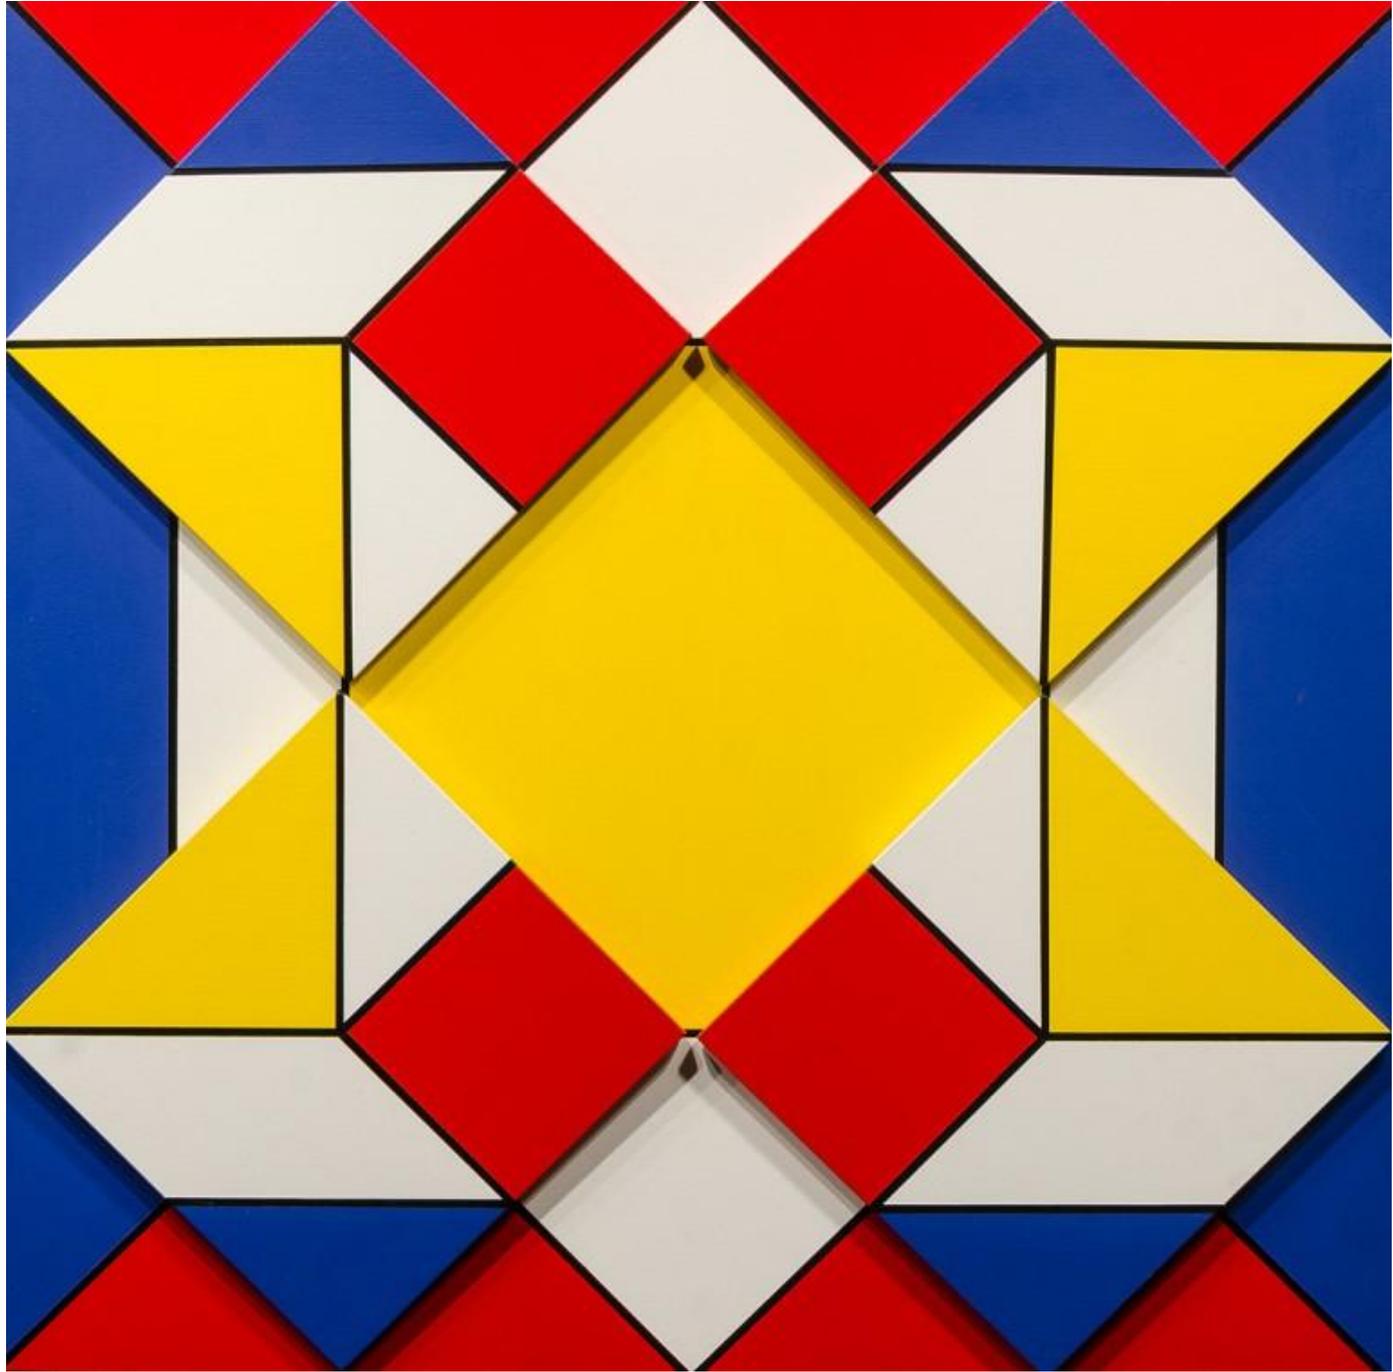

**Аппликация из  
геометрических фигур  
выполняются в двух  
основных техниках:**

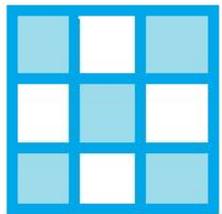

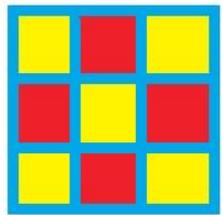

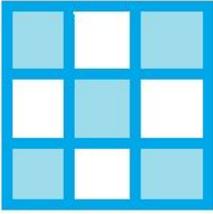

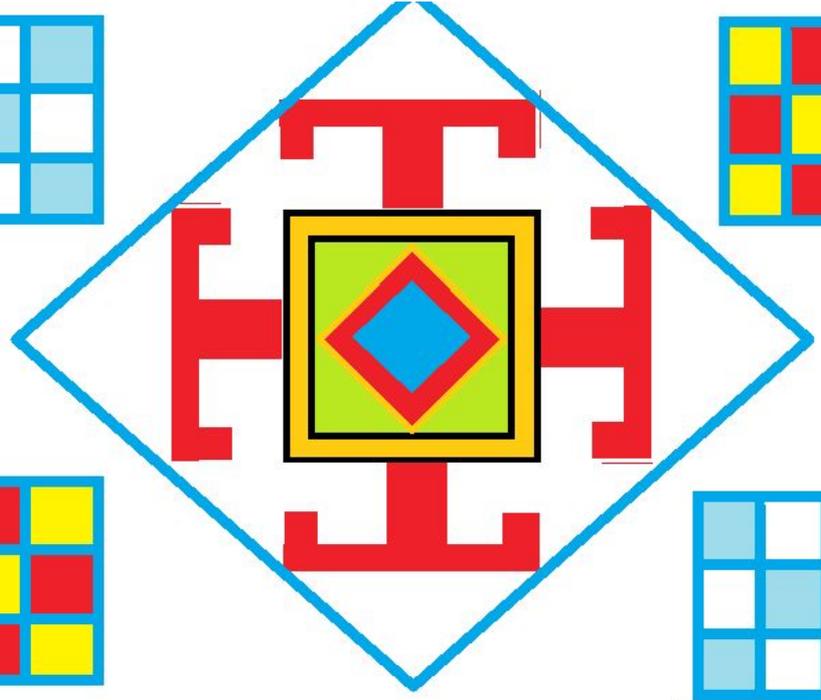

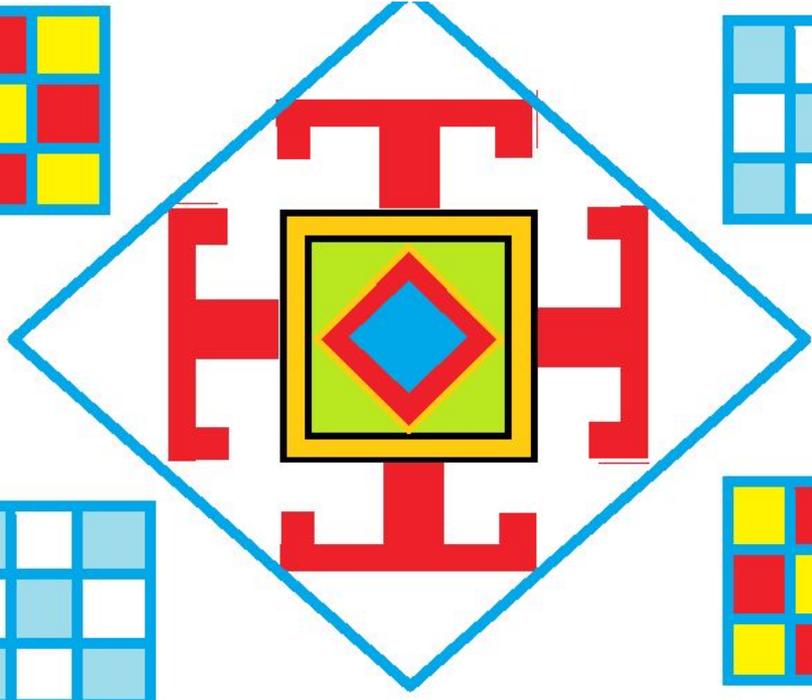

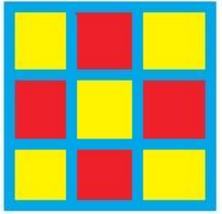

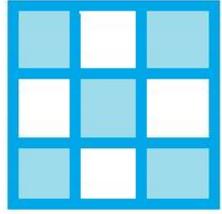

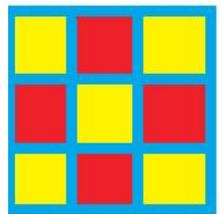

**1. Декорирование** представляет собой создание узоров и орнаментов из чередующихся в определённом порядке фигур.

ЛИЧНОСТИ

**Декоративная аппликация из  
геометрических фигур  
помогает запоминать формы,  
размеры и цвета. Также она  
развивает творческое и  
логическое мышление,  
фантазию.**

**Конструирование** — более  
сложный вариант  
геометрической аппликации,  
который заключается в  
составлении сложных предметов  
из простых форм.

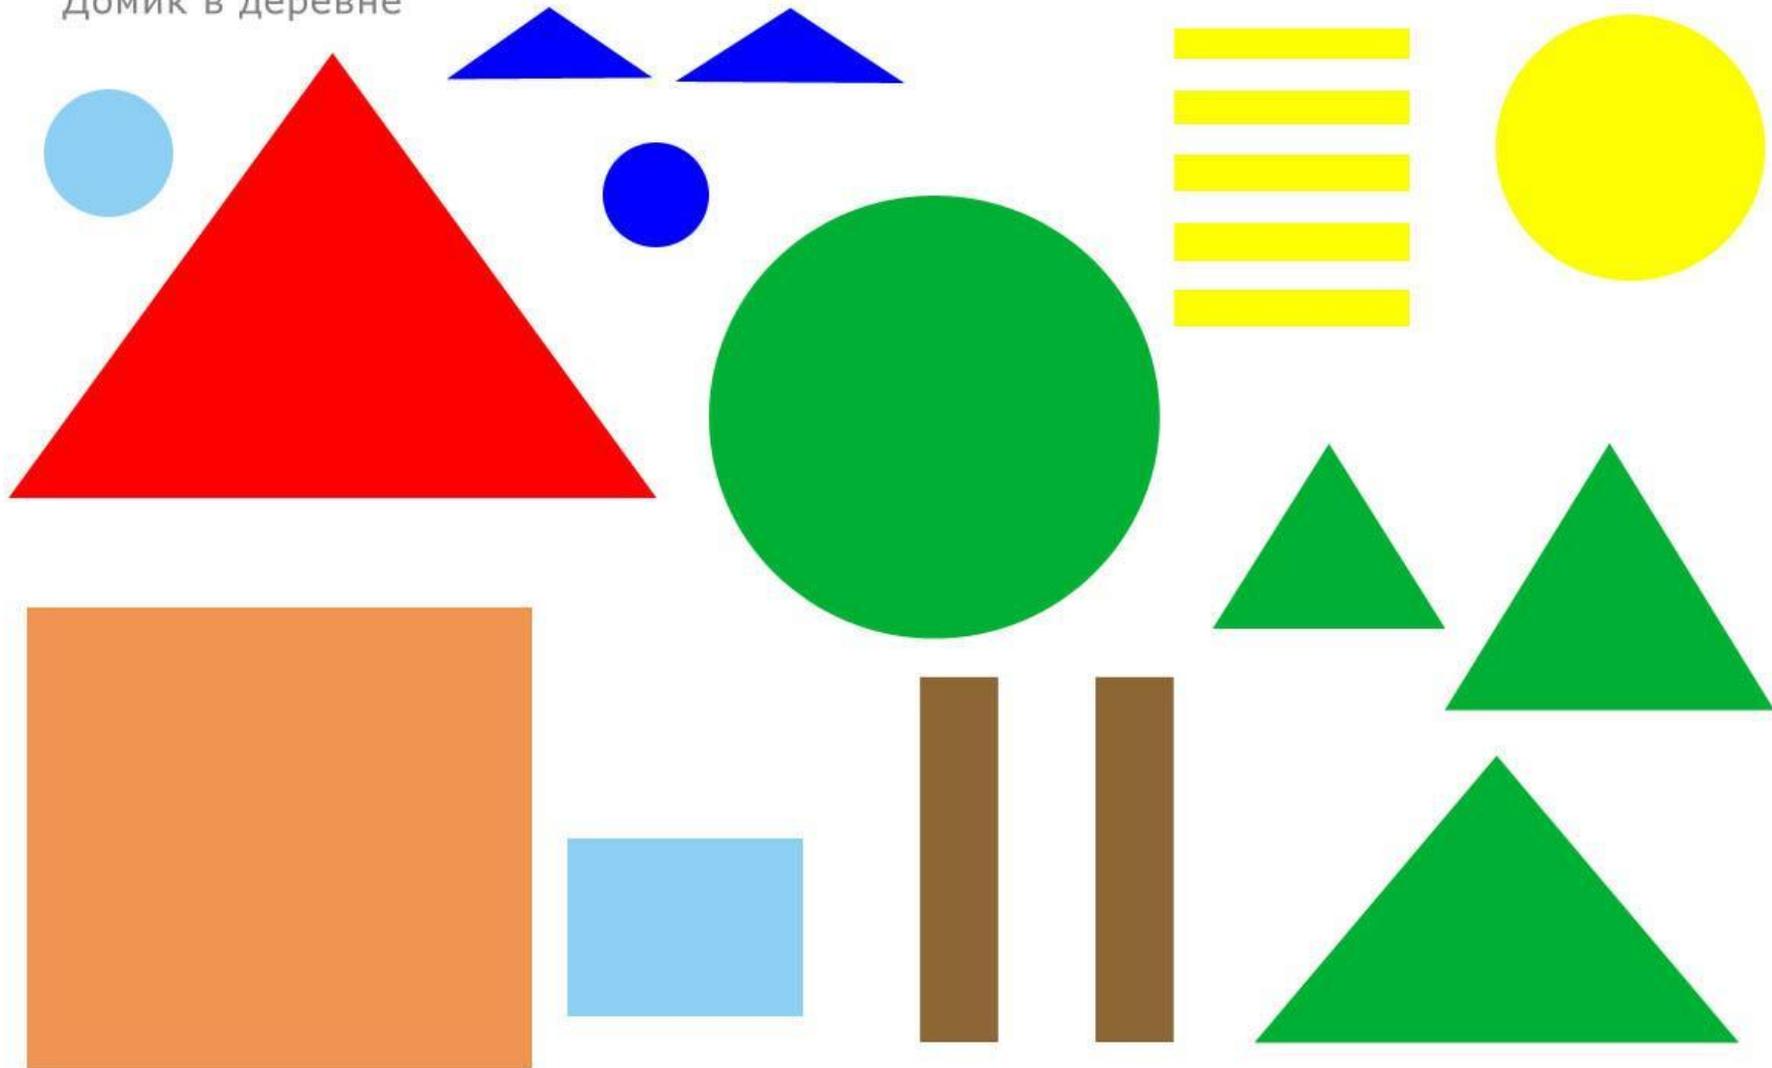

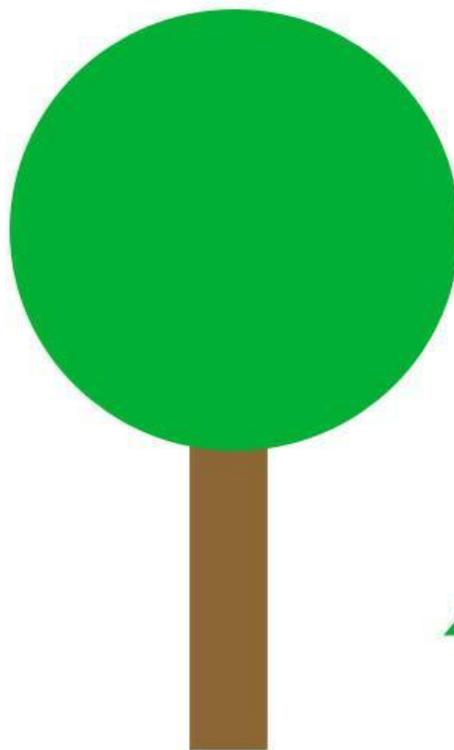

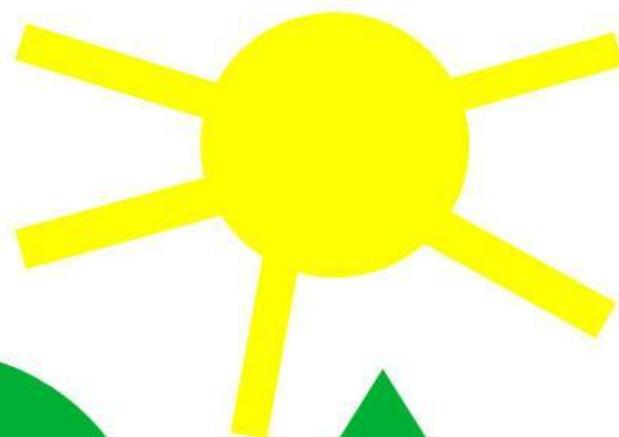

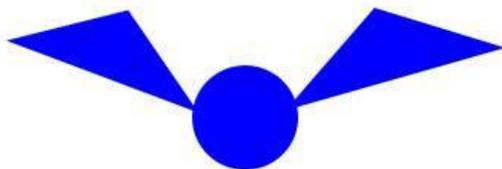

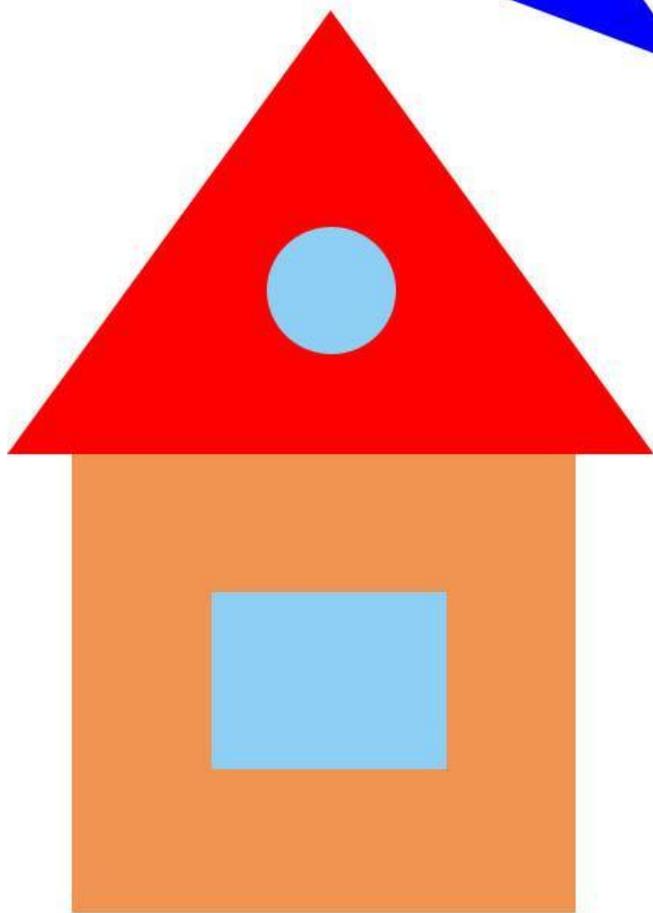

Плоскостное моделирование  
учит аналитическому  
мышлению, умению мысленно  
разбивать сложные предметы на  
простые части.

## **Заключение:**

**Выполнять детские аппликации из геометрических фигур можно из бумаги, самоклеющейся бумаги, картона, ткани. Детские аппликации из бумаги отличный способ познакомить ребенка с формой, цветом, размером, а также развить фантазию и пространственное ориентирование.**
