Summary

- ▶ *Who is "Distribution Systems"?*
- ▶ *Overview of Euronet Distribution System*
- ▶ *WebServices Overview*
- ▶ *Main interactions between us*
 - ▷ *Account management*
 - ▷ *Submission and follow-up of technical cases*

Who is "Distribution Systems"?

Who we are...

- ▶ Euronet and WebServices "Technical" teams of 6 people in RailEurope and a solution hosted by VSC-Technologies.
 - ▷ Head Office in Paris: Romain Ventanas (Distribution System Director), Marie Wackenheim (Project Manager), Emmanuelle Perrier (WS Coordinator), Flavie Chaboud (Project Manager), Pierre Lévêque (Euronet coordinator), Elissaveta Noveva (technical coordinator).
 - ▷ Mumbai Support Team, first level of support to GSAs: Kevin Chakre, Sandeep Kharat
 - ▷ VSC-Technologies Team: Euronet technical hosts & administrators

- ▶ *3 tools*
 - ▷ Euronet: THE application that allows you to sell !
 - ▷ Billing Center: Where you'll find all necessary reports
 - ▷ myRailEurope: GSA portal

Who is "Distribution Systems"?

Our missions

- ▶ *Manage the production, every day*
 - ▷ Production Support
 - ▷ Login creation, technical requests follow-up, technical support
 - ▷ Front & Back Office Administration
 - ▷ Euronet 2 Platform's availability
 - ▷ Euronet 2 is available 7 days a week, 24h/24
 - ▷ Information on upgrades, downtimes... via the "System News" or "Bulletin Board"

- ▶ *Constantly improve our Distribution Tools*
 - ▷ Adapt to & support products and channels necessary evolutions
 - ▷ Examples: new products (ATOC, Renfe, etc.), new functions (P@H, Multi-Ticketing...)
 - ▷ Always take into account the carriers and GSAs feedbacks
 - ▷ Examples: implementation of exchange fees, quick links, myRailEurope, etc.
 - ▷ 3-5 Versions per year + constant improvements to better serve you

Overview of Euronet Distribution System

An unrivalled distribution system

- ▶ *Euronet supports various channels, to suit all needs*
 - ▷ Desktop Application
 - ▷ Web Services
 - ▷ Rail Engine

- ▶ *Euronet sources the products from various origins*
 - ▷ The Euronet inventory stores Passes & Open Tickets
 - ▷ Eurail Passes, "National Passes", European Open Tickets, etc.
 - ▷ The SNCF system gives access to French and international tickets & reservations
 - ▷ TGVs, Teoz, Lunea, Eurostar, Lyria, Thalys, Artesia, France-Germany HS...
 - ▷ Direct Connexions allow the sale of tickets & reservations on other major carriers
 - ▷ Renfe, ATOC, DB, NTV, VIA Rail & Trenitalia next year.
 - ▷ Connexions through Hermes, the International Exchange Platform, allows access to tickets & reservations on other major international trains
 - ▷ Trenitalia trains, City Night Line, Reservations on ICE and Swiss Scenic trains, etc.
 - ▷ Passes, tickets & reservations for Non-European trains are in the NERO inventory

WebServices Overview

WebServices : The online translation of Euronet

- **Integration:** your website accesses the Euronet server application via WebServices
- **Unique one-stop shop:** comprehensive online solution, best in the business
- WS are based on a XML or SOAP structure

WebServices Overview

Usage

- Search for Products (point to point/ rail passes)
availability and pricing
- Create Bookings
- Confirm Bookings
- Retrieve Booking Information

WebServices Overview

Limitation

- Collect the payment
 - Solution: take offline payments or implement a payment gateway on your website
- Print bookings
 - For E2Paper tickets only
 - Solution: Use the Euronet Desktop Application
- Aftersales
 - Solution: Use the online portal MyRailEurope and the Euronet Desktop Application

WebServices Overview

- 3 solutions
 - Pure Webservices
 - Solution fully integrated on your website
 - Highly customizable
 - Strong IT team and good products knowledge required
 - At least 1 update per year
 - Rail Engine
 - Plug-and-play framework
 - Solution integrated on your website
 - Look and feel only are customizable
 - Good IT team required
 - At least 1 update per year
 - Rail Engine Portal
 - Hosted by Rail Europe
 - External page from your website
 - No IT requirement
 - Logo and colors only are customizable
 - No update

WebServices Overview

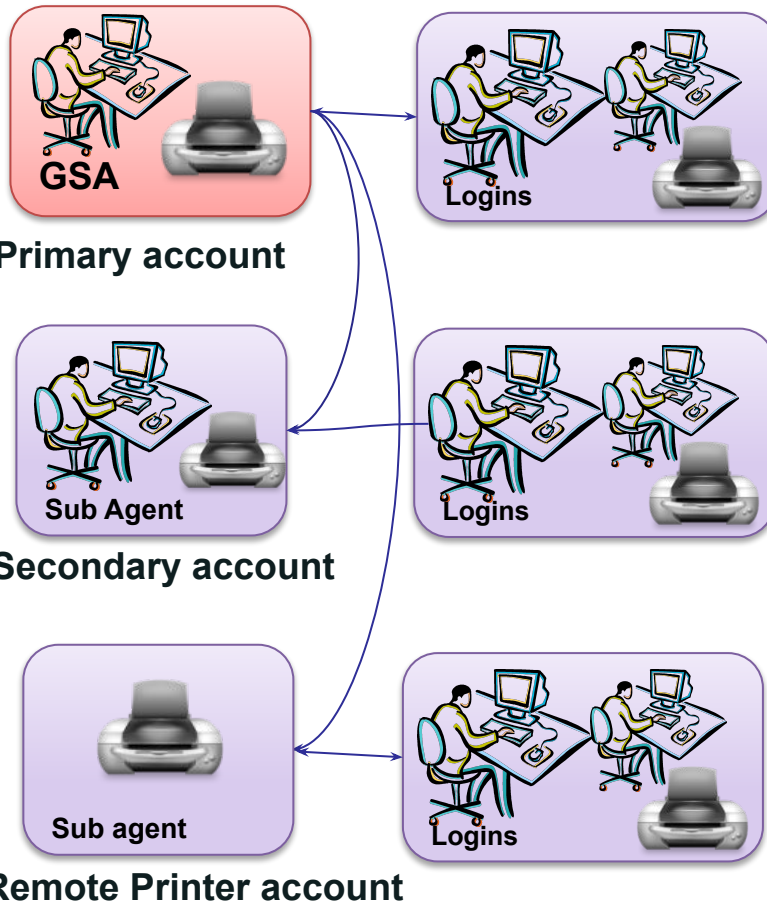

- The best solution is determined according to GSAs' revenue and IT staff
- To start a project
 - You need to liaise with our Sales department
 - One project manager is necessary on GSA's side
 - Starting date depends on Rail Europe Project team availability

- ▶ *Who is "Distribution Systems"?*
- ▶ *Overview of Euronet Distribution System*
- ▶ *WebServices Overview*
- ▶ *Main interactions between us*
 - ▷ *Account management*
 - ▷ *Submission and follow-up of technical cases*

Main interactions between us

Types of Accounts

- **Primary account**
A primary account must have a GSA contract with RE4A. Primary accounts can book and print Euronet tickets.
- **Secondary account**
A secondary account can book and print Euronet tickets, but sales and ticket stock must be reported to its Primary account.
- **Remote Printer**
A remote printer can only print Euronet tickets. Sales and ticket stock must be reported to its Primary account
- **Additional Logins**
For each creation of account (Primary, Secondary or Remote) you have automatically one login. Euronet allows to create several logins for only one account.

Main interactions between us

Account creation requests & Euronet installation

- You have to submit ALL secondary account and logins creation requests through myRailEurope portal.
