

Fashion of the United States of America in the 80s

American fashion of the 80's is not like any fashion that preceded it – and in many ways, none of the styles that follow it has anything like it. It was a decade filled with bright colors, hairstyles, tight and loose clothing, and colorful accessories.

Warm tracksuit

Technically, this is equipment for sports, but no one has ever worn such tracksuits for going to the gym, because they were warm, stuffy, and uncomfortable

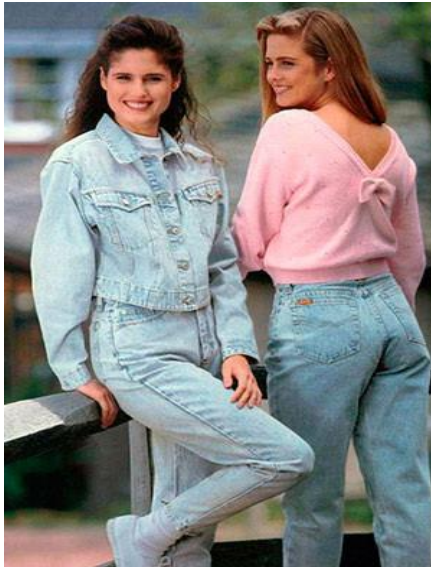

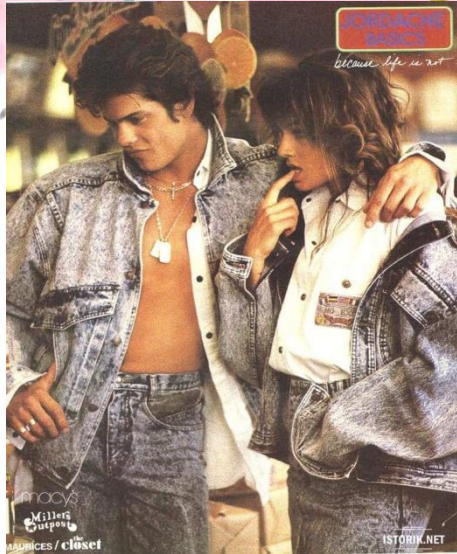

Clothing with shoulder pads

Women wore coats, raincoats, suits, shirts, blouses with shoulder pads, which turned graceful female and girlish figures into broad-shouldered powerful men's figures. And it was considered very attractive

Faded denim jeans

The 1980s was the era of acidic clothing, with fashionable guys of both sexes boiled down with bleach and wearing all the denim at once that was present in the wardrobe-shirts, pants, shorts, jackets

Neon colors

The colorful women's costumes looked like neon signs that could be seen from afar.

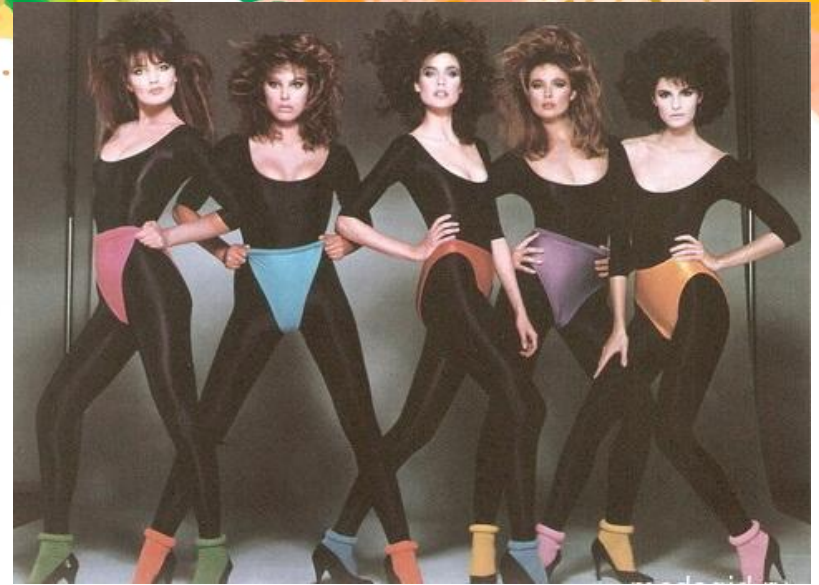

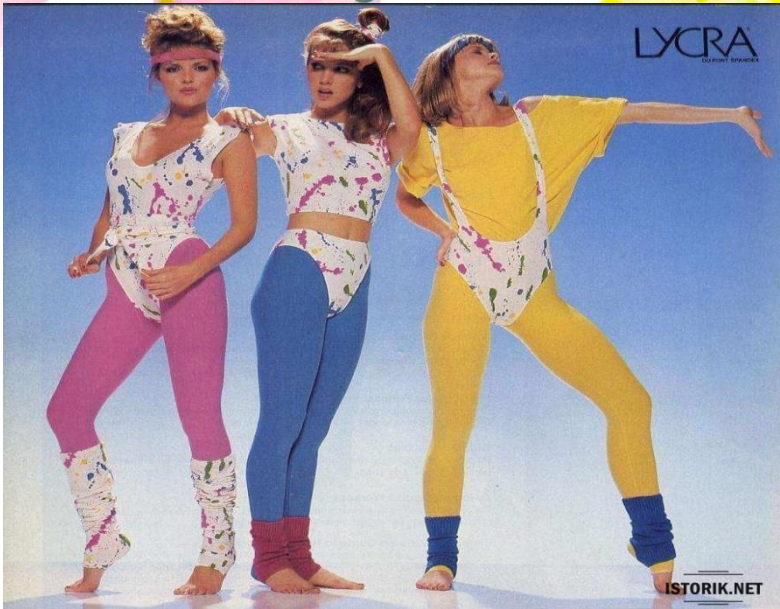

Bag on the belt

Young Americans of the eighties wore bags on their belts mostly for beauty, gloss, and trinkets. "Fanny pack" - the teenagers called this item, that is "fun bag".

Spandex

The popularity of polyurethane fibers was born thanks to the male stars of rock and roll and metal music of the 1970s. a decade Later, elastic spandex clothing was worn by all young women in America.

Dance wear

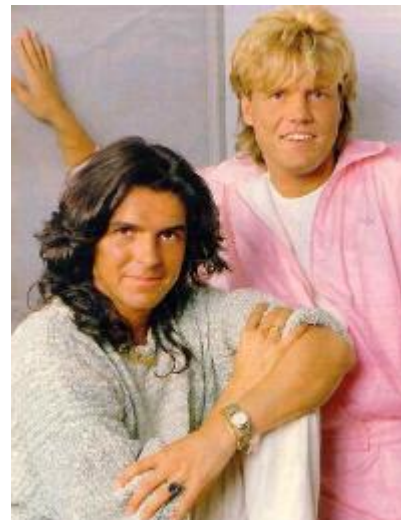

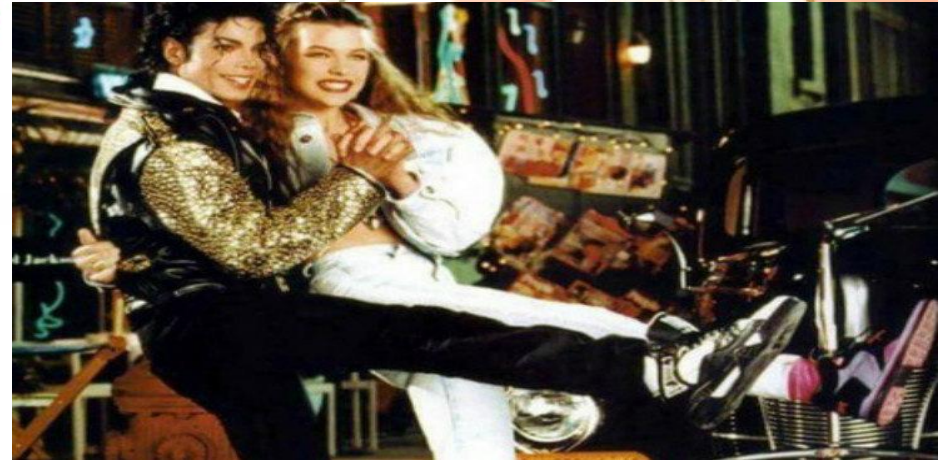

You don't have to be able to dance to get off on the dance floor of a night club. Regardless of whether you were a great dancer or not, you had to dress in accordance with the fashion that made the world famous musical dramas "Dirty dancing" and "flash Dance".

And in conclusion I want to say:

Idols of the generation - Madonna and Modern Talking, Michael Jackson... to immerse yourself in the fashion of the 80's with your head, just look at their photos or video clips. A party in the style of the 80's promises to be truly colorful and diverse! The mass style of the 1980s can be expressed in one word: "too" - too tight, too Frank, too bright. But isn't that the beauty of that time?
