**Years**

Years are normally divided into two parts.

**1984***nineteen eighty-four***1066** *ten sixty-six***1652** *sixteen fifty-two***1941** *nineteen forty-one***2017** *twenty seventeen*

When a year ends in a number between 01 and 09, then that last part is pronounced as the name of the letter O + number.

**1709** *seventeen O nine***1901** *nineteen O one*

When a year ends in 00 (e.g. 1600), then the year is said as the digits before 00, and then hundred.

**1300** *thirteen hundred***1800** *eighteen hundred***2000 - 2010**

For the year **2000** you say (the year) **two thousand**.

For the years 2001 to 2010, we normally say **two thousand and + number**.

**2001** *two thousand and one***2005** *two thousand and five***2008** *two thousand and eight***After 2010**

For the first years after 2010, you may hear two different versions.

**2012** *two thousand and twelve***2012** *twenty twelve*

They are both used and correct.

Now, we continue to say the year divided into two parts as before.
