Protection of environment - one of the most pressing issues of today
Scientific and technological progress will lead to the ecological situation:

- * depleting (истощение) natural resources,
- * pollute the environment,
- * *lost natural relationship between man and nature,*
- * *deteriorating physical and mental health,*
- * *exacerbated by the economic and political struggle for the commodity markets, the living space.*

Who does care about the environment?

There are many organizations in the world that protect the environment:

1) Greenpeace

Aim: To protect the environment, environmental education and promotion of eco-friendly lifestyle.

The image shows the word "GREENPEACE" in a bold, green, sans-serif font. The letters are slightly shadowed, giving them a 3D appearance as if they are floating above a light grey gradient background.
