Purpose: to show my future company

## Plan

1. Type of activity
2. Logo
3. Assortment
4. Interior
5. Advantages of the company

# Type of activity

Confectionery-shop "Don Makaron" will be created for the implementation of business activities in order to produce and sell a variety of confectionery products.

# Logo

A unique logo will be developed for the company.

# Assortment

The “Don Macaron” enterprise is intended for production, preparation and sale to the population for consumption on the spot, as well as for take-away of confectionery products:

- cakes;
- macaroons;
- pies;
- breads;
- hotcakes;
- doughnuts;
- gingerbreads.

# Interior

The interior is made in a modern restrained style. The entire room is made in brown and white tones. All the furniture is in a light color: white glass Windows with lace patterns, on which there are booklets with current promotions, discounts; white round tables with bright chairs in the form of bitten marshmallows. On the walls hang frames with interesting facts about confectionery, and there is also a large chalkboard on which everyone can draw.

# Advantages of the company

- use of modern, unusual recipes;
  - natural composition of products;
  - quite a wide variety of assortment;
  - product quality, always fresh products;
  - adequate price;
  - delivery;
- 
- the ability to make products to order according to your design;
  - original packaging that does not harm the environment, with the company logo;
