

Sovetsky region

The Soviet area is considered the pride of the intellectual potential of Novosibirsk, there are many scientific institutions and streets bear the names of famous academicians and famous scientists. In the district there are no industrial enterprises, residential quarters surrounded by mixed forest and pine forest, are sanatoria, preventoria, rest homes and children's recreational facilities. Supportive environment create also included with the territory water resources: the river Ob, and the Ob reservoir, a Duct of Large and small streams. The Novosibirsk hydroelectric power station, located in the Soviet area is of great economic importance for the city, and with hydroelectric dams offer a beautiful view of the Ob sea.

On the last Sunday of November, 29th in Novosibirsk microdistrict Obges there was an unpleasant incident. Store "Citizen" was the evacuation of people because of suspicious box that turned out to be just Christmas decorations. At the end of watch one of the store employees noticed a strange box, standing forlornly on the sidelines. Managers decided to play it safe: called the cops and brought the store employees and customers out of the building.

- The microdistricts of the Soviet area will take food fairs, which will run for a few days
