

# Project Eliya

Aus Nasir

# Indicators

- Bollinger Bands (20, 0, 2)
- Stochastic Oscillator (5, 3, 3)

# Trading Rules

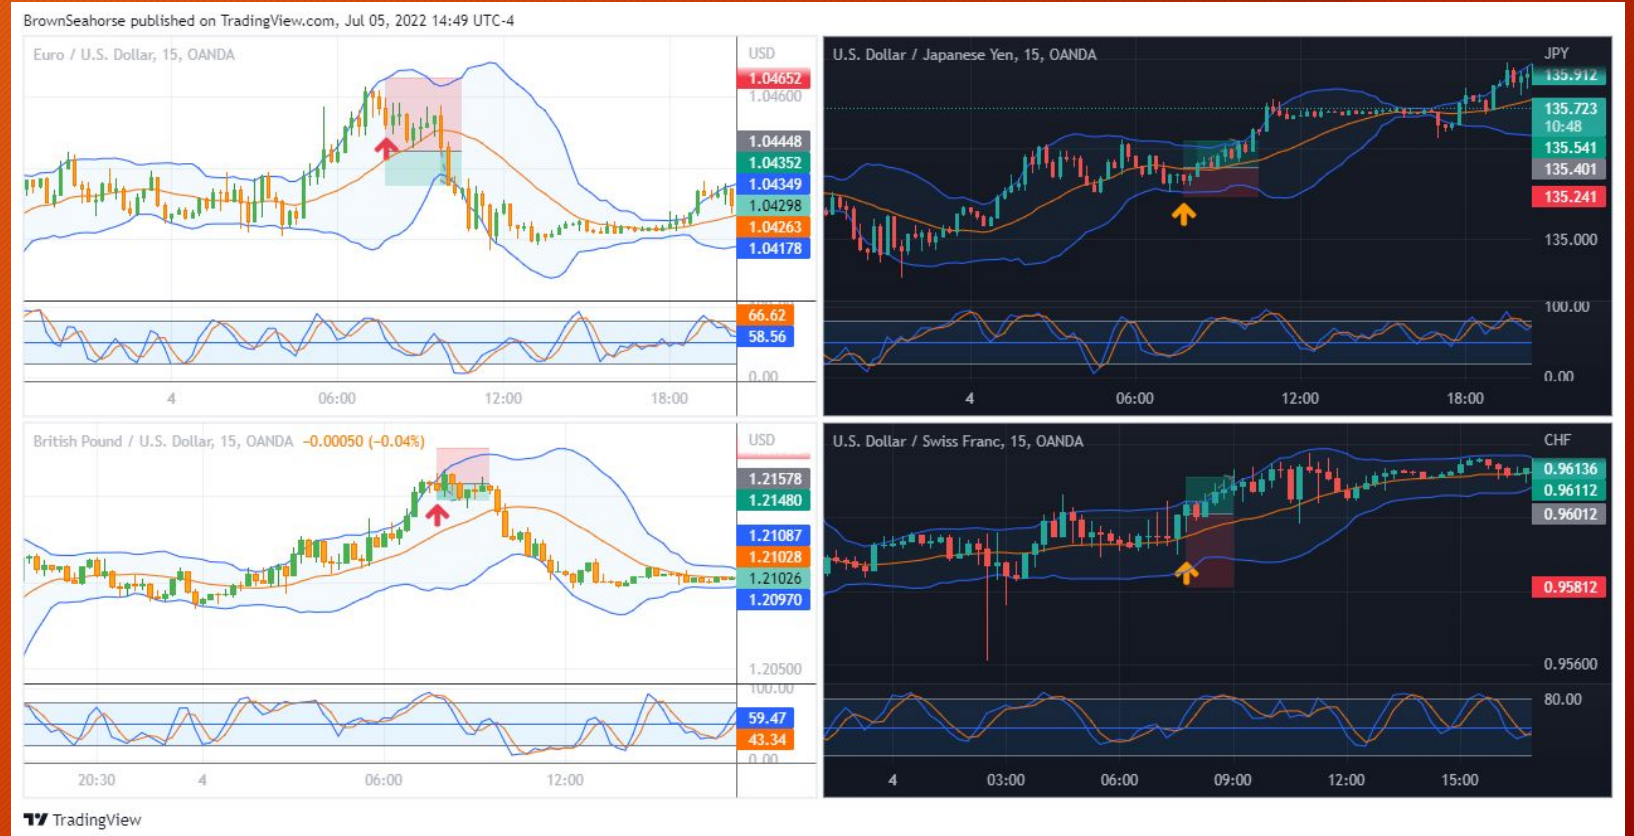

- 15 Minute Charts
- (EURUSD, GBPUSD, USDJPY, USDCHF)
- A close must happen outside the Bollinger Band indicator
- The Stochastic Oscillator indicator must be in a oversold (below 20) or an overbought area (above 80)
- If the market is in an uptrend, look for a red candle. If the market is in a downtrend look for a green candle
- We will call these the “**Signal Candles**”
- You see your signal candle, enter in that same direction and scalp your pips
- Stops are hard and should be kept at **20 pips**
