# WALLED CITY

If in 1636 Mikhail Fedorovich had not ordered to build a fortress on the Tsna River, then the Tatar nomads would have continued to attack the Muscovite state.

For 4 months, the Tonba fortress was erected. The first inhabitants of the fortress were the Mordovians. They gave that name. "Tonba" in translation from Mordovian means "swamp, lowland".

# ***Why are there three bees on the coat of arms of Tambov?***

*In 1781, the coat of arms of the city of Tambov was approved - a beehive and three bees on an azure background as a symbol of hard work and board fishing.*

*Indeed, you cannot find sweeter honey from Tambov in all of Russia..*

# ***The legend of the bees***

*“When the past, present and future unite in one circle, the Tambov land will be transformed,” says the legend of our city.*

*The elder, who appeared to Vanyatka, explained that the bee on his right hand would collect knowledge gained from experience and honest labor, the bee on his left hand would collect and preserve beauty, and the bee that sat on his forehead would preserve and strengthen faith..*

# *Beauty Tsna*

*I am glad to devote a page of  
poetry.*

*For you, the Tambov river.*

*You cannot compare with others:*

*You are not Volga and not Oka.*

*But I live by your side*

*I hear your spring noise*

*Your freshness, joy,*

*I breathe sultry in the weather ...*

*Day caresses you with rays*

*The moon admires in the night*

*You, calm, simple,*

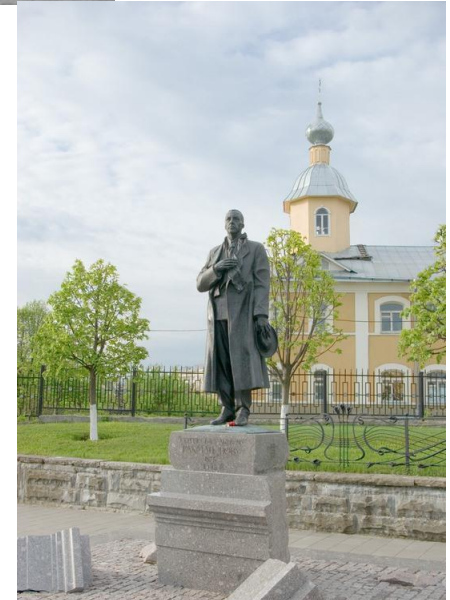

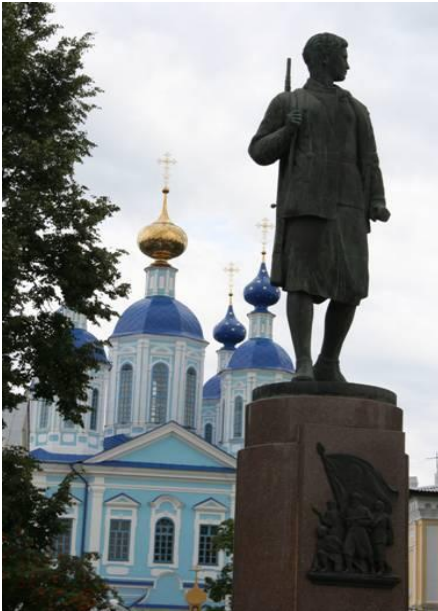

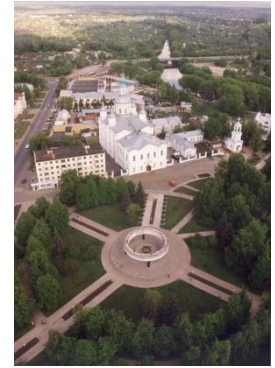

*slightly brooding Tsna.*

# Tambov wolf who is a friend?

*There were always wolves in the Tambov region. Common wolves, no special "Tambov" breed does not exist. There was also a stable phrase "Bryansk wolf", but the term "Tambov wolf" was not. According to I. Ovsyannikov, a local historian from Tambov, the term appeared at the end of the 19th century. The Tambov region was an agricultural land, after the completion of seasonal work, thousands of men left for other cities to earn extra money. They took on any job, even for a penny payment, interrupting the earnings of local residents. They grumbled with displeasure: "Again the Tambov wolves are scouring the yards, knocking down the price."*

*Tambov is rich in sights. Our city has a huge number of monuments*
