

# THE KAZAKHSTAN'S ARCHITECTURE OF THE 21<sup>st</sup> CENTURY (2016)

IN THE WORLD ARCHITECTURAL CONTEXT

*The Album of typical examples  
by Dr. Konstantin I.Samoilov,  
2017*

## SUMMARY

**2016 indicative of a gradual decrease in the popularity of neo-classical compositions and detailing. All the big role is played by the formalism trend – the concentration of all necessary for the product inside and abstracting from any context. This is especially bright sounds in the background of old town's historical-cultural context.**

**Equally interesting examples of recognizable concrete semantic associations creating. Reappears the contextualism, which preserving of a cultural landscape. Originally that interpretation is not exposed to the theme of historical monuments – theme is ordinary buildings of industrial and storage town areas. Among the striking compositions take place multiply examples of the "utility" rationalism.**

This Album is a continuation of the Theme “THE KAZAKHSTAN'S ARCHITECTURE OF THE 21<sup>ST</sup> CENTURY IN THE WORLD ARCHITECTURAL CONTEXT” [29, 30].

To illustrate this interesting phenomenon allocated 20 (10 + 10) typical examples of buildings.

Examples are distributed in chronological order of the construct completion.

Images sources are indicated directly near with illustrations on each page.

Architects and companies listed on the basis of aggregate data from different sources (for some objects from various sources indicate different authors). About some buildings listed authors in the available sources has not yet been found.

The Author expresses his gratitude to Internet resources – <https://www.google.com> ; <https://www.wikipedia.org> – which to provide the ability to collect an information.

This Album generated for information purposes of the Educational course "The Modern architecture (21<sup>st</sup> century)"
