We hope you find the information on our website and resources useful.

## Animations

This resource has been designed with animations to make it as fun and engaging as possible. To view the content in the correct formatting, please view the PowerPoint in 'slide show mode'. This takes you from desktop to presentation mode. If you view the slides out of 'slide show mode', you may find that some of the text and images overlap each other and/or are difficult to read.

To enter slide show mode, go to the **slide show menu tab** and select either **from beginning** or **from current slide**.

# Teacher notes

This resource is packed with five minute role play activities you can use with students of any age or ability. They start off easy and become more difficult as the PowerPoint goes on.

The objective is to keep the conversation going for as long as possible.

To support your students, you may want to introduce each role play with some questions, such as 'what can you see?' and 'what do they want?' and assigning roles.

After you've given students a few minutes to play out the conversation, ask for some feedback on how it went. They could even create their own scenarios or write down a short script.
